GENERAL FUND IS REDUCED

Nearly Twenty-Five Thousand Dollars Cut from Departments.

COUNCIL SHAVES APPROPRIATIONS

Increases Are Made in Some Budgets, that of the City Treasurer Receiving Four Thousand Dollars More.

Nearly \$25,000 has been cut from the department appropriations out of the general fund originally asked by the departments and scheduled to the council by the comptroller. This was due to the work of Councilman Zimman, the only republican member, and Councilman Elsasner when the appropriations for the next year were made by the council in adjourned session Wednesday morning. The council met in afternoon and confirmed all it did in the morning.

At the beginning of 1908 the council set aside out of the general fund for the several departments the sum of \$123,000, the judgment fund not being included. This year the department heads certified to the comptroller that they wanted about \$30,000 more, or \$157,000. This certification was given to the council Wednesday morning and many of the appropriations were made as asked, but others were cut a considerable amount. Mr. Zimman and Mr. Elsasner taking the initiative.

Two entire appropriations amounting to \$14,000 were stricken out by motion of Mr. Zimman, these being \$9,000 for the city jail and \$5,000 for cutting weeds. The police court asked for \$2,500, but this was cut to \$2,250. The custodian of the city hall asked for \$18,000 and was cut to \$15,000; \$1,500 was asked for the printing of annual reports, but this was cut to \$500, and the plumbing inspector was allowed \$1,854 instead of \$3,644 as asked for.

Some Increases Made. Increases were made in some departments, \$4,000 being added to the city treasurer's funds. Under the combining of the offices of the city and county treasurer the city pays the county 1 per cent for collecting taxes. A much larger collection is expected this year than last and therefore a larger appropriation was made. An increase in the fund of the gas commissioner was made to buy more material. The health commissioner's fund was raised \$3,500 and the emergency hospital fund raised \$1,000, the commissioner showing that more money is needed to carry on the work of the department satisfactorily.

Under the new apportionment, the twenty-six departments of the city will have the use of \$282,000, or \$6,342.50 more than they had last year.

Detail of Apportionment. This apportionment, compared with that made for 1908, is as follows:

Department	1908	1909
Mayor	10,000.00	10,000.00
Council	18,000.00	18,000.00

MAIL CLERKS PAY OWN BILLS. Measure introduced in Senate will benefit 125 Men in This District, if Passed.

The bill introduced by Senators Burkett and Brown at the request of the Commercial club of Omaha yesterday, asking for an expense allowance of railway mail clerks while on duty away from their homes will involve an expense appropriation of about \$2,000,000 for the entire country. The average expenses entailed by railway mail clerks for board and lodging while on their runs away from their homes will reach \$10 monthly, which these clerks must pay out of their own pockets. The railway mail clerks are the only employees of the public service who must foot this expense themselves. About 125 railway mail clerks in the Omaha district will be benefited by the bill should it pass. A detailed statement of the individual expenses of the clerks was submitted to the Postoffice department as a basis for the bill in September, last, the average being \$9 monthly for each clerk.

DODGE STREET CAR IN BUMP. Meets Accident, Which Jars and Brains Crew and Some of Passengers.

Conductor T. W. Mills, 70 years old and the oldest employe in point of service with the street railway company; Motorman William B. Wyckoff and a number of passengers were jarred up and slightly hurt between 8 and 9 o'clock Wednesday morning when a westbound Dodge street car had one of its track brakes smashed by hitting a track intersection plate that was loosened by a front wheel.

Conductor Mills suffered from the shock of the car when it suddenly stopped, and from the resulting bruises, and went to his home, 308 North Nineteenth street. Motorman Wyckoff ran his car to the barn to have the track brake repaired and then went to his home, 180 Dodge street, to have a bad flesh wound over his right eye dressed. When the car suddenly stopped because of the brake hitting the upturned track plate Wyckoff was thrown against the glass front of his vestibule and had his forehead cut.

"It will be a first-class modern construction building in every respect and the finest hotel proposition in Omaha."

Mr. Philbin denied that options to conduct the Schiltz had been offered anyone and said that his company had a ten-year lease on the premises.

BAXTER TELLS WHY HE WENT

Says President Let Him Out Because of Light Sentence to Richards and Comstock.

Former United States Attorney Baxter has prepared for publication the following statement in explanation of the reference to his removal from office in the president's secret service message:

In his recent message to congress relative to the secret service, the president is mistaken in intimating that the removal of Irving F. Baxter as United States attorney and T. L. Mathews as United States marshal was connected with the so-called land fraud prosecutions. As a matter of fact, their removal grew out of the prosecution of Richards and Comstock for the illegal fencing of government lands, which is a misdemeanor under the federal statutes, to which charge they pleaded guilty, and were sentenced by the court to pay a fine of \$500 and costs and to be confined in the custody of the United States marshal for six months. The president was displeased with this sentence, deemed it inadequate, and the removal of the United States attorney and the United States marshal followed.

My position Judge Munger stated to the press under date of November 17, 1906:

"I was not guided by any advice from attorneys and did not ask any. In common with other cases, I fixed the sentence at what I believed just punishment for the offense committed and answerable only to my own conscience. The object for which the suit was brought was to get the illegal fences down. With this taking down of the fences, the end sought by the government had been achieved. Enclosing public lands the nothing more than statutory offense. I believe the sentence passed upon the two defendants was sufficient to meet the situation."

It must be borne in mind that at this time there had been no indictments whatever returned against anyone for conspiracy and perjury in defrauding the government of title to its lands. Later at that same time the indictments against G. G. Ware and others on that ground were returned, which were the first indictments in the so-called land fraud cases.

The indictments charging Richards and Comstock with conspiracy to defraud the government of title to lands were not returned until June 15, 1906. It will thus appear that the removal of Baxter and Mathews could have no connection whatever with the land fraud cases. No charge ever made against either of them for failure to prosecute any of the government cases.

CHRONIC CATARRH OF HEAD AND THROAT. ONE OF THE MOST COMMON AND MOST DISAGREEABLE DISEASES.

Always Caused by a Neglected Cold or a Succession of Colds. How to Prevent It.

The air passages of the head, throat and lungs are lined with mucous membrane which in health secretes a thin, watery liquid to keep it moist. When a person takes cold his membrane becomes inflamed. The inflammation is at first cold and is easily cured, but when a cold lingers for weeks the inflammation becomes chronic and a thick, offensive mucus is secreted. The disease at this stage is known as chronic catarrh and is seldom, if ever, permanently cured. The time to effect a cure is when the cold is first contracted and the inflammation is in the acute stage. All that is needed is a bottle of Chamberlain's Cough Remedy. Take it and a quick cure is certain. Very often chronic catarrh is contracted in childhood. Parents do not realize the serious consequences that may follow and permit colds contracted by their children to linger for weeks. As a consequence the child becomes afflicted with chronic catarrh from which it never wholly recovers. The catarrh may cause no serious inconveniences in the history of a young and strong but becomes a burden when older.

DEATH COMES TO OLD FIREMAN. John McBride, Who Had Served City for Twenty-Three Years, Dies Tuesday Morning.

John McBride, 49 years old and for twenty-three years a member of the city fire department, died at his home, Forty-first and Francis street, early Tuesday morning. Tuberculosis was the cause of death.

At one time Mr. McBride was captain of No. 2 fire company on Tenth street, between Douglas and Farnam streets, but asked to be made a fireman in the ranks again because of his health. Last May he was placed on the pension roll of the department after this long period of active service. Being pensioned, he was a member of No. 3 hook and ladder company at Eleventh and Dorcas streets. A wife and three daughters and a son survive him.

The funeral is to be held Thursday morning at 9:30 o'clock at St. Peter's church, and will be attended by members in uniform of the fire department. The pall bearers will be Captains Cogan, Miller, McGuire, Mulvihill and Ellington and Truckman Porter of the department. Interment is to be in Holy Sepulchre cemetery.

O. D. TALBERT UNDER CHARGE. Complaint for Embellishment is Issued by Secretary of Poultry Association.

A complaint charging Ora D. Talbert, former secretary and treasurer of the Trans-Mississippi Poultry association, with embezzling funds of the association about a year ago, was sworn out in police court Wednesday morning and signed by Judge Crawford.

F. J. Alquist, the present secretary of the poultry association, is the complainant, acting for the other officers, who have been contemplating taking the step against Talbert for some time.

The latter is at Dix, Neb., at the present and is said to have made promises to pay back the amount of his alleged defalcations, but has so far failed to do so, hence the court proceedings. In all probability, a warrant for his arrest will be sent to Dix and he will be brought to this city for trial.

REALTY MEN MEET IN SECRET. Exchange Holds Regular Wednesday Session Behind Closed Doors and Discusses Advertising.

The Omaha Real Estate exchange discussed the question of advertising concentration behind closed doors at the noon meeting Wednesday and an adjournment gave out a statement that the question had been laid over until the next meeting for decision. Besides this the only business which came before the exchange was the election of the Klocke-Headley investment company to membership.

SHOTS TAKE EFFECT IN BOTH LEGS. Harry Agnew, Victim, Had Warned I. Friedman, Merchant, but the Accident Occurs Just the Same.

Following litigation covering several months, the city finally secured title to the right-of-way of Twenty-fourth street a short time ago, but the simple acquiring of the property did not make a street on account of the hill. This rises to the height of about thirty feet, the rise beginning at Cuming street. After the property was acquired property owners who were assessed heavily to pay for the land wanted the street opened and petitioned the democratic councilmen so persistently that they had to do something before the primaries and last night not only appointed the board of appraisers, but also passed the first two readings of an ordinance appropriating money to pay one-half the damages assessed to owners of adjoining property where the street will be graded down. City Engineer Rosewater, in a communication sent to the council, estimates the amount of earth to be removed at 34,000 cubic yards. Measurements are now being taken and he will have the exact figures in a few days. The city engineer gives it as his opinion that the grading ought not to cost in excess of \$5,500, and that he believes it could be done for \$6,500.

GLAD TO GET IN WARM JAIL

Old Alquist Says, "Sure, Judge, I Was Drunk, Beatty."

"Were you drunk?" asked City Prosecutor Daniel O. Alquist in police court Wednesday morning.

"Sure; I was as drunk as a beast, your honor."

Thus and so did Alquist gain for himself a short jail sentence to tide him over the present cold snap. His ready admission that he had been more than "jolly drunk" was rather surprising to Judge Crawford, who asked him if he was in the habit of becoming so.

"Well, I was in jail for Thanksgiving, too," Alquist confessed with a shy smile, and it did not take long for persons in the court room to conclude that Alquist thought jail the best place to stay when the mercury was threatening to freeze, or when a hot dinner of chicken and supernumeraries was served to jail prisoners on a holiday.

A fine of \$1 and costs, which Alquist will work out by a one or three-day term in jail, was given him and he went back to the "bull pen" smiling broadly.

ROWDEN FREEZES CITY HALL

Custodian Will Not Use Coal Enough to Heat Building, but Officials Warm Up.

David Rowden, the economical custodian of the city hall, continues to save coal when the mercury is below zero, for the result that the majority of the city officials have out their scolding knives and are aching for a sight of the man who orders the feeding of fuel to the fires under the boilers in the city hall. The councilmen Wednesday hugged the radiators during the entire session, but few of them being in their seats and as late as the noon hour the thermometer in the office of the superintendent of instruction on the fifth floor registered but 60 degrees.

A Clean Man

Outside cleanliness is less than half the battle. A man may scrub himself a dozen times a day, and still be unclean. Good health means cleanliness not only outside, but inside. It means a clean stomach, clean bowels, clean blood, a clean liver, and new, clean, healthy tissues. The man who is clean in this way will look it and act it. He will work with energy and think clean, clear, healthy thoughts.

He will never be troubled with liver, lung, stomach or blood disorders. Dyspepsia and indigestion originate in unclean stomachs. Blood diseases are found where there is unclean blood. Consumption and bronchitis mean unclean lungs.

Dr. Pierce's Golden Medical Discovery

prevents these diseases. It makes a man's insides clean and healthy. It cleans the digestive organs, makes pure, clean blood, and cleans, healthy flesh.

It restores tone to the nervous system, and cures nervous exhaustion and prostration. It contains no alcohol or habit-forming drugs. Constipation is the most unclean uncleanness. Dr. Pierce's Pleasant Pellets cure it. They never gripe. Easy to take as candy.
