

NEW RULE FOR TELEPHONES

State Railroad Commission Decides Novel Point.

DISCRIMINATION IS DEFINED

Telephone Companies May Not Charge One Rate to Subscribers and Another to Nonsubscribers.

(From a Staff Correspondent.) LINCOLN, Jan. 27.—(Special.)—An odd point in the matter of telephone service was decided today by the state railroad commission.

The Edison company gives service at a charge of \$1.75 a month, while that of the Farmers' is much less. Burt offered to pay the 25 cents a month switching charge.

The commission rules that it cannot do this, because this would give him cheaper service than that furnished by the town company to other subscribers.

The commission also passes upon a request from the Farmers' & Merchants' company of Alma to be allowed to permit patrons to use a pay phone at the railroad depot without charge.

Expenses of Lancaster. That the cost to the taxpayers of running the county during the year 1909 will amount to about \$350,000 and that fully half of this amount will be spent on roads and bridges is the estimate of the county commissioners.

On account of the damage to county roads by the heavy last spring the commissioners are expected to expend as much as \$150,000 to put the roads in good condition.

On account of the damage to county roads by the heavy last spring the commissioners are expected to expend as much as \$150,000 to put the roads in good condition.

GIRL DIES WHEN LOVE FAILS

Miss Bennie Talbot Kills Self Over Broken Engagement.

FIANCE REFUSES TO TALK OF IT Young Woman Leaves Letter to Friend Which Contains Her Reason for Sending Bullet Into Her Head.

The suicide of Miss Bennie Talbot, who fell out with her sweetheart, Palmer Lamoreaux, has prostrated the mother of the young woman and young man.

Arriving at the Dunn home, the young woman found no one there, so went to Mrs. Howell's at the corner, and borrowed the front door key to the Dunn house.

Entering the home of her friend, Mrs. Dunn, she made careful and deliberate preparations before ending her life.

Mrs. Howell became curious of what might be keeping Miss Talbot in the Dunn home so long and the discovery of the suicide resulted when Mrs. Howell went to the house.

BAN ON WILLET SPEECH

House Adopts Report to Expunge Vicious Attack on President.

CALL REMARKS PERSONAL ABUSE Colleagues Declare the Assault Descriptive of Courtesy, Respect and Dignity—Will Strike Out Entire Speech.

WASHINGTON, Jan. 26.—Recommending that the speech delivered in the house last week by Representative Willet of New York, in which the president was severely criticized, be expunged from the Congressional Record, the select committee appointed to consider the speech submitted its report to the house today.

Declaring that "the consideration of the speech in question involves a consideration of what is and what is not orderly debate in the house," the committee's report defines the privileges of members of the house and the limitations of debate.

The report declares that it would seem that the "peculiar constitutional duties of the house in relation to the power of impeaching the president do not preclude a clear line of distinction between that criticism of acts and conduct necessary for performance of the constitutional duties of the house and a criticism merely personal and irritating."

SCHOOL HOUSE TOO SMALL

Hastings Must Change Plan to Accommodate Its Growth.

HASTINGS, Neb., Jan. 27.—(Special.)—The Hastings board of education is facing a serious problem in connection with the proposed erection of a new high school building.

Some weeks ago it was planned to erect a duplicate of the present building, which occupies one-half of one square block.

It was planned to build a new building on the other half, so that the two structures would be in harmony with each other as to size and location within the square.
