When in form Walsh is probably the most accurate goal shooter in the Missouri valley.

Iowa-Ames Deadlock Still On.

IOWA CITY, Ia., Jan. 11 - (Special.) rogress on the formation of lowa's ro Progress on the formation of lowa's foot hall schedule is at a standstill owing to the uncertainty of a game with Ames. The lowa management, forced by interviews printed from Ames to remain silent, refused to make a move and Ames has not denied the newspaper stories. The deadlock seems likely to exist and in case it does Iowa will sendeavor to add another conference game in its place, much as it dislikes to do so. Competent principals, a sprightly chorus and novel stage effects are the sallen characteristics of the musical comedies which originate in the La Salle theater Chicago, and after delighting a large cli entels there for long runs are sent out the road. Comedy is, in fact, his forte although his dancing is fair and his singing, while excellent, yet not remarkable.

Maud Lambert, whose name appears the program in the same size type as Clifford's, sustains a large part of the vocal burden. Her co-laborers in this are Florence Martin, a pretty and dainty young woman with the best voice in the company, and Countess Olga von Hatzfeldt. However, since she is as pert and saucy as soubrettes ought to be, there is no need to lament the

The most novel stage effects of the comedy are the staging of the songs, "The Long Green" and "The Ghost of Ragtime." In the first the chorus successively and successfully represents a poker game, wheel and a steeplechase; the roulette spooks who shadow forth the wraiths of syncopated music prove to be attractively substantial when the stage is at length lighted up. Clifford won his greatest success with the songs "In Walked Bill" and "Not All but Nearly." A duet by Clifford and Miss Martin, "You're All the World to Me," proved exceedingly catchy and puckered up several hundred pairs of lips before the number came to an end.

Vaudeville at the Orpheum. Gennaro, an Italian, bandmaster and con

ductor, has brought a band of twenty-six pieces to the Orphaum this week, which will be considered one of the best organizations which has ever visited the theater Gennaro himself is of the "leccentric" school of conductors for the foundation of which Creatore must be held guilty. However, the pronounced mannerisms and gymnastle evolutions do not prevent his conducting most ably, and perhaps are designed to make the band talked about. The musicians are really all lislians and play with a fervor and spirit which is well adapted to the style of music given. Bandmaster and band received an ovation when they had finished. The soloist is a Miss Cutler, who sings agreeably.

my ability, skill and successful experience, I prefer to have them go to someone else. I am independent in my practice, because my ethics is the simple one of the Golden Rule. I believe medical ethics, like all other professional or social ethics, should be measured by but one standard, BE SQUARE!

I am always willing to counsel with specialists, as well as with family dectors of any school. Any ruptured person is tavited to bring his physician with him when he visits my consultation rooms, it is a pleasure for me to explain my methods to the doctor who can comprehend and appreciate them. Then I can show their practical application and treatment of his patient's case. I do not claim any wonderful or secret method, but I have originated more successful ideas for the cure of rupture without a surgical operation than I have ever adopted from others. The best treatment is none too good, no matter whether it is a mild or complicated case. Do not become a victim of neglect. DECIDE!
