maintain prices at which respondents sold the products of petroleum in this state.

History of Suit. The state's oil suit against the Standard, Republic and Waters-Pierce companies was instituted almost four years ago.

The evidence was taken in St. Louis and in New York, where R. L. Rogers, principal, was compelled to testify before a special commissioner.

At the same time Rockefeller was compelled to remain in New Jersey to avoid Hadley's subpoena service. It being Hadley's wish to place the aged oil king on the witness stand.

The evidence has been before the state supreme court for a year, owing to its commanding importance it was considered by the entire court. All seven judges concurred in the opinion, which was written by Judge Woodson.

That the decision as to the Waters-Pierce company represents a compromise is shown by separate concurring opinions filed by Judges Lamm and Graves.

Judge Lamm holds that the Waters-Pierce company should be fined \$1,000,000 instead of \$50,000. Judge Graves' opinion is that the Waters-Pierce company should not be deprived of its corporate franchise. He takes this ground to protect the minority stockholders.

ALLEN FOR FINANCIAL MAN

Proposal to Give Him Management of University's Money Bag.

TAKES WORK OF CHANCELLOR

Mayor Brown Announces the Curfew Law to be Enforced and Children Must be Kept Off Streets at Night.

(From a Staff Correspondent.)

LINCOLN, Dec. 23.—(Special.)—Many rumors are in the air regarding proposed changes in the management of the State university. One report is to the effect that it is being seriously considered offering the position of financial chancellor to C. S. Allen, at this time a member of the Board of Regents. This was generally talked about before the selection of Prof. Avery to be acting chancellor. It is one of the stories afloat now that shortly after the first of the year Mr. Avery will be chosen permanent chancellor and that Mr. Allen will be invited to be the financial chancellor and have supreme authority over the finances of the institution.

The university now spends more than \$1,000,000 every biennium and the regents have come to the conclusion that a change from the way of the old management is necessary to get the best results. The selection of a financial chancellor who will have no other work to do has appealed to the board, so it is likely there is more to the rumor than mere talk.

Mr. Allen is a lawyer with a good practice, so it would require a good sized salary probably to get him to take the place, but it is reported that he would not be adverse to receiving a proposition.

After the Kids. Mayor Brown is out in a statement that the curfew law must be enforced. Too many small boys and girls are roaming the streets at night to suit his honor and they must be kept at home or their names will be reported to the juvenile court officers. Parents of these children are also subject to prosecution.

MOTHER ABANDONS HER INFANT

Woman Gives Birth to Child on Train and Throws it Off.

DAVID CITY, Neb., Dec. 23.—(Special Telegram.)—A new-born child was found by the side of the Burlington track this morning after a passenger train had passed and investigation disclosed that the mother gave birth to the infant on the train and then threw the baby in a closet on the train, from which it fell to the right-of-way. The baby died shortly after.

The mother, who was traveling from Columbus to Lincoln, was taken off the train at Lincoln by the police. She gave her name as Mary Wilson, but this is not believed to be her right name.

A coroner's jury was impaneled here and returned a verdict that the child came to its death by willful and intentional neglect and exposure on the part of the mother. The woman is 21 years of age and was sick on the train after it left David City.

LINCOLN, Dec. 23.—(Special Telegram.)—The young woman who was supposed to be the mother of the baby found beside the track at David City was taken into custody on the arrival of the train in this city. She is now at St. Elizabeth's hospital in a serious condition, though it is thought she will recover. Her name is Miss Jane White. She was an inmate of the Milford home in 1926, being sent there from Columbus. Since her discharge from there she says she has been living alternately at David City and Columbus, getting on the train this morning at Columbus with the intention of entering a hospital in this city. She refuses to give the name of the man who is implicated in the case.

PLATTSMOUTH—Rev. J. H. Salisbury has made his final report as the pastor of the Methodist church here. He was called to Mitchell, S. D., yesterday by a telegram announcing the death of his father, John Miller.

TRUMBULL—This town is still building. A large livery barn is being completed and another large restaurant is being built by A. C. Williams, the transfer man.

NEBRASKA CITY—Mrs. Savina Clark, aged 82 years, died at the home of her son in Dunbar, cancer of the stomach, and the remains were taken to High Point, Ia.

HOW TO BREAK UP A BAD COLD

A REMEDY WITHIN REACH OF ALL.

Pleasant and Safe to Take—No Loss of Time—All Danger of Pneumonia Avoided.

It may be a surprise to our readers to learn that a severe cold in many instances is completely broken up in one or two days' time. To do this, however, prompt action is necessary. The first symptoms of a cold are a dry, loud cough, a profuse watery discharge from the nose, and a thin white coating on the tongue. When Chamberlain's Cough Remedy is taken in double doses every hour after the first appearance of these symptoms, it will counteract the effect of the cold and restore the system to a healthy condition within one or two days' time, in almost every case, and when the cold is not completely cured in this time, its severity will be greatly lessened and a complete cure insured in a very short time. When no action toward curing the cold is taken, the dry, loud cough is followed by a profuse watery expectoration, and that by a difficulty in breathing, a peculiar tightness of the chest and a slight expectoration of very tough and tenacious mucus. Few persons pay any attention to these symptoms in condition, that is, until the cold has become settled in the system. The first action should be to relieve the lungs. This is best accomplished by the free use of Chamberlain's Cough Remedy. This remedy liquefies the tough mucus and causes its expulsion from the air cells of the lungs, produces a free expectoration, and opens the secretions. A complete cure soon follows. In some cases, however, several days are required, but the experience of thousands in the use of this remedy has been that it will cure a severe cold in less time than any other treatment, and that it leaves the system in a natural and healthy condition. This remedy also prevents a cold from resulting in pneumonia. Price 25 cents, large size 50 cents.

where it will be interred beside his wife. William Stehr was a pioneer, and in the fifties was a freeman on river boats between New Orleans and St. Joseph, Kansas City and Davenport. He joined the colony which was organized at Davenport in May, 1857, to locate a city in the valley of the Platte, and was one of the first white men to locate in Nebraska, west of Columbus. He remained here until the sixties when he returned to Iowa. He died at the home of his daughter, Mrs. Henry Cohen, at Loup City at the age of 77 years. He leaves three sons and three daughters, two of the sons being residents of Omaha and one of San Francisco, and three daughters, as also a sister, Mrs. John Thomassen, who was the first white girl in this section and still lives on the old homestead near this city.

BROKEN BOW—Another accident that originated with an automobile occurred yesterday three miles south of here, when a team of horses driven by Mrs. Earnest Moore took fright at Norton Bryson's machine and ran away, breaking the carriage in pieces and injuring Mrs. Moore and her mother-in-law, Mrs. Mortimore Moore, who was accompanying her. The women were driving into town from their farm when the accident occurred. Bryson, who owns a miniature "noise car," about the size of baby cart, was climbing a hill, while the team came from the opposite direction. They met on top. The horses shied violently and immediately started to run away, upsetting the wagon and throwing the occupants out. Bryson jumped from his car, headed the horses off and succeeded in stopping them. The women were taken to the Raynor farm nearby and later brought to town by Mr. Raynor. Mrs. Mortimore Moore sustained painful injuries in the side, while Mrs. Earnest Moore was badly cut and bruised about the head.
