MESSAGE OF LOCAL INTEREST

President Mentions Names of Omaha Men of Prominence.

DWELLS ON C. T. STEWART CASE

Refers to Mathews and Baxter incidents and speaks of "Bill" Gurley, W. J. Connell and other attorneys.

President Roosevelt's message contains some matter of special interest to Omaha, Nebraska and Council Bluffs. It is so special as to be personal, for the president even mentions names of some prominent citizens with whom, in connection with his secret service discussion, he has to deal.

The president reviews the land fraud prosecution carried on in Nebraska since 1901. He cites some of the difficulties that were encountered by the government in its work, not only in this state, but in other parts of the west. In Colorado he calls attention to the assassination of Secret Service Agent Walker and says:

"In Nebraska it was necessary to remove a United States attorney and United States marshal before satisfactory progress could be made in the prosecution of the offenders."

The United States marshal was T. L. Mathews, and attorney, Irving F. Baxter, both of Omaha.

And citing some of the results of the prosecution the president directs attention to the fact that two of the largest cattlemen, Bartlett Richards and W. G. Constock, were convicted and sentenced to a fine of \$500 each and prison term of twelve months. It was in connection with the case of these men that Mr. Mathews lost his position.

Charles T. Stewart, who lives in Council Bluffs, is prominent in society there and in Omaha, and has his wholesale business house in Omaha, comes in for considerable attention by the president.

Compliments to Stewart.

The message states regarding Mr. Stewart:

"In his final proof he swore that he and his family had resided on the lands in McPherson county (which were within his unlawful enclosure), when as a matter of fact his family has at all times resided in Council Bluffs, Ia. He is engaged in the wholesale grocery business, his store being located in Omaha in the wholesale district there. He is reputed to be quite wealthy. Stewart's attorneys are Earl & Stanley of Council Bluffs, who are also the attorneys at that place for the Omaha & Council Bluffs Street Railway company, in which company Earl holds considerable stock.

It is also represented in Omaha by W. J. Connell, one of the attorneys for the same company.

"Stewart is also represented in his perjury case by 'Bill' Gurley of Omaha, who at one time was quite closely connected to a political party with the Union Pacific Railway company."

The president then quotes the United States attorney at Omaha as saying:

"There are three cases against Stewart—one for fencing, one conspiracy, one perjury—all good cases and chances of conviction."

Commercial Club of Lincoln Proposes to Hold One in March.

MERGER OF STREET RAILWAYS

Thousand Dollars Sent to Aid the Distress in Italy and More is Expected to Be Raised at Once.

(From a Staff Correspondent.)

LINCOLN, Jan. 4.—(Special.)—Secretary Whitten of the Commercial club has taken the initial step towards holding a manufacturers' show in Lincoln in March. He sent out the subpoenaed letter to local manufacturers today.

As an advertising medium, and more particularly as a means of increasing the local consumption of goods made in Lincoln, it has been proposed to hold a manufacturers' show in Lincoln in March. The expense of such an exhibition, including rent of building, and the erection of uniform booths for the display of goods and advertising, is conservatively estimated at about \$1,000. Floor space 9x15 feet can be provided for forty exhibitors, which would make an average expense to each firm of \$25.

These home products exhibitions have been put on in a great many cities and have proved a very effective way of increasing the local demand for home-made goods, and we believe without question that the same result would be obtained from an exhibition of this kind put on in Lincoln. If the matter is carried out, as many working exhibits as possible should be installed.

This letter is addressed to you at the request of the committee in charge to ascertain whether or not you are in sympathy with the movement, and if so whether you will be willing to contribute expense and endeavor to secure other manufacturers in co-operation with the club in this project and in the construction of a permanent home industries more important.

Street Railway Merger.

President McDonald of the Lincoln Traction company returned from New York this afternoon and brought with him a proposition which he believes the stockholders of the traction company and the Citizens Street Railway company will accept and thus bring about a merger of the two companies.

It is understood the New York stockholders of the Traction company submitted a proposition which provides that some of the outstanding stock shall be bought by Lincoln parties. This will result in a majority of the board of directors of the merged company being chosen from Lincoln.

Lincoln Aids Italians.

The Commercial club this afternoon sent \$100 to the Red Cross society in Washington to be sent to the earthquake sufferers in Italy. Inasmuch as the money was needed quickly, ten members of the club advanced the \$100 and a collection will be taken to reimburse them in part. All persons will be given an opportunity to subscribe and it is the hope that many will have the matter in charge to raise a much larger sum.

All failed but the Franklin in Worcester contest

Against thirteen competitors, the 1909 Model D Franklin touring-car won the only perfect score in the Worcester, Mass., reliability contest, December 12. Nearly all the contestants went through the road run without penalization, but the Franklin was the only one to withstand the rigid examination after the run by a technical committee from the faculty of the Worcester Polytechnic Institute. All except the Franklin suffered penalization due to broken, strained, bent or loosened parts, leaks, etc. It was necessary for the committee to go over the Franklin six times in order to satisfy the other competitors.

Was this luck? No!

This is the fifth severe contest in which a 1909 Franklin has carried off the honors. Most any automobile can make a hard road run without stops, but to go through without troubles of any kind and without any derangement or strains resulting is what tells the story. The light-weight air-cooled Franklin does not strain or rack itself. It stands up. It rides comfortably.

MODEL D, \$2800.

A high-grade powerful automobile. Refined, reliable and safe. Able for touring on American roads than any automobile but a Franklin. Beautiful to look at, comfortable to ride in and doing its work at the lowest operating cost.

An hour with its past presidents contributed a unique and altogether enjoyable program at Monday afternoon's meeting of the Woman's club, the session being given under the auspices of the current topics department. One, Mrs. Lucy Savidge, the first president, has been moved by death, and Mrs. Ada Walker spoke briefly of the organization of the club and Mrs. Savidge's administration. Mrs. Frances M. During the business hour ten new members were reported as having qualified, and the names of Mrs. George W. Lindinger was proposed for honorary membership in two weeks and will require the unanimous vote of the club. It was in the Lindinger gallery that the club was organized. The Lindinger home and club have ever since been open when the club might profit by their hospitality. Miss Lillian Lyford, head president of the social settlement, was a guest and asked the co-operation of the club with the settlement in securing an amendment to the Nebraska labor law, on the part of the factories where many of the settlement girls are employed.
