Destitute Cases Relieved by Associated Charities and County Commissioners, Who Find All Asking Worthy.

Continued cold, with relief Thursday afternoon or Friday morning.

Omaha experienced another frigid twenty-four hours from Wednesday morning until the cold gray dawn of today.

A considerable fall of snow last night seemed to show that the extreme rigor is at an end, although the mercury did not rise so high that it burst through the top of the tube.

In fact the thermometer registered a succession of "below zeros" throughout the night and if the cold was not so bitterly felt as the night before this was partly because the shock of the cold wave is over and partly because the wind was not so keen and cutting.

Charitable in the extreme, though himself needing aid, this poor foreigner was not an exception among many who called at the office of the charitable association during the day.

ALDRICH AIDS RAILROADS

Secures Adverse Report on Bill Giving Commerce Commission More Power.

NO HOPE THEN FOR SHIPPERS

People of Genoa Petition Senator Burckett to Intercede and Save the Indian School There from Abandonment.

(From a Staff Correspondent.) WASHINGTON, Jan. 6.—(Special Telegram.)—Negligence, to say nothing of sharp practice, bequeathed a favorable report on the Fulton bill giving the Interstate Commerce commission power to pass on the proposed increase on railroad freight rates when that bill came before the interstate commerce committee today.

Senator Aldrich, realizing that the fight was going against him so far as the proposition went to empower the Interstate Commerce commission with authority to declare whether an advanced rate was equitable or not, adroitly switched the proposition from an affirmative vote on the bill to a negative vote on moving that an adverse report be made on the Fulton measure.

This lined up the friends of the bill in the negative, those voting no, being Dooliver, Newlands, Tillman, Foster and Taylor. The vote for Mr. Aldrich's motion being Elkins, Aldrich, Cullom, Keam and Crisp, which created a tie.

There was a hurry call for recruits and Senator Foraker was finally found, who authorized his vote to be cast for the Aldrich motion, which insured a negative report on the bill. The friends of the measure failed to poll Senator Clapp of Minnesota and McLaurin of Mississippi, who if affirmative votes would have voted against reporting the bill adversely.

These gentlemen, however, were absent from the committee and an adverse report will be made on the bill tomorrow. The action of the committee today can have but one application, that the senate interstate commerce committee as at present composed is against any enlarged powers on behalf of the Interstate Commerce commission and that whatever relief shippers are to obtain from amendments to existing laws must come through an amendment to the Sherman anti-trust law and not through any increased powers on behalf of the Interstate Commerce commission.

Genoa Wants to Keep School. Senator Burckett is in receipt of numerous signed petitions from citizens of Genoa asking him to do everything possible against the abandonment of the Genoa Indian school. Commissioner Leupp in his last report recommended the closing of the school for the reason that the attendance had fallen off and that non-reservation schools were proving a failure.

Senator Burckett has not yet decided as to the course he will pursue toward the retention of the Genoa school.

Amendments to Postal Bank Bill. Senator Cummins today introduced an amendment to the postal savings bank bill, which was under discussion and which the junior Iowa senator believed absolutely necessary, if the bill is to pass.

The amendment presented by the senator provides that the moneys deposited with the postal savings bank shall be deposited at once in some bank in the same community in which the original deposit was made and if there is no bank in the town in which the deposit is made then the deposit shall be made in the nearest place where there is a bank.

By this Senator Cummins hopes to take in state as well as national banks. His other amendment, offered today, strikes out certain sections of the bill which gives the government a preference in the assets of any bank in which deposited moneys of the postal savings bank. This is upon the theory that the government should take its chances with the people and should bear its insignificant proportion of the losses as well as the people.

Interested as he is in this question, the former Iowa executive will get right into legislative action by making a speech on the postal savings bank, thereby proving senatorial traditions, so far as speaking on the part of young senators holds, is made but to be broken.

Senator Burckett participated largely in the debate on the postal savings bank bill today, endeavoring all the way through to whip the bill into such shape that it would be acceptable to the country, the banks being its strongest antagonist.

Knox Tiptle of Stanton, Neb., is in Washington.

KNOX WILL VISIT AUGUSTA. Cabinet Appointee Will Call on President-Elect for Conference on Appointments.

Mr. Hitchcock returned today from Birmingham and Atlanta. It is the announced purpose of Mr. Taft to get to the actual work of selecting his cabinet during the stay here of his two advisers.

John Hays Hammond, who visited Atlanta yesterday, returned today with Mr. Hitchcock.

BRIDGTON, N. J., Jan. 6.—Walter Zeller, the 19-year-old Vineland youth charged with two companions with the murder of Zeller's grandfather, William Reed, was convicted of murder in the first degree today by a jury which had been out since yesterday afternoon.

Zeller confessed when he was arrested that with Clive Wheeler and Herbert Grigg he had participated in the killing of Reed for the purpose of robbery. Mrs. Edw. Cooper, mother of Zeller and daughter of the murdered man, sat in court all night awaiting the verdict.

Wheeler and Grigg will be tried this month.

HAWLEY ON WITNESS STAND

Iowa Central Head Testifies in Harriman Merger Suit.

Former Southern Pacific Official Admits, However, Discussions on Division of Rates Were Held Before Purchase of Road.

NEW YORK, Jan. 6.—Edwin Hawley of this city, president of the Iowa Central railway company and of the Minneapolis & St. Louis Railroad company and a director in several other roads, including the Western Pacific, was the first witness called by the government today in the hearing of the action to dissolve the merger of the Harriman railroads.

Mr. Hawley said that he was general eastern agent of the Southern Pacific at first and that he had just come over the Morgan line of steamers which was used as a part of the Sunset route. Competition among the rival railroad companies before the formation of the merger, he said, was a factor that the Interstate Commerce commission had taken into consideration.

SPRINGFIELD HAS BIG FIRE

Flames Starting from Gas Explosion Fanned by High Wind—Loss \$250,000.

SPRINGFIELD, Mo., Jan. 6.—Fire that broke out at 12:15 o'clock this morning in the Baldwin theater and office building completely destroyed that structure and a number of other buildings in the business district and badly damaged the \$400,000 Colonial hotel. The total loss is estimated at \$250,000.

The fire was caused by an explosion of gas in the basement of the theater, which was a five-story structure, occupied by offices as well as the theater. A strong wind fanned the flames, which spread to the Dr. Nixon office building adjoining, a 35,000 structure, which was completely gutted.

The Colonial hotel, a steel building, suffered the burning of most of the furnishings of rooms on one side of the hotel. The loss to this building will exceed \$100,000. From the hotel over 200 guests fled to the streets. All escaped in safety. Among those stopping at the hotel was O. P. Read, the novelist, of Chicago, who had delivered a lecture here last night.

At an early hour this morning the fire had been placed under control.

SHARP LETTER TO SENATE

President Answers Request Made to Attorney General for Information.

Lawmakers Are Told that Heads of Executive Departments Are Responsible to President Only for Their Official Acts.

WASHINGTON, Jan. 6.—President Roosevelt today informed the senate in plain terms that he had approved the absorption of the Tennessee Coal and Iron company by the United States Steel corporation and had instructed Attorney General Bonaparte not to respond to the senate inquiry as to the reason for his failure to prosecute the steel company. The president declares he does not conceive to be within the authority of the senate to give directions of this character to the head of an executive department.

The message is in response to a resolution introduced by Senator Culberson calling on the attorney general to state whether he had brought an action against the steel company because of its acquisition of the Tennessee concern. While the resolution was not directed to President Roosevelt, his attention was called to it by Attorney General Bonaparte.

Commenting on the attorney general's letter the president says: "As to the transaction in question I was personally cognizant of and responsible for its every detail. For the information of the senate I transmit a copy of a letter sent by me to the attorney general on November 1, 1907, as follows:

"My Dear Attorney General: Judge E. H. Gary and Mr. H. C. Frick, on behalf of the steel corporation have written me and stated that there is a certain business firm (the name of which I have not been advised) which is purchasing the stock of the Tennessee Coal and Iron company as a mere business transaction they do not care to purchase the stock, that under ordinary circumstances they would not be purchasing the stock, but little benefit will come to the steel corporation from the purchase of the stock, and that they have been persuaded in the ground that they are endeavoring to secure a monopoly of the situation and prevent competition—not that this would be a matter of fact their proposition, but what might result and truthfully be said.

"I have been informed that as a matter of fact the policy of the company has been to facilitate to acquire more than 60 per cent of the stock of the Tennessee Coal and Iron company, and that they have been persevering in for several years past, with the object of preventing these accusations, and as a matter of fact their proposition of steel properties has slightly decreased, so that it is below the 50 per cent, and the acquisition of the property in New York would not raise it above 60 per cent. But they intend to immediately to their interest, as to the interest of preventing a panic and general financial smashup at this time, and that they are endeavoring to go into the situation which they would not otherwise go into if fitted to express the opinion of those best acquainted with the situation, and that it would be an important factor in their interest to prevent a panic and general
