OMAHA, Jan. 2, 1909. All grain options, with their cash values, started the new year with prices well to-ward the high levels for the crop year. Wheat is within 4 cents of the high point, and with most promests of the high print.

visions firm. Following a rather weak opening the wheat market developed considerable strength during the last half of the day and closed at almost the highest point of the sension. The strength was due chiefly to covering by shorts who based their actions on the report of a St. Louis trade journal which claimed that while recent rains had greatly benefited winter wheat the crop had been injured by the heastan fly. Aside from this report there was lit-tic news of sufficient importance to affect

is fluid or solid or gazeous makes little difference since under the immense pressure within the earth materials can not only transmit vibrations and resist compressions like a solid, but they can change their shape as easily as a fluid. They are fluid just as lead is when forced to flow from a hydraulic press. They are necessarily Intensely hot. That there are ores of value

to mankind in these underneath rocks is now generally admitted. The Salton Sca, says Mr. F. H. Newell,

director of the United States reclamation service, and its apparent miraculous growth has given rise to almost inhumerable popular discussions, many of which are founded upon misapprehension of facts. The sea is not a sea at all, but an accumulation of waste water in the bottom of a depression 300 or more feet below sea level. Relatively to a real sea it is a more puddle or duck pond in a vast extent or arid desert, which at one time was the floor for a large body of fresh water. It is not a new thing but a revival in historic times of what has probably occurred frequently in geological

soon after the founding of the institution history. The widely advertised effect upon in 1846, of adding to the official proceedings the elimate of the expanded Salton Sea is and transactions of its governing bodies, a practically negligible. The wonderful reselection of papers on many scientific subjects, has been continued. These addi- sults attributed to the sea in increasing tional papers, twenty-nine in number, gathritories is a case of placing the cart before ered from many sources, are designed to the horse; that is to say, the apparent inportray in general the scientific progress of the world during the year. Some of crease in rainfall throughout the west is 2,000 them are prepared especially for the re-2,462 port, and others are reprinted from scientific and technical journals that have not than the reverse. Mr. Newell describes vividly the break in the dike of the Colorado river, the knife-like cutting of the new channel, the organized attack on the water language, and thus they carry into effect and the final successful closing of the break during the year. The sea may now evaporate at from five to seven or more feet annually, but for many years it will prob-

NEW YORK, Jan. 2-Imports of mer-chandise and dry goods at the port of New York for the week ending December 26 were valued at \$12,071,006. Imports of specie were \$90,561 silver and \$77,612 gold. Exports of specie were \$723,766 silver and \$31,250 gold.

YEAR BEGUN WITHOUT HOMES Eviction Suits and Judgments Started

in Large Numbers in Courts of Justices of the Peace.

About forty residents of the city and heads of families have begun the new year with a search for homes. At least that number of dispossession suits have been heard and eviction writs granted in justice courts within the last few days, and Saturday the rush of landlords to get rid of nonpaying tenants was heavy. The merit of the cases varied: Some were SHEEP-There was only one car of ewe against out and out "beats;" some, alas against men who have been struggling helplessly against adversity; some who waged a battle with John Barleycorn, and

evenuated as successful as did Burns with the Big Moke in Australia. There were also a jarge number of suits

filed to get judgment on bills. There will be many more of these before the month
