THERE ARE TWO WAYS OF LEARNING ANYTHING

HELP WANTED-MALE

Suppose, for instance, you were to read a book or hear a lecture describing Niagara Falls. In this way you would gain some idea of the beauty and grandour of the scene. But, instead, suppose you were to visit the Falls. As you approach, you hear the desfening roar in the distance. You stand on the brink and are awed as you view the mighty volume of water dashing and crashing, and hear the awful thunder of the cataract and feel the very ground beneath you tremble. You forget all else, and for days afterwards your ears ring with the deafening roar. A half day's visit would give you a more vivid and correct idea of the Falls than reading all the books ever written, or hearing all the lectures ever delivered on the subject.

In the MOSHER-LAMPMAN COLLEGE you do the work of a bookkeeper. You open the business envelopes as they come to you through the mail; actually handle and count every cent of cash; check over every paper; enter on the books every die and count every cent of cash; check over every paper; enter on the books every transactions. And all this time you have right at your side an expert to explain to you every doubtful point. In the MOSHER-LAMPMAN COLLEGE you get the actual experience—the very thing that every business man prizes so highly.

The MOSHER-LAMPMAN bookkeeping course is all working and learning and no waiting. That's one reason why we prepare a student for a responsible bookkeeping position in the most thorough manner and the least possible delay. That's one of the reasons why students are leaving other business colleges almost every day and entering the MOSHER-LAMPMAN COLLEGE. They get tired of the theoretical, time consuming, imaginary methods and of the instruction of teachers who know little more about bookkeeping than they themselves know.

If you would qualify yourself for the best positions, you will need the most expert instruction, and you can get that at the

It has attracted high school and university graduates because of its thorough and comprehenrive courses. BUSINESS POLICY-It has never resorted to dishonorable methods, indulged in

misrepresentation or reduced its rates to meet disreputable competition, neither has it hesitated to dispense with the services of a teacher when he had become non-progressive or a back number. Our policy has been persistent, straightforward and progressive. We have recognized and followed business principles and this has made it unnecessary to play the part of charlatans.
