ALL CASH IN THE BANK TAKEN

At Keene Robbers Turn the Trick and Get Away Before Citizens Have an Opportunity to Interfere.

The Commercial bank of Gibbon and the Farmers & Merchants bank of Keene were robbed early Friday morning, the robbers in each case making their escape. The towns are three miles apart and it is possible men, who were seen in an automobile at Gibbon, may have done the two jobs, as the explosion at Keene did not disturb any person in the vicinity, and the exact time is not known. The bank at Gibbon sustained a loss of \$5,500. The sheriff of all central Nebraska counties are busily engaged in a search for the men. Both banks are members of the Nebraska Bankers' association. Secretary W. B. Hughes has offered a reward of \$500 for the capture of the robbers in each case. Both carried burglar insurance.

GIBBON, Neb., Dec. 18.—(Special Telegram)—Robbers blew the safe of the Commercial bank here this morning about 2 o'clock and made away with about \$5,500 of the bank's funds. When the president, C. C. Holloway, heard that robbers were looting his bank, he hurriedly dressed and seizing a six-shooter started for the bank. He was met by a fusillade of shots from five men and was forced to cover.

Bloodhounds from Lexington are on the trail leading to Sheriff Sammons is with the hounds. Reports have come in that five men in an automobile were seen north of Gibbon about the time of the robbery, and another report is that five men in an automobile were also seen south of Gibbon near the station. Gibbon is the second station east of Kearney. The bank at Keene in Kearney county was also robbed last night, but no clue is found to that robbery. One theory is that the same set of men robbed both banks.

The exact hour of the robbery at Gibbon is known as the robbers worked between 1:30 and 2:30 o'clock. When Mr. Holloway was called to the bank shortly after 2 o'clock, two men were at work on the outside and it was three or four minutes before Mr. Holloway when he appeared on the scene.

Parasit Slow in Starting. GRAND ISLAND, Neb., Dec. 18.—(Special Telegram)—The Lexington blood hounds were put on the trail of the Gibbon robbers at Keene and at 11 o'clock were reported by G. T. Holloway, president of the bank, to have struck a trail.

Reports are conflicting, however. Five men are reported to have been seen southeast of Gibbon making away in an automobile. While no chase was given by citizens, it is known the men left in an easterly direction. Mr. Holloway states that all of the cash on hand was taken, but fortunately the funds were very low. The bank had just prepared to get in a shipment a few days later. A week earlier would have been much more unfortunate.

The safe was completely wrecked. About twenty-five citizens were kept at bay by the robbers by firing revolvers. The dogs were put on the job at 9 o'clock this morning, about eight hours after the robbery. This was the first attempt at a chase.

Work Done Quietly at Keene.

KEENE, Neb., Dec. 18.—(Special Telegram)—The Farmers and Merchants bank of Keene was robbed this morning by five men of whom there is no trace. The bank building was entirely safe. The safe was blown, the explosion being so muffled that persons living fifty feet from the bank building did not hear it. There is no clue to the robbers. Sheriff Rammon of Kearney county was notified as soon as the robbery was discovered and took steps to head off any suspicious characters who might be discovered in the county, near Keene. This is the third bank robbery in Kearney county in five years, and the second in three months, the bank of Heartwell having been robbed only recently. The bank was insured for \$500 against burglary by Martin Bros. of Omaha.

FORT SINKS OIL STEAMER

Burning Vessel Sent to Bottom of Bay at Singapore to Prevent Shipping.

SINGAPORE, Dec. 18.—The burning oil ship Kalkan Kalamo was bombed by a motor boat here today and finally sank with its hull riddled with solid shot. The flaming steamer, which sailed from England, arrived in Singapore from New York two days ago with its cargo of coal oil on fire. All attempts to extinguish the flames were unsuccessful, and the vessel made its way to the bottom. This failed also, and the danger to shipping became serious. It was impossible to get near the craft because of the possibility of explosions, and finally the harbor agents appealed the gunners of the fort, who sank the Kalamo with a few well directed solid shot from the fortifications six-inch guns. The distance was two miles.

CONSTITUTION FOR CHINESE

Foreign Board Busy and Editors Are Issued Circulating the Local Situation.

PEKING, Dec. 18.—The Foreign board is again giving attention to the foreign business of the empire, which has been practically at a standstill during the twenty-seven or thirty days following the death of the emperor and the danger ensuing. Several imperial edicts have been issued recently covering the details of the project to bring China to a system of constitutional government in nine years.

GLASS WORKERS MAY STRIKE

Wage Condition Serious in Center of Producing District—Men Demand Increase.

HARTFORD CITY, Ind., Dec. 18.—Indications now point either to a capitulation on the part of the National Window Glass Workers' association or one of the largest strikes known to the window glass trade for years. The going into effect of the new wage scale has been postponed from December 15 to December 22. At Columbus, O., all the window glass manufacturers in the country will meet to take action on the scale. As is known only two concerns have signified their intention of paying the new scale.

Manufacturers say they have many orders on their books at prices now prevailing. The new scale would cause them to lose thousands of dollars. Apparently the solution is the formation of the project to the hand-operated factories and give the workers an increase in wages. It is generally agreed that wages are too low, but on the other hand, it is said the selling prices will not permit an increase at this time. The conditions are said to be due to the efforts of its co-operative to understand the market and the competition of the machine.

PUBLISHERS COME INTO COURT

Men Sued by John D. Rockefeller Surrender and Are Paroled.

NEW YORK, Dec. 18.—Bradford Merrill, who is accused jointly with S. S. Carvalho and Edward H. Clark, all officers of the Star Publishing company, which publishes William R. Hearst's newspaper, The American, surrendered himself at the Tombs police court today to answer the charge of criminal libel on the part of John D. Rockefeller, Jr. He was paroled until December 31, when the case against Carvalho is to be heard. The magistrate was told that Clark is in California, but expects to be here when the case is called.

Hopes to Settle Clash Between Military and Civil Authorities.

ALSO AFTER HEADQUARTERS

Ambassador Bryce Invited to Address McKinley Club Banquet and Indications Are that He Will Accept.

(From a Staff Correspondent. WASHINGTON, Dec. 18.—(Special Telegram)—Congressman Hull, of the military affairs committee of the house, expects to spend the week in Des Moines and while there will inquire closely as to the country. He is hearing of friction between the people of Des Moines and the Second cavalry. It has come to the attention of the War department that the officers and men of the Second cavalry, stationed at Fort Des Moines, feel they are being persecuted by the police of Iowa's capital. Instead of consideration being shown the men who go into town on an evening and imbibe too freely at the liquor joints in Des Moines, the police, instead of pointing the way to the fort, which was its creation to the pertinacity of Captain Hull, throw the offenders into jail and immediately there comes a clash between the civil and military authorities. These things are most embarrassing to the representative of the Seventh district and he proposes to go home and try to straighten up existing conditions. Captain Hull hopes to bring about a better understanding between the men of the Second cavalry and the people of Des Moines.

Hull After Headquarters. All this brings up the subject of Captain Hull's desire to remove the headquarters of the Department of the Missouri from Omaha to Des Moines. Of course, there is no legitimate reason for the change, but Hull believes that might strengthen him in Des Moines if the change proposed was brought about. To the Bee representative Captain Hull said today he believed in a general rearrangement of the military departments. He has a scheme to reduce two or three of the present departments and make four general divisions to be presided over by senior brigadiers, or, if necessary, a major general, with substations at places where conditions demand.

Bryce May Visit Omaha. Senator Brown this morning accompanied leader Ziegler to the British embassy, where the latter extended an invitation to Mr. James Bryce to attend the annual banquet of the McKinley club of Omaha. While not at present able to definitely accept or decline it seemed to be the impression gained by Senator Brown and Mr. Zeigler that Ambassador Bryce would accept.

Later in the day Senator Brown accompanied Mr. Zeigler to the supreme court, where, upon motion of the senator, Mr. Zeigler was admitted to practice. Senator Brown today advised that the pension of John Stern, 307 Franklin street, Omaha, recently suspended upon certain legal technicalities had been resumed at \$2 per month.

Congressman Pollard has secured an old iron cannon now at the government arsenal, San Antonio, Texas, for Nebraska City. Inaugural Committee. Speaker Cannon today announced the following as the representatives of the house on the inaugural committee: Messrs. Burke (Pa.), Young (Mich.) and Gaines (Tenn.).

CASTRO RUNS FROM TROUBLE

Belief in Germany Venezuelan President Took Time by the Forelock in Leaving.

BERLIN, Dec. 18.—Both the German Foreign office and President Castro discredited the report that Venezuela has declared war against the Netherlands. The Foreign office takes the ground that even if hostilities had been declared the declaration cannot become effective because Venezuela is in no position to carry a campaign beyond its own borders and Holland will not exceed the limits of its retaliatory course as already fixed and known to the United States.

The feeling is also growing here that President Castro left South America not because of illness, but to escape the political turmoil, and that he has no intention of ever returning. The German government has information stating that it is uncertain whether Vice President Gomez will become president of the republic or whether a provisional government will be organized under another head. Gomez is believed still to be true to Castro. President Castro still persists in giving out details that any trouble occurred in Caracas December 14, when an infuriated mob made a demonstration against the absent president and his followers. Castro is to be transferred to Professor Israel's private sanitarium Sunday for a week of observation to determine whether an operation is necessary. Senora Castro and part of her husband's suite will also enter the hospital with the president. The entire first floor has been engaged for them.

WICKERSHAM IN THE CABINET

Statement that New York Lawyer Will Be Attorney General.

KNOX IS CONSIDERING OFFER

Pennsylvania Senator Will Probably Be Secretary of State—Judge Ballinger for the Interior Department.

BULLETIN.

AUGUSTA, Ga., Dec. 18.—President-elect Taft tonight announced the appointment of United States Senator Philander C. Knox of Pennsylvania as secretary of state in his cabinet. The announcement followed the receipt by Mr. Taft of a telegram conveying the information from Mr. Knox that he would accept the premiership of the Taft cabinet.

NEW YORK, Dec. 18.—That President-elect Taft has selected George W. Wickersham of the New York law firm of Strong & Caldwell to be attorney general in his cabinet was learned today from a source that is regarded as reliable.

Mr. Wickersham is known in this city chiefly through his connection in a legal capacity with the great underground system of transportation. Ever since August Belmont began work on the subway eight years ago, Mr. Wickersham, as representative of the firm of Strong & Caldwell, has had general supervision over the legal question in connection with the undertaking.

After the completion of the tunnel work he was counsel for the Interborough Rapid Transit company, which operates the subway and elevated lines of the city. Prior to the recent election he resigned that position. Mr. Wickersham was counsel for the receiver of the Knickerbocker Trust company until its reopening. He was graduated from Princeton university with the class of '86.

Wickersham Well Qualified.

WASHINGTON, Dec. 18.—It has been known here for several days that the name of George W. Wickersham of New York, has been under consideration by President-elect Taft for the post of attorney general. Among other things consulted by Mr. Taft concerning Mr. Wickersham's qualifications was Senator Knox, former attorney general of the United States, who is believed to be the choice of Mr. Taft for the post of secretary of state. Senator Knox declined to discuss the question in any way, but it is understood he endorsed Mr. Wickersham fully and argued that a man of sufficient capabilities in the legal profession for the attorney generalship could not be found outside the ranks of the general public who have had some experience as corporation lawyers.

The important office of secretary of state under the incoming administration is still unfilled. The exigencies of Pennsylvania politics have led Senator Knox to enter into the answer he shall make to the invitation of the president-elect to become his secretary of state. Up to this moment the senator has not yet reached a decision so far as can be ascertained. For some time it has been rumored that President-elect Taft has in mind the appointment of either Senator Knox or former Senator John C. Spooner.

While in Washington last week Mr. Taft told several of his close advisers that if he could fill to his entire satisfaction the position of secretary of state, secretary of the navy and attorney general he would get by at all disturbed by the difficulty of getting suitable appointees for the remaining positions. It is generally believed here that an Ohio man will be selected for secretary of the treasury.

MOVING PICTURE THEATER PRICES. Burlington's Passenger Traffic Manager Gives the History of Transportation Charges. KANSAS CITY, Dec. 18.—A long array of statistics and figures that have been told and retold in the Missouri rate case hearing are being given a temporary rest by P. S. Eustis, passenger traffic manager of the Burlington railroad system, who returned the witness stand this morning. Mr. Eustis told of the railroads' days in Nebraska in the seventies, when the passenger rate was 5 cents per mile and the law makers had never dreamed of telling the transportation companies what they should charge. To induce settlement of land given them by the government, the railroads carried homeseekers and their goods to the country free of cost, said Mr. Eustis, and later the roads of their own volition reduced the passenger rate to 4 cents a mile. In 1882 the state legislature, composed in part of some of the early homeseekers, demanded a further reduction, and later, Nebraska fell in line with the other states and now has a 2-cent passenger law. The witness further said it now costs 10 per cent more to handle state than interstate traffic.

Just then Richmond ripped up one corner of the lid and One flew over to Richmond's convert. And thus was the fight kept up until the members retired behind closed doors. Reason for Meeting. The Fourth district members met, Mr. Wilson explained, simply to listen to him discuss a banking bill so that he could get pointers. Then, besides, he said, the Fourth district has no candidate for any speaker or clerk or any other office, so it was agreed that they should meet and form a close corporation, though he did not mention that closed corporation. Mr. Wilson has a plan for a new banking law of which the guaranty of deposits is the main feature. He would like to see a tax on the banks to create a fund beginning the first year with a levy of one-half of 1 per cent and follow that with an annual levy of one-tenth of 1 per cent until the fund equaled 1 per cent of the total deposits of the state. He would limit the number of assessments which could be made on a bank to 3 per cent of the deposits in one year. He would have 25 per cent of the deposits paid out when the bank failed and then depositors should be given receiver's certificates for the remainder. These certificates, he said, should draw 7 per cent interest and run probably for one year. Any bank he figured, would cash the certificates. In the matter of a commission of bankers to enforce the law he endorsed Governor-elect Shallenberger's plan, and in addition he would give each bank examiner a clerk to check over the books and thus save the examiner the trouble of looking after the bank's securities. Mr. Wilson announced that he desired to be a member of the committee on banking.

DEMOCRATS IN EVIDENCE

Legislators Confer and Candidates for Clerk Are Busy.

MULLEN GIVEN A CALLOWDOWN

Democratic Member from Clay County Says County Option Will Be a Big Factor in Organization of Legislature.

(From a Staff Correspondent.)

LINCOLN, Dec. 18.—(Special)—With Cone to the right of them, Richmond to the left of them, Cone to the right of them, Richmond to the left of them, a bunch of the underlings from the Fourth Congressional District met at the Lincoln hotel this afternoon to discuss legislative ways and means and pave the way for Victor Wilson of Stromberg to be chairman of the committee on banking.

Cone and Richmond, or Richmond and Cone, to be fair to both, each desires to be chief clerk of the house. So that is why Cone was to the right of them, Richmond to the left of them, Cone to the right of them, Richmond to the left of them and the reverse. Those at the meeting, which was called by Mr. Wilson for the "reported" purpose of submitting the draft of a banking bill, were Representatives Broderick of Clay, Lux of Butler, Murphy of Fillmore, Gregg of Platte, who stroled over from the Third district, and possibly one or two more. Mr. Clancy of the Union Pacific remained at the Lindell hotel during the meeting, after which he went to the state house on official business, writing out having received a report of the session, which was executive. The fact that Mr. Clancy had been in Lincoln all night is not material, so the legislators indicated.

But back to the real story. Never in the history of Nebraska politics have two men put in a more strenuous day than did Cone and Richmond. To get legislators away from each other and from visitors in the hotel lobby these two worthy patriots thought nothing of dislocating an arm at the shoulder; they paid no attention when ears stretched clear out of all reason; not a bit of it.

"I thought you had the job nailed down," said a member to Cone, after being dragged across the lobby. "I have," replied the Saunders county soldier, "and I want to keep it that way."

Just then Richmond ripped up one corner of the lid and One flew over to Richmond's convert. And thus was the fight kept up until the members retired behind closed doors. Reason for Meeting.
