Leavitt Letters Given Out Artist Makes Public Correspondence with Wife and W. J. Bryan.

Paris, Feb. 2.—Homer P. Leavitt, the artist, who recently was sued for divorce by his wife, Ruth Bryan Leavitt, daughter of W. J. Bryan, has given out several letters bearing on the separation of the couple prior to the filing of the action.

In the letters, all of which are of a friendly nature, it is shown that Mrs. Leavitt had asked for a year's separation in order to recover her health.

But as a matter of fact the bill providing for the appropriation of \$300,000 for the binding twine plant as drawn is unconstitutional but a little thing like that appears to have no effect on the house when it makes its onslaught on the state's strong box.

Nothing is said as to the remission of the \$100,000 in fines levied against the companies and the supposition is that they are willing to pay the amount without controversy.

STANDARD OFFER TO STATE Convicted Oil Company Ready to Compromise with Missouri.

JEFFERSON CITY, Mo., Feb. 2.—Attorney General Major had not decided this morning whether he would recommend to the supreme court the qualification of directors of the Standard Oil company, through its attorneys, filed with that tribunal today.

The suggestions to the court comprise 2,000 words of matter already printed in the proposed bill, in lieu of the outer decision against the company a new Missouri corporation be formed to succeed to the business of the Standard Oil company of Indiana in this state.

to travel, a right which was theirs by treaty. Count Hattori's speech was greeted by continued cheering by the opposition.

Foreign Minister, Komura, replied with a few words, saying that he had outlined the fixed policy of his government and that he had nothing to add and nothing to retract.

The house then adjourned. JURORS, NOT COOPER, ON TRIAL Two Have Been Convicted and the Third is Now Investigated.

NASHVILLE, Tenn., Feb. 2.—Although most people are under the impression that the trial now in progress is that of Colonel Duncan P. Cooper, Robin J. Cooper and John D. Sharr, charged with the killing of former United States Senator E. W. Carmack, Judge Hart gravely insists that it is the trial of the man who is now being investigated.

HOWARD GETS IN CHARTER BILL Differs Materially from One Introduced by Tanner. (From a Staff Correspondent.)

LINCOLN, Feb. 2.—(Special Telegram.)—The house for the first time this session is decorated with petitions from the lobbyists. Pasted on the walls, suspended from the gallery and pasted to the front of several desks is a large yellow poster with these words printed in large letters: WOMEN VOTE

For all other officers in all elections on the same terms as men in Wyoming, Colorado, Utah and Idaho. Why Not in NEBRASKA?

OF THE Douglas delegation Jeremiah Howard is the only member whose seat has been decorated and on several occasions one of Lincoln's most prominent women has used up a lot of her time on Jeremiah and she has converted him.

BANKING BILL IS FORMING Committees of Both Houses Hurd at Work on Party Measure. (From a Staff Correspondent.)

LINCOLN, Neb., Feb. 2.—(Special Telegram.)—Banking committees of both house and senate are busily engaged trying to change the Wilson and Volpp bills into some form that will be acceptable to the Bryan idea of a guaranty fund measure.

There is much diversity of opinion and so many interests are to be satisfied in drafting a new banking law that Chairman Gray of the house committee has almost thrown up his hands and he is said to think it feasible now to enact merely a law providing for a state guaranty fund and

omit the drafting of a new banking law. While it is true the task is much larger than he or any other member of the legislature imagined when they began, yet the possibility of getting control of more offices and more political proponder by creating a banking commission that democrats may fill will be too great an attraction for the rank and file of the party and no matter how difficult the work or how unfit the party is to carry on, they will make the attempt and a new banking law may be regarded as a certainty.

Mr. Bryan's idea as expressed at the secret meeting held at the home of Governor Shallenberger was for an immediate payment bill with a guaranty fund unlimited as to the tax for one year should be 1 per cent of the deposits, not greater than 2 per cent in any one year in case of emergencies.

Another letter said the Tanner charter was "ten times worse than the charter" and Howard was congratulated for taking a stand against it.

SHERMAN FOR HOUSE RULES Vice President-Elect Says They Enable Majority to Transact Business Promptly.

ALBANY, N. Y., Feb. 2.—Vice President-elect James S. Sherman was a visitor at the capitol tonight and addressed the senate briefly. Introduced by Lieutenant Governor White, Mr. Sherman said in part:

"We do business in Washington in the house a little different from what we do in the senate, and from what you do here. There has been much said, particularly in the recent past, in reference to the rules of the house of representatives.

"In my judgment, and I do not pretend to know all the rules of all the legislative bodies of the world, but insofar as my study of legislative procedure goes, I believe the rules of the house of representatives of the United States are the best calculated to do business of any code of rules adopted by any legislative body in the world, and the great distinction between the rules of the lower and the higher legislative body in Washington is this: In the lower house the rules provide for a majority to do business promptly and in its own way, whereas in the higher body the rules make it possible for a minority to prevent the doing of business, and in this practice, the twentieth century of ours when it is our wish to go forward, to progress, it does not seem to me that it is quite fitting that the rules of our legislative bodies should do just what the rules of the house of representatives do and that, to permit the majority to do business in its own time and then to hold that majority to an accountability to its constituents."

DECISION INVOLVING LABELS Circuit Court of Appeals Holds Manufacturer Has Right to Use His Own Name.

SAN FRANCISCO, Feb. 2.—Holding that a manufacturer has the right to display his own name on the articles he produces without being compelled to qualify the use of the name in any way, even should it be similar to that of some other manufacturer of the same class of articles, the United States circuit court of appeals dissolved today the injunction granted by Federal Judge Van Fleet restraining M. Anargyros, an Oakland cigarette manufacturer, from using his name on box labels unless followed by words showing that the enclosed cigarettes were not manufactured by the American Tobacco company.

The injunction was granted on the petition of the American Tobacco company some time ago, it being stated in the petition that Anargyros, by placing his name on his cigarettes, made it appear that they were a well known brand put out by the company. The company's cigarettes were manufactured originally by Anargyros, no relative of the Oakland dealer, who sold out to the big tobacco concern.

In rendering its decision the court said that if misrepresentation were actually being made in the case it was by the American Tobacco company, which, by continuing the name of Anargyros on the name on the boxes, gave the impression that he was still manufacturing, whereas they were actually a product of the corporation.

PANAMA RESENTS INSULT National Assembly Adopts Resolution Protecting Against Railway Charges in Congress. PANAMA, Feb. 2.—The National assembly has unanimously approved a resolution protesting what it describes as "the slanderous assertions made by Representatives Rainey in the American congress against President Obaldia, which assertion deserved to be considered only because of the official character of the one who made them."

The resolution concludes as follows: "The assembly publicly and solemnly protests against the insult to the chief executive of Panama, his excellency, Domingo De Obaldia, as implied in the parliament of a friendly nation."

port of his family shall be deemed guilty of a misdemeanor and subject to imprisonment in the county jail for not exceeding three months. Provision is made for expenses incurred upon furnishing a bond and for parole upon application of any suitable person on consent of the person convicted and the person to whom he has been paroled shall collect his wages and pay the same as the court may direct for the support of the family and for failure to maintain good conduct a person so convicted may be brought back into court for further order of that body. Jurisdiction is given a justice of the peace in the case.

Arrest Defines Intoxicated. If Barrett of Buffalo county has his way about it, it will be impossible to even get "near beer" at the little joints and the little restaurants in the country towns and the big towns. Mr. Barrett introduced a bill in the house today providing that all decoctions which contain more than 1 per cent of alcohol shall be intoxicating liquor. This will put out of business, it is said, all non-intoxicating drinks which became popular around Lincoln after the recent election.

Wants Weekly Holiday. Fred Humphrey of Lancaster county, a member of the house, is a baseball fiend and that is apparent. This morning he introduced a bill providing that from 1 o'clock until 10 o'clock p. m. of Saturday be a 2 day holiday. Mr. Humphrey before the legislature convened announced that he intended to introduce such a measure because he believed that after a half day in which the working man might ruminate around about things in general he would be in a good frame of mind to absorb some religion on Sunday.

To Abolish Examining Board. Boyd of Hamilton county is after the state examining board, which now has authority to issue teachers' certificates. Mr. Boyd introduced a bill in the house providing for the abolition of the State Board and the re-creation of the county boards of examiners. Under this bill teachers shall be examined by the county superintendent and two others whom he shall appoint and they shall have the power to issue first, second and third grade certificates. Should a teacher teach successfully during the life of a second grade certificate, he or she may secure a

certificate to teach in any county in the state. SUFFRAGE LOBBY USES BANNER Women Decorate Walls of House with Flaring Petition. (From a Staff Correspondent.)

Another letter said the Tanner charter was "ten times worse than the charter" and Howard was congratulated for taking a stand against it.

One letter said an amendment had been made to the Tanner charter providing that the mayor and the city council should have authority to enter into a contract with the Barrett Electric Light and Power company "and very shortly you will have the pleasure of seeing Mr. Barrett in representative hall lobbying for that amendment."

This letter said the same "gang" that wants that amendment to the charter is the same "gang" that fought the issuance of bonds providing for a municipal lighting plant.

Another letter stated that when the charter was handed to Senator Tanner he returned to South Omaha with the committee that brought it down to Lincoln and the charter was then passed upon by the "corporation" representatives. This letter said: "The corporations have fixed the tax commissioner so that he can only assess railway terminals and public corporations, but cannot touch the property of the packers or stock yards."
