HOW I MADE MY HAIR GROW

Woman With Marvelously Beautiful Hair Gives Simple Home Prescription Which She Used With Most Remarkable Results.

I was greatly troubled with dandruff and falling hair. I tried many advertised hair preparations and various prescriptions, but they all signally failed; many of them made my hair greasy so it was impossible to comb it or do it up properly.

James Hyslop, late of Columbia university and secretary and treasurer of the American Institute of Scientific Research, will deliver two lectures in Omaha February 2 and 3 under the auspices of the psychology department of the Woman's club. Prof. Hyslop is recognized as the foremost psychologist in this country and has come west in the interest of the American Society of Psychological Research. During his stay in Omaha he will be the guest of Alfred Millard and David Abbott. His two lectures will be given at the First Congregational church and in the evening and his subjects will be "Causes and Effects of Certain Psychic Phenomena" and "Scientific Method in Psychology."

Club women of New Jersey are interesting themselves in the open air school for children that is being advocated by Dr. Alexander McAllister, a physician of Camden, N. J., as a means for curing and preventing tuberculosis. Dr. McAllister has arranged the study of children conducted out of doors, in the yards of the schools for instance, from the latter part of May to the close of the school term and from the beginning of the school term until the end of the year. Club women have expressed their determination to see that the idea has a fair trial. The first experiment, it is said, will be made in Camden under the direction of Dr. McAllister.

The League for Political Education in New York City has arranged a series of lectures for and against woman suffrage. As a beginning Rev. Anna Shaw and Mrs. Charlotte Perkins Gilman on January 6 at the Carnegie lecture room debated the question, "Is the Married Woman's Suffrage a Necessary Evil?" Mrs. Shaw will make a surprise speech in the Berkeley lecture room one week later. Mrs. Anne Nathan Meyer will represent the opposition. Later in the year Prof. Zueblin will give a course of several lectures on giving women the ballot.

Among the features of activity among the New York suffragists is the lecture by Mrs. Carrie Chapman Catt at the law school of the New York university on January 15. Mrs. Catt's lecture is one of the regular series arranged for by the faculty of the university. William J. Bryan is among those who have already been heard in this course.

The club has "Concentration" for its January topic and Miss Mary V. Fitch, recently returned from the schools of England, Scotland and Ireland, was the speaker of the afternoon. Before the meeting was called to order the club en-

Green Gables THE SANATORIUM
This institution is the only one in the central west with separate buildings situated in their own ample grounds, yet entirely distinct and readily accessible to all classes of cases. The one building being fitted for and devoted to the treatment of noncontagious and nonmental diseases, no others being admitted. The other, Rest Cottage, being designed for, and devoted to the treatment of contagious and mental cases, requiring for a time watchful care and special nursing.

Seattle, son of Mr. and Mrs. W. V. Morse of this city, will take place next Thursday at noon at the home of the bride's mother in Nebraska City. Owing to the death of Miss Duff's father a few months ago the wedding will be a quiet one. No invitations have been issued and only the immediate families will be present. After their wedding Mr. and Mrs. Morse will reside in Seattle, where Mr. Morse is engaged in business. The Omaha relatives of Mr. Morse who will attend the wedding are Mr. and Mrs. W. V. Morse, Mrs. George Palmer and children, Mr. and Mrs. Forest Richardson and Miss Ethel Morse.

One of the small but pretty home weddings of the winter was that of Miss Mable Carey and Mr. James C. Williams of Blanchard, Ia., which was solemnized at 4 o'clock Saturday afternoon at the home of the bride's brother, Mr. George G. Carey, and Mrs. Carey, 1116 South Thirty-first street. The rooms had a pretty decoration of cut flowers and ferns. The reception of the ceremony took place in a room trimmed with palms and holly combined with ferns and palms. The mantel was banked with the green and before the marriage took place, Rev. Scott Hyde of Hancock Park Methodist church officiated. There were no attendants and the ceremony was a simple one. Following the ceremony an informal reception was held for the wedding guests, which numbered about thirty and included only the relatives and more intimate friends. The same color scheme of red and green was employed in the dining room, where red roses were combined with ferns. The table decoration was entirely of crystal. Mr. and Mrs. Williams leave this evening for a month's wedding trip in the south and will be at home upon their return at Blanchard, Ia., where Mr. Williams is in business. Mrs. Williams is widely known in Omaha, this having been her home for a number of years.

Mr. Joseph Gahn, pianist, announces the reopening of his studio at 215-216 Karbach block, where he will accept pupils in the art of piano playing and musical theory.

WORK OF THE WOMEN'S CLUBS
Prominent Speakers Before Social Science Department of University Extension.
William J. Bryan will speak before the social science department of the Woman's club Monday afternoon on his visit to Count Leo Tolstol. The meeting will open at 3 o'clock, instead of 2:30, and will be held in the auditorium of the First Congregational church. Members will be privileged to bring guests and the usual guest punch on the membership ticket will not be required. The program will also include a review of Jane Addams' new book, "Newer Ideals of Peace," by Mrs. W. M. Alderson; a vocal solo by Mrs. Joel C. Hancock and piano numbers by Mr. Jean G. Jones.

The department under the leadership of Mrs. Draper Smith has planned a series of programs of unusual interest this winter among them being a talk by Prof. Leonard of Bellevue college on "Practical Sociology" and another by Rev. Frederick Rouse on his proposed course of study in mental healing. Mrs. Raymond Robbins of Chicago, the wife and co-worker of Chicago's well known settlement worker, is another of the possible speakers of the near future. Mrs. Robbins is a recognized authority on woman in industry and will be invited to speak on that subject. Other phases of the work in which club women are interested will also be presented by T. W. McCullough. Another important possibility of the near future is Prof. Caldwell of the senate committee of the University of Nebraska representing the committee on university extension. The club women are being asked to lend their influence for an appropriation of \$10,000 by the state legislature asked for by the university senate committee for the support of university extension work in Nebraska and Mr. Caldwell will be asked to present the plan of the committee before the social science department of the Omaha Women's club.

It is the ambition of local club women to secure these lecture courses for Omaha, especially as among the subjects included are many touching directly upon the lines along which the clubs are working. The women feel that as the club is primarily educational in its object it could establish no more fitting work than this extension center.

James Hyslop will speak.
James Hyslop, late of Columbia university and secretary and treasurer of the American Institute of Scientific Research, will deliver two lectures in Omaha February 2 and 3 under the auspices of the psychology department of the Woman's club. Education on Suffrage.

quipped by the examining board. After the afternoon, the Kansas committee will be required. "Nursing is a profession requiring a high degree of ability and training," said one of the nurses, "and in view of the responsibility of the duties of the graduate nurse, it would appear to be essential on general principles that the qualifications of the nurse should be determined and fixed by registration as the qualifications of the physician, pharmacist or dentist should be fixed by law. It would also appear that the minimum qualification of the nurse should be ascertained by a board of examiners chosen from the nursing profession, thus following the precept given by the older professions of medicine, pharmacy and dentistry."

Miss Bernard of Oklahoma Permits in Criticism of Prison Management. LEAVENWORTH, Kan., Jan. 9.—In the Kansas state prison investigation today Miss Kate Bernard, Oklahoma's superintendent of prisons and corrections, resumed the stand and reiterated her charges of graft and corruption in the management of prison affairs. When asked by Senator Reed as to whether she had made out and authorized the publication of a statement making charges that coal from the prison mines was misappropriated by the prison officials and that fresh meat intended for the prisoners did not reach them, Miss Bernard refused to answer. "Do you mean by your statement that you insinuate this thing?" she was asked. Miss Bernard reiterated that she meant what her statement said. Miss Bernard told the committee that if they would come to Oklahoma she could produce witnesses who have testified to her that coal has been misappropriated, and that "prison boys had no hams."

GRAFT CHARGES ARE RENEWED. Investigation will close so far as the Kansas committee is concerned at 3 o'clock this afternoon, the Kansas committee having announced a day or two ago its intention of remaining only till this afternoon. The Oklahomans were anxious to have the Kansas committee go to Oklahoma to collect additional evidence.
