Light Speculation is Offsetting All Bullish Influence.

INCREASED OFFERINGS TUESDAY Late Breaks in Wheat Caused This

and a Father Decline Resulted, the Endertone Being Car. M. Stendy.

OMAHA, Jan. 26, 1909.

Light speculation is offsetting all builled in mences and wheat traders are disposed to stay off the market, in hope of its going still lower owings to the general indifference showle.

The sentiment of corn is inclined to the buillish side Because of the late soft weather, which is restricting the country movement. Farmers are willing to contract freely on a thirty days shipping basis at present prices, and an enlarged movement can be expected.

The late break in wheat yesterday caused increased offerings early today and a little decline resulted. The undertone was steady, but values were gradually forced lower, without any apparent weakness. May wheat opened at \$1.00 and closed at 1904c. OMAHA, Jan. 26, 1909.

cas. May wheat opened at all 1914c.

Corn held firm and was independent at a small advance registered early. Support was due to a good and demand and the firmness of all offerfigs.

Bidding was strong at the close and offerings very light.

May corn opened at 56%c and closed at Primary wheat receipts were 425,000 bu, and shipments were 315,000 bu, against receipts last year of 462,000 bu, and shipments of 33,000 bu. Corn receipts were 782,000 bu, and ship-ments were 559,00 bu, against receipts last year of 1,008,000 bu, and shipments of 222,-

CHICAGO GRAIN AND PROVISIONS WEATHER IN THE GRAIN BELT Features of the Trading and Closing Fair Wednesday and Not Much Prices on Board of Trade.

SMAO J Wheat Corn. Oats.

CHICAGO, Jan. 26.—Absence of export demand for American wheat and increasing receipts at primary points in this eauntry induced liberal profit-taking ir, the wheat imarket fore today resulting an final losses of \$4.0 %c. Corn closed, firm, cats steady and provisions weak. sulling an all losses of \$50.00 \(\frac{1}{2} \) c. Corn closed firm, eats steady and provisions weak.

With the appearion of moderate weak-ness, the first few minutes of the season the wheat market was bearishly inclined all day and the washeness became procupied in the final half hour. The close was weak audonly a trifle above the kwest point with May at \$1.05 \(\frac{1}{2} \) and July at \$6.50 \(\frac{1}{2} \) Several leading commission chouses were free sellers nearly all they and there was also active selling which was credited to northwestern interests. The chief reasons for the selling pressure were an almost entire absence of export demand, clearances of only \$5.000 bushels of wheat a considerable increase to primary receipts and additional rains last night in the Ohio and Missouth river valleys. The early firmness was due mainly to the strength of European First markets. The world's visible supply decreased 1,900.000 bushels is the last week compared with an increase of 1,942.000 bushels for the corresponding week a year ago. crease of 1,842,000 bushels for the corresponding week a year ago.

The feature frade in the corn market was the subject of precises of more than 1,000,000 bushels of the May delivery by a leading commission house which was said to have been short a long line of corn. The street of this buying was the cause of degreed strength in the market during almost the entire day. The market closed firm at prices 4 @4c higger, with May 3t 654,062 ac and July at 6546

ket closed firm at prices % @%c higer, with Mny at 62% 65% c and July at 62% 6 % and July at 64% a Provisions were weakened by liberal realizing sales, final quotations showing net declines of 2% @50 to 45c. Pork displayed the greatest weakened by liberal part of the selling was credited to the grain firm which supported the corn market, although a Milwaukee packer was said to have sold freely of lard and ribs carly in the day.

The pressure continues high over the mountain district, central valleys and southern portion, and is extending eastward to the Atlantic coast. The eastern depression is disappearing off the upper Atlantic coast. A depression of moderate energy overlies the extreme upper Mississippi and upper Missouri valleys, and extends north into Canada, with its center over the Saskatchewan valley. This depression is accompanied by a decided rise in temperature in the extreme upper Missouri valley, and west over the northern Rocky mountain slepe. Temperatures are slightly lower in the central and lower valleys, the lake region and on the north Pacific coast. Precipitation occurred within the last twenty-four hours on the Pacific slope, in Oklahoma, and east over the lower and an obsciously toniques generally clear in the upper valleys and west over the mountain district, and will continue fair in this vicinity toniques generally clear in the upper valleys and west over the mountain district, and will continue fair in this vicinity tonight and Wednesday, with not much change in temperature.

Record of temperature and precipitation compared with the corresponding day of the last three years:

1909, 1908, 1907, 1906.

Know What a Want Ad Is.

It's a mistake to think that want ads are only used by people seeking employment-in locating lost articles-inrenting houses and flats. These are but a few of their uses.

Read Bee Want Ads every day as thousands are now doing-know what they mean. You will never neglect them when you do. It would be impossible to tell all the uses of Bee Want Ads-you learn new things every day. For instance, unusual desires are quickly gratified by Bee Want Ads. You may be the roommate some congenial person wants. Some one may have the books you want in exchange for the bicycle you don't care for. You can invest money safely. You can buy a store with an established trade. You can obtain information of a personal nature. You see, Omaha people realize the importance of Bee Want Ads. It's a place where all meet for the good of all. Considering the few minutes it takes to carefully read them, there should be no reason for not reading Bee Want Ads every day.
