Three Nebraska couples were married in this city yesterday by Rev. Henry DeLong. They were M. A. Pliginsk and Annetta R. Henderson, both of Omaha; Anton Kohlhoff and Maude Tansley, both of Albion; and Billington T. Neal and Lucille M. Wright, both of Brownville.

The Schoenegen family home on South Sixth street was entered by thieves Saturday night or early Sunday morning and a quantity of wearing apparel stolen. The house has been unoccupied since the recent death of Mrs. Schoenegen. A large suitcase filled with clothing was dropped by the thief or thieves in Tuesday night the rear of the house. Entrance was secured by unlocking the rear door with a skeleton key.

Mike Roppo, said to be a railroad laborer, was arrested by the police last night at the instance of G. L. McCall, local agent for the Great Western railroad. It was stated at police headquarters that Roppo was suspected of stealing railroad transportation and that an information would be filed against him this morning.

William King filed suit for divorce in the district court yesterday against Lizette King, to whom he was married February 25, 1886, in Creton, Ia. He charges his wife with deserting him in August, 1907, and also alleges that prior to leaving him she had treated him in a cruel and inhuman manner. In his petition the plaintiff says that "while the defendant offered no physical violence to his person, she incited others to do him bodily injury."

Kemper, yesterday identified Hogan as a man they found asleep in the sandhouse late Tuesday night. At the time Hogan had with him a sack, which the railroad men contained green hides. Tuesday night was the coldest of the winter and Hogan was the man with the sack of hides, sought the sandhouse to get warm.

OLD MAN INJURED BY TRAIN. Arm and Leg Severed and Victim Probably Will Die.

Hans L. Petersen, an aged cobbler, living at 1513 Third street, was struck and thrown beneath the wheels of a freight train yesterday morning in the yards of the Chicago and Great Western railroad, near the corner of Sixteenth avenue and Third street. His right arm was severed at the shoulder and his right leg below the knee. He was taken to Mercy hospital, where his injuries, which are expected to prove fatal, were attended to by City Physician Tubbs.

Petersen is 77 years of age and is said to be totally deaf. Although there were no actual eyewitnesses of the accident, it is believed that Petersen was injured while picking up coal. The train had been standing still and the unfortunate man was caught under the wheels of the caboose when the engine was coupled on. It is supposed that Petersen was reaching under the cars for coal when the coupling on of the locomotive moved the cars.

Petersen has a wife and two sons. His shoe shop was at his home.

REDUCTION IN WATER RATES

Council Passes Ordinance on Subject to the Third Reading.

ATTORNEYS TO AID IN BOND CASE

Harl & Tinley to Act Under Old Contract and Receive no Pay Unless the Case is Appealed From the District Court.

A new water rate ordinance, calculated to materially reduce the revenues of the Council Bluffs City Water Works company, was introduced at the meeting of the city council last night, rushed through under a suspension of the rules to the third reading and then laid over to the next meeting only at the urgent request of Mayor Maloney and Councilman Sellings.

The following resolutions having reference to fire hydrant rentals were adopted: Whereas, Some of the hydrants of the Council Bluffs City Water Works company are by reason of their location utterly useless to the city of Council Bluffs and that other hydrants are situated so low as to require digging about them when making connections; that some of said hydrants are furnished with such insufficient water pressure as to be practically useless in case of fire, and

Whereas, The city of Council Bluffs has been paying hydrant rental upon the same, be it resolved, That the committee on fire and lights be instructed to report the number and location of hydrants which are of little or no use to the city, and be instructed to report the number of and location of all hydrants which do not come up to the necessities for furnishing fire protection within the localities where situated, and to report the location of such hydrants and to report the condition of hydrants generally over the city, with view to their use by the fire department, and to report the condition of the same as to being buried or out of order or unuseful for use for fire purposes, therefore be it

Resolved, That the city solicitor be instructed to collect from the Council Bluffs City Water Works company by suit or otherwise any and all sums which may have been overpaid to the said company for hydrant rentals due to claims made by the said company under any former ordinance or agreement, or on account of defective and inefficient hydrants or which were not required by the city and which were not actually used by the city from any cause whatever.

Attorneys for Bond Case.

The following resolutions authorizing the committee on water works to secure the services of Harl & Tinley, attorneys, to assist the city solicitor in defending the suit brought by the C. B. Nash company of Omaha to enforce the city from issuing the proposed \$60,000 water bonds:

Your committee on water works has been advised by the city solicitor that under the contract with special counsel, Messrs. Harl & Tinley, attorneys, their assistance in the case now pending in the federal court without further expense to the city, and that the city solicitor consent under the contract being due only upon an appeal of the case to the court of appeals, and that the city solicitor, upon consultation with the said firm of Harl & Tinley your committee finds that it is willing to perform this service and to treat this case as included within the contract of the city with the said firm of attorneys as to payment in case of the appeal of the case shall be carried out and if appealed the matter to the court of appeals, and in the lower court and receive payment accordingly, and that the city solicitor recommend that Messrs. Harl & Tinley be requested to assist the city solicitor in the litigation now pending, in compliance with the terms of the contract heretofore entered into between that firm and the city on July 7, 1907.

The employment of Messrs. Harl & Tinley was vigorously opposed by Mayor Maloney, who contended that it was a needless expense.

"It is a mere question of law. Of course if the city solicitor says he needs assistance in conducting this case for the city why well and good, but if he does not I do not see the use of the city paying out an additional \$2,500 for the hire of more lawyers. We settled up with Harl & Tinley and we are under no obligation to them any more. We paid them \$5,000, but now if they are brought into this case I suppose they will have to pay them \$2,500 more under their contract."

City Solicitor Kimball was present, but he did not enlighten the mayor as to whether he needed assistance in defending the Nash company suit or not.

The other resolutions were adopted without discussion. They were all introduced by the committee on water works, which also presented the new rate ordinance.

Cuts Water Revenue.

The new rate ordinance is avowedly calculated to cut down the revenues of the water company to a figure which in the opinion of the committee, of which Councilman Jensen is chairman, will be more in proportion to the value of the present plant.

It was the desire of the committee to reduce rates so that the revenues of the company would not exceed \$80,000 per annum, but as Councilman Morgan stated, this had not been accomplished and under the proposed new rates the revenues of the company would be over \$70,000.

"We figured," said Mr. Morgan, "to fix the rates so as to produce an equitable and fair revenue on a plant valued at \$60,000, which was what we considered the utmost value of the present plant."

While the existing rates are reduced practically all along the line, the most important change in the proposed ordinance is the reduction in the hydrant rental. The new ordinance reduces the rental of hydrants from \$9 to \$3, thus providing for this reduction in the hydrant rental the ordinance stipulates that all hydrants not affording actual fire protection shall be removed.

The action of the proposed ordinance governing the hydrant rentals is as follows: That the said city shall pay any such individual or corporation owning and operating a water works plant in the city of Council Bluffs, the sum of \$9 per hydrant as the rate of hydrant rental per hydrant. That such rate per year per hydrant shall be paid by the city of Council Bluffs on all fire hydrants maintained by such individual or corporation in a serviceable and efficient condition which will allow two streams each from a one-inch nozzle to a height of fifty feet when attached to a hose ten feet or less in length, and which will on the same main at the same time throw one such stream from each of two hydrants. Provided that such hydrants shall be paid only upon such hydrants as are now used in said city and as shall be selected by the committee on fire and lights for use in case of fire. But the said water works company shall not be required to maintain any hydrant which is not necessary for fire protection and which most requirements heretofore specified. That for all other hydrants not found by the city council to be necessary for fire protection or which do not meet the requirements herein provided, the city shall pay no hydrant rental.

Some of the changes proposed are, rate for dwelling houses, including six rooms, reduced from \$7 to \$3; bath tub in private residences, present rate of \$4.50 to \$4 reduced to \$2.25; barber shops, one chair, reduced from \$10 minimum to \$5; restaurants, present rate of \$10 to \$20, reduced to \$10 to \$20.

Meter rates are reduced from 35 cents per 1,000 gallons to 20 cents, and so on.

The only other business transacted by the council was the allowing of the usual grist of bills for the preceding month. An adjournment was taken to Wednesday afternoon.

CRECHE BEING APPRECIATED

Annual Meeting Discloses Prosperous Condition.

That the Associated Charities, with its creche on East Pierce street, has been recognized as a needed institution in Council Bluffs and was receiving the generous support of the citizens, was the statement of Miss Caroline Dodge at the annual meeting of the organization yesterday afternoon when she was re-elected president for the ensuing year.

Referring to the recognition which the association in its work is receiving, Miss Dodge said: "We are meeting with a wider interest and support from the citizens of our city. We are finding that our members will make many sacrifices of time and pleasure to make the creche a membership in the organization and service upon committees. Is this wider interest in the charity work in the city due to the fact that we are realizing that we owe to the community in which we live a deeper interest in each member of that community? It seems to me that we are beginning to realize that we are not bestowing charity, but paying a debt to those less fortunate than ourselves."

In her address the president referred with feeling to the loss the association had sustained in the death of the late E. H. Shugart, whose gift of \$1,000 that was a beautiful home of the creche on East Pierce street.

The other officers elected were: Vice president, Mrs. Lewis Cutler; recording secretary, Mrs. H. P. Barrett; corresponding secretary, Mrs. J. E. Johnson; treasurer, Mrs. H. Dudley; auditors, Mrs. C. D. George, T. Phelps and Mrs. J. W. Bell; historian, Mrs. J. P. Greenhalghs.

The trustees elected are Mrs. Horace Everett, Mrs. Frank Keeline, Mrs. J. P. Greenhalghs, Mrs. Frank Clark, Mrs. F. T. Truse, Mrs. F. W. Miller, Mrs. E. W. Binder, Mrs. George Keeline, Mrs. C. D. Parmelee, Mrs. T. J. Shugart, Mrs. A. Metzger, Mrs. M. Wollman, Mrs. D. S. Frank, Mrs. J. P. Hess, Mrs. S. T. McAtee, Mrs. J. B. Atkins, Mrs. J. P. Schorr, Mrs. H. A. Quinn, Mary Thomas Maloney, Major George H. Field and General Grenville M. Dodge.

Chairmen of standing committees were appointed by the president as follows: Ways and means, Mrs. Lewis Cutler; membership, Mrs. F. W. Miller; nursery, Mrs. F. J. Schorr; relief, Mrs. J. P. Greenhalghs; house, Mrs. Adolphe Beno.

The report of Mrs. Johnson, matron of the creche and superintendent of the relief work of the association, showed that 100 children had been cared for at the creche during the year. Of these eighteen were under 1 year of age, thirty-two under 5 years and fifty over 5 years. There were only two deaths at the creche during the year, one being from diphtheria and the other from whooping cough.

Thirty-eight of the children were cared for at the creche because of the separation of the parents, six because deserted by mother, twenty because deserted by father, twenty-seven on account of sickness, three were orphans and six were deserted by both parents. The parents of ten of the children had been reunited through the efforts of the matron.

Seventeen girls and five women had been provided with temporary lodging and board, while employment had been found for twenty-eight girls, twenty women and seventeen men.

The receipts of the creche for the year amounted to \$1,883.82. A system of conducting the creche on a cash basis since last September had been adopted.

The report of Mrs. W. H. Dudley, the treasurer, showed that the receipts of the association from all sources for the year were \$1,883.82, the disbursements \$1,200, leaving a balance of but \$67 with which to start the new year.

In addition to a note of \$4,000, the association had a floating indebtedness of \$500 at the first of the year.

The meeting was held in the parlors of the First Presbyterian church and was well attended. At the close of the business session refreshments were served.

CENTRAL SHOPMEN MAY GO OUT

Entire Force of Iowa Road Threatened to Renew Strike.

MARSHALLTOWN, Ia., Jan. 12.—(Special Telegram.)—Another strike of the entire shop force of the Iowa Central railroad is threatened because the company has given employment to W. D. Toler, roundhouse foreman at Marshalltown, who shot and killed George W. Davies, a striker, in this city during the strike last summer. Toler was acquitted in the Tama county court. He has been made night foreman of the roundhouse at Monmouth, Ill. Notice has been served on the company that unless Toler is removed the shop force of the entire line will strike.

City Clerks Organize.

IOWA FALLS, Ia., Jan. 12.—(Special.)—Every city and town clerk in the state is interested in a movement that culminated in a committee of the Iowa League of Municipalities for the purpose of organizing the accounting officers of the municipalities of the state with a view to bringing about uniformity in the conduct of the affairs of the clerks' offices throughout Iowa. At the meeting of the committee at Marshalltown, Iowa, last night, the proposed organization, which will be submitted to the next annual meeting of the Iowa League of Municipalities for approval. The new organization, it is proposed, will be a part of the league and will co-operate with that organization in bringing about reforms and improvements in the uniformity of municipal book-keeping and accounting.

Iowa Legislature Proposes to Utilize Clerks Where Needed.

POLITICAL HARMONY IN SIGHT

Five Contests To Be Heard, One in the Senate and the Others in the House—Contest in Electoral College.

(From a Staff Correspondent.) DES MOINES, Jan. 12.—(Special.)—The Iowa general assembly in its opening session made a stagger toward retrenchment. With commendable motives Representative Arney of Marshalltown led the movement for keeping down the number of committee clerks and succeeded in getting established the same rule as two years ago that all clerks must pass an examination and be subject to the demand of any member of the house. The number was fixed at thirty-eight, thirty for the republicans and eight for the democrats. But while this step was taken toward keeping down the expenses of the state the house elected thirteen assistant doorkeepers for the three doors opening into that legislative chamber. Then they consumed three-quarters of an hour in a discussion whether the old members should be given the privilege of retaining their former seats, the outcome of which was that it was decided that all names should go into the hat for a drawing.

There was strong evidence at the opening session however that the business of the session will not be impaired by political factionalism and strife. Upon motion of Representative Meredith of Cass county, formerly a strong "progressive," Representative Harding of Woodbury county, known as a "standpatter," was made temporary chairman. The compliment was returned when Representative Hackler of Webster (standpatter) offered the name of Guy Peely of Waterloo (progressive) as the caucus nominee for permanent speaker. The democrats nominated for speaker Charles Miller of Waverly, who, after the vote was cast, made a motion to make it unanimous for Peely. He was then appointed to assist in securing the new speaker to the chair, and inaugurated a movement to secure the meeting of the National Guard next November. The place of meeting is to be decided.

Contests for Seats.

With the contest over organizations in the two branches of the Iowa legislature under the interest now centers about the contests of members from several districts for seats in the legislature. There are five contests in the house and one in the senate.

Speaker Peely is expected to appoint the committee on contests immediately, that they may get to work hearing the testimony. He will appoint this committee preceding the other committees. In the senate this committee cannot be named until the senate is permanently organized, with Lieutenant Governor Clark in the chair, possibly Thursday. In the senate the contest is brought by A. F. N. Hamilton against John Ream (democrat) of Mahaska county. Mr. Hamilton is here, ready to urge his claims before the contest committee.

FLOOD VISITS HAYDEN STORE

Clerks in Basement Waded in Water Over their Heads for Time Because Water Pipe Bursts.

Six inches of water flooded the basement of the Hayden Brothers' store at Sixteenth and Dodge streets at noon Monday, when the head of a four-inch water main was company arrived and shut off the supply of water to the building, men went about in the basement with the water over their shoulders, unless they had rubber boots to wear. The force of the stream that poured into the shipping room, where the break occurred, was so great that no one could go near the main to turn off the water, and two clerks, Elmer Wagen and George Benjamin, who were near by, were knocked against the wall by the piece of pipe which was blown off. Joseph Hayden of the firm of Hayden Bros., refused to estimate the damage, but decided that not much of the stock of hardware, crockery and groceries was seriously damaged and that insurance was carried. The water soon ran out by way of the sewer vents in the concrete floor.
