Mine Workers Declare for Public Ownership of Public Utilities. DEMAND RELEASE OF POUREN Convention Objects to Return of Political Refugee from Russia--Vote Indicates Election of Lewis.

INDIANAPOLIS, Ind., Jan. 28.—After a ten years struggle the socialists among the membership of the United Mine Workers of America have at last obtained the balance of power in the annual national convention, now in session here. It is estimated that 300 of the 1,400 delegates are either active socialists or have engaged to support measures of socialistic tendency in the convention.

A resolution for the "public ownership of public utilities," was adopted by the convention without a dissenting vote. In the past the leaders have been able to hold the national organization from committing itself to socialistic doctrines, but that time is past, and President Lewis finds a rival for his office in John Walker of Illinois, who is a professed socialist.
