In submitting this estimate for the buseau of labor and industrial statistics for the blennium beginning April 1, 1999, I desire to make a few explanations and give in brief the work outlined under the statutes for this department to perform. It will be observed that the increase asked for is in amount \$11,720 over the appropriation for the blennium ending April 1, 1999, but I believe that a study of the facts will show that the increase asked is warranted.

but I believe that a study of the facts will show that the increase asked is warranted.

Under the statutes it is the duty of this bureau to cellect, collate and publish all industrial statistics, all crop and agricultural estimates and statistics, enforce the child labor and female employment laws, assist in enforcing the juvenile and compulsory education laws and maintain a free employment bureau. Thus, it will be seen, this bureau is expected to cover work which, in other states, notably Missouri, Kansas, Iowa and Minnesota, is performed by two bureaus, labor and agriculture. In the states named the two bureaus combined have total appropriation registrations that are from eight to ten times larger than the present appropriation asked for the ensuing biennium.

# **Constipation Caused**

Is Cured By Helping the Stomach Do Its Work As it Should.

All forms of constipution, bowel or intestinal trouble owe most of their origin to the improper digestion of food. The bowels measure 30 feet. The inside walls or surfaces are wound tightly about with millions of nerves. These nerves give life and control millions of little mouths or suckers NEEDLE THROUGH MAN'S LEG which are supposed to take nourishment from the food as it leaves the stomach and pusses along this 30-foot human canal. When indigestion, dyspepsia or stomach trouble cocurs, the food being undigested. passes over these millions of mouths, it is farmer living nine miles west of here, ran a fermented decaying mass and holds no a sewing needle into his thigh while asleep nourishment as it should.

The little mouths suck it up, impart these impurities to the blood, impregnate the little leg from where the needle entered. The nerves with poison and so the work of constipation and bowel trouble begins. A natural juice or secretion belongs nor-

though the stomach is sick and it passes to the bowels nourishment and juices which children. help the intestines not only to do their work at once, but builds them up, restoring vitality to the nerves, brings new secretion to the glands and cells, helps bowel action and enriches the blood.

The stomach is the cause. Common sense and science are one on this point. You see it yourself. One little grain of Stuart's Dyspepsia Tablets will perfectly digest 3,000 grains of food. The assimilation of a meal by one of these tablets is an easy matter and it keeps the stomach clean and sweet so that in a brief time this organ is re-

this goes to show what latent ability

we may have stored away in our make up unknown to ourselves. The great secret in writing an advertisement is in knowing what you are writing about, then make a plain statement of facts the same as if you

were telling a friend of some event. To write a good advertisement about Duffy's Pure Malt Whiskey a person should know the effect it has on nervous and run-down cases, and in cases of cold, bronchitis and lung

trouble. One can then realize the strengthening effect it has on body, brain and nerve, and the aid it gives to the vital forces, thus enabling a person to write with a clear mind a concise forceful argument.

We are always ready to purchase at what it is worth any good idea or advertisement that is sent us by any readers of this paper. Duffy Malt

Has One of the Greatest Specialists in America.

Dr. Milen of Our City Is Gaining a World-Wide Reputation.

When we say there are but few great specialists in America, of whom Dr Theodore Milen of our city is one, we do not wish to confer the idea that they are than three pounds per thousand are sub- the only good physicians in this country. ject to a tax of 54 cents per thousand, There are a great many fine and capable and those weighing over three pounds per physicians all over the United States, of which Omaha is blessed with many The seizures have been made of cigars What we mean by the greatest specialists weighing over three pounds per thousand, is that they are recognized as authority upon which the 54 cents tax had been on any and all forms of chronic diseases paid only. All such cigars are liable to and men who confine their practice strictly to chronic and long-standing all

ments of the human body. such as Dr. Theodore Milen, who has spent the best years of his life preparing himself to be the master of all chronic dis eases, is not to be classed with the ordiold family physician, using his old, must books that teach him the old ideas that were used a hundred years ago-ideas that are long past recognition by the bright, up-to-date man who has long himself and others might live. The common mistake of this age of hurly-burly is for the young men with high ambition to tire of preliminary work and rush into the vertex of actual business or professional work but half prepared. Choose your doctor wisely. Be sure he is a man ease and your case especially. Before you place your case do not fall to consult Dr. Theodore Milen of the Austrio-American Doctors, whose institute is opposite the Orpheum theater, in the Ramge Building, on the corner of 15th and Harney Consultation and examination is free to
