LIQUIDATION IS ABOUT OVER

Corn is Still Weak Under Heavy Selling and Wheat Started a Shade Lower on Easier Cables.

OMAHA, Dec. 18, 1908. OMAHA, Dec. 18, 1908.

Liverpool and foreign markets took a decline, which had its effect on the local market Liquidation is about over and there seems to be no particular reason for

a further decline.

Corn is still weak under heavy selling.

The hear faction has a strong hold and, with receipts as heavy as could be possed by the selling. The selling is selling to handle, there is little or no hope for an improvement as long as the movement continues and the cash situation remains

Wheat started a shade lower on easier cables. Spot wheat was only fairly steady and the futures declined. The weakness in corn was an influence and traders were dined to be slow and were waiting for me news to start a movement either way, ecember wheat opened at Mac and closed

at Mac. Corn was depressed and selling general, with buyers holding back and taking very Cash demand was slow and receipts con-tinue liberal. Shipping demand cannot be called good and the big bear leaders are pressing these features.

December corn opened at 515c and closed

December corn opened at 51% and closed at 50%.

Primary wheat receipts were 52.000 bu, and shipments were 174.000 bu, against receipts last year of 68,000 bu, and shipments of 23,000 bu, were 850,000 bu, and shipments were 841,000 bu, against receipts last year of 536,000 bu, and shipments of 427,000 bu, against receipts last year of 536,000 bu, and shipments of 427,000

year of 556,000 bu. and shipments of 427,000 bu.

Clearances were \$6,000 bu. of corn, 11,000 bu. of oats and wheat and flour equal to 280,000 bu.

Liverpool closed \$49 % d lower on wheat and \$40 % d lower on corn.

Wheat, Corn. Oats. CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing

Prices on Board of Trade.

CHICAGO, Dec. 18.—Weakness of coarse grain had a depressing effect on the wheat market today, but buying by shorts caused a steady tone at the close. Final quotations were unchanged to the lower as compared with the previous close. Corn and onts chosed weak, and provisions steady.

The wheat market opened weak, with prices 160% to NGPaic lower than yesterday's final figures, and continued weak the greater part of the day. There was a fair raily, however, late in the day, owing to active buying by shorts, based mainly on a prediction that the world's shipments of wheat for the week will show a liberal decrease. As a result of this demand the market closed at almost the best prices of the day, with May at \$1.65%, \$1.00 and July at \$73,00 files. Selling throughout the day was inspired principally by a further decline in the price of corn and cats, but wakness of the wheat market at Liverpool and the regort of a St. Louis trade parmal regarding the fall-sown crop of wheat in this country slook had considerable influence. According to the St. Louis journal, latesown wheat has been greatly benefited by recent rains, but the early-sown crop has fing the fall-sown purity also had considerable and wheat has been greatly benefited by the searly-sown crop has an injured by Hessian files. There was demand for cash wheat here and error business also was at a standstill Clear-nees of wheat and flour were equal to 186,000 bu. Exports for the week, as shown by Bradstreet's were equal to 186,000 bu.

The corn market was weak again today and prices were at the lowest marks regisand prices were at the lowest marks regisand since last July. Cash corn was in to sell from the securities of the self sinches.

L. A. WELSH, Local Forecaster.

St. Louis General Market.

ountations on May were at 60% and on July at 60%.

Cash interests were free sellers of oats nearly all day, which caused a weak market. Cash oats were weak and the lower. The market closed weak at a net deciline of % to %c, with May at 51c and July at 60%.

The feature of trade in provisions was the changing of January holdings to the May delivery. There was a large volume of business, but prices held fairly steady. At the close prices were a shade to 7% CORNMEAY—8.30

NEW YORK, Dec. is.—There was further weakness in stocks today, but the market was not so entirely without support as was the case yesterday. Efforts were plainly seen during the early part of the day to atrest the decline. The resistance shown by American Smelting at 89 and by United States Steel at 53 was an example. When the smelling stock began to break to new low levels the bears threw off their timidity and renewed the attack on the general list.

The assumption is widespread that a concerted professional attack is responsible for the decline in prices, and the quick railless from time to time, indicating a hasty covering of shorts, is corroborative of this view. Much attention was devoted to American Smelting and to the published reports of a project to build rival smelters through the country and organize a formidable competitor to the present dominant interest. The condition in the copper market was responsible for the sharp decline in Amaignmented Copper, and reports of a combination in process of for-

midable competitor to the present dominant interest. The condition in the copper market was responsible for the sharp decline in Amaigamated Copper, and reports of a combination in process of formation to control the marketing of copper did not offset the knowledge that production was far in advance of consumption in that industry. The larger inferences drawn from threatened smeiting competition also burt the market. The hostile array of great financial groups was in contrast with the hopes recently prevalent in the financial district of harmony in all the great forces of wealth and cooperation. The passenger fars warfare opened up by the Wabzah over business between Pittsburg and Chicago had something the same effect with increased influence on account of the supposition that E. H. Harriman was a new power in Wabash affairs.

A more radiant explanation of the pressure of lightfastion in the stock market was found in the outlook for tomorrow's bank statement. The rise in money rates during the week seems to have attracted some funds from other points, the gain of the local banks on the bainnes of the interior movement rising sharply over last week to over \$1,000.00. A merger offset the subtreasury absorption of \$18.53.

00. As the figure of the surplus reserve atom during the week have made continued requirements on banking credits. The easier tone of call loans vesteriag and today, however, prove the conservation of a margin of surplus reserves. This easier tone for call loans vesteriag and today, however, prove the conservation of a margin of surplus reserves. This easier for money was accomplished today by a recovery in foreign rates and by a violent break of 2 centimes in the sterling exchange rate at Paris. Discounts also hardened in Paris and in London and Bonds were irregular. Total sales, par value, £590.00. United States bonds were unchanged on call.

Number of sales and leading quotations on stocks were:

The market was slow throughout with prices showing more or less irregularity. Some of the best hogs may possibly have been a little strong in spots, while the less desirable kinds in some instances looked lower. Taking the market as a whole, however, there was no very great change as compared with yesterday, but it took considerable time to effect a clearance in spite of the moderate offerings. The hogs sold largely at \$2.256 In for spot and £83 is 6d for futures. The local market was dull and nominally unchanged Lake is quoted at \$4.5694.57%, electrolytic at \$4.66914.13% and casting at \$11.57%.504.00. Lead was unchanged at £13 is 5d in London and at \$4.5694.31 in the local market. Spelter was also unchanged in both markets, closing at £29 its in London and at \$5.1694.15 in New York. No change was reported in the London from market, with Cleveland warrants quoted at \$6.504. Locally from was unchanged, with No. 1 northern foundry queted at \$1.06917.50. No. 2 northern foundry at \$15.56917.50 and No. 1 southern and No. 1 southern soft at \$7.5617.75.

ET. LOUIS. Dec. 18—METALS—Lond. offerings. The bogs sold largely at \$2.269 5.00, with a top at \$5.90 A week ago today the hogs sold principally at \$5.3895.50, with a top at \$5.75.
