DR. MILEN GIVES PERSONAL ATTENTION TO ALL

The Austro-American Doctors opened offices in Omaha a few months ago in a quiet, conservative sort of way, but made every arrangements to stay permanently, as they knew full well that the people of Omaha and vicinity would quickly learn of the marvelous cures which they are making daily by Austro-American methods. Their expectations have been more than realized as each day sees their office crowded with patients send by different friends who have been cured of seemingly hopeless ailments. Dr. Milen, the great Diagnostician, in charge of the Omaha office of the Austro-American Doctors, asks no questions in diagnosing cases and makes no mistakes. He makes it a point to see every patient personally and outlines their treatment. Those who cannot be cured are frankly told so, but the Austro-American treatment can and does cure in many cases where numerous other methods have failed. These doctors use no crude drugs-only the purest alkaloids. Comfortable waiting rooms are furnished for out-of-town patients and they are invited to make the Austro-American Doctors' office ther headquarters while in the cty. No fee is required of responsible patients until they are cured.

Following are some of the many testimonials which the Austro-American Doctors are constantly receiving from grateful patients:

Austro-American Doctors,
428 Ramge Building, Omaha, Neb.

My Dear Friends;
I arrived home two weeks ago feeling splendid. I will nover forget the night those butchering doctors said I had to go to the hospital and in operated on for appendicitis, and what a change it was to me when you said I needed no operation; that I did not have appendicitis, that I was suffering with gall stones. You said you could and would cute me, and the fact that I have not had one pain since that night three weeks ago is proof that you certainly understand your business. If the people only knew of your treatment, how many could be saved from the operating table and pernaps death. My friends and alighbors are surprised to see me looking so well, and my husband is the happlest man you ever saw. For the past three years I have suffered untold agony and I feel that I will never be able to repay my friends there in Omaha who insisted on me coming to see you.

will never be able to repay my trieds that he coming to see you.

You have my persmission to publish this letter, and I will gladly write to any one who may be suffering and be in doubt as to what your treatment will do for them. My home was formerly in Omaha, but my address now is Leoti, Kan.

Thanking you again for what you have done for me, I am.

Your Patient,

MRS. JNO. GREENLEAF.

Austro-American Doctors, Omaha, Neb.

I have doctored for the last five years for what other doctors called stomach trouble. I doctored with the two best doctors in Sioux City and one in Kansas City, and also tried a doctor in Chicago; they all pronounced my case stomach trouble.

my case stomach trouble.

On my visit to the Austro-American Doctors, I explained my condition to the doctors, which was a pain in the pit of my stomach, which bothered me so at night that it disturbed my sleep and things I liked most I could not eat. When the Austro-American Doctors pronounced my case gail stones, I did not know what to think, but after taking the treatment two weeks, I can positively say that this treatment has done me more good than all others. The results were better, quicker and the treatment easier than any I had tried. I will gladly communicate with anyone who may be suffering from this terrible trouble. J. H. DAVIS, 2568 Jones St.

Gall stones are an exceedingly painful and dangerous affliction-it is folly for anyone to continue suffering when they can be permanently cured by the Austro-American treatment. They remove gall stones without operation; dissolving those formed and preventing the formation of new ones.

DR. THEODORE MILEN.

the great diagnostician, in charge of the Omaha branch of the Austro-American Doctors. Dr. Milen's experience of thirty years' active practice as an expert diagnostician of chroic ailments enables him to diagnose all cases without asking any questions. He is considered the most conscientious physician in Omaha, as he frankly tells those who are inccrable that nothing can be done for them, and such cases are not accepted.

John Greenleaf of Leotl, Kan., the Lucky Man-Interesting Meeting at Union Station.

"Hello, there, Mr. Parks, What are you doing here?"
"Well, well," says Mr. P., "I know where you are from and that you used to go up and see the Austro-American Doctors when I did, but I can't recall your name," was the greeting and reply overheard at the Union station Monday evening, just as Mr. Parks boarded the Chicago limited. The man accosting Mr. Parks, it was afterwards learned, was Mr. John Greenleaf, who formerly lived here, but is now located at Leoti, Kan. The greeting was extremely cordial and it was plain to be seen that Mr. Greenleaf was pleased over something, and it didn't take him long to tell that something.

HAD TO EAT MUSH.

In reply to a question from Mr. Parks as to how he was getting along, he said: "Fine. When I went to the Austro-American Doctors, I couldn't eat anything but mush, and now I am eating ham and eggs and even corned beef and cabbage, in fact, I am eating everything my appetite

Just then the caller called: "All aboard for the Chicago limited:" and then one of the men who had been a patient of the Austro-American Doctors, grabbed his sultcast and bid his former friend goodbye and was soon lost in

the crowd as he boarded the train.

The story of Mr. Greenleaf's successful trial with the Austro-American Doctors is as follows:
"I had a mighty bad stomach trouble when I went to see those Doctors a few months ago," said Mr. Greenieaf, and, in fact, wasn't able to do anything. I first heard of these doctors when some friends of ours begged my wife to come here and see them. I'll tell you they saved her life, or at any rate from an operation. She has been so happy and got along so nice that she woul n't let me rest until I had seem them, too. I am certainly glad that I came, as now we are both well and happy. I couldn't afford to be sick

"When I went to see the Austro-American Doctors they were very hice to me and when I told them my hard luck story they made the price low enough so I could afford to take the treatment. I started to improve right from the very first, and now I am entirely well, and I am just as strong as I ever was. Why, I even eat corn beef and cab-

bage."
"Do you live in Omaha, Mr. Greenieaf?" he was asked,
"No. I am living in Leoti, Kan. I am only a laboring man, but I am mighty glad to add my words in favor
of the Austro-American Doctors."
Mr. Greenieaf's looks corroborate his statements. His
eyes are clear and bright, his step elastic and his voice
cneery.

Omaha, Neb., Dec. 9, 1908.

For ten long years I have suffered from a nervous trouble that nearly rulned by health. I treated with a number of doctors, but could not see that I was benefited. I would become dizzy and vomit and suffer for days and days, so that I was compelled to go to bed. My friends had told me about the Austro-American Doctors and pleaded with me to go see them. I am thankful that I did so, for I am greatly improved. I don't have those sick spells any more and I am working every day. Anyone doubting this, write me at 1817 Jackson street, Omaha, and I will be glad to tell them what a wonderful treatment the Austro-American treatment is and what it has done for me in about six can treatment is and what it has done for me in about six weeks.

AUGUSTA LARSON.

SOUTH OMAHA MAN ENTHUSIASTIC

"Those Austro-American Doctors certainly know their business," said U. Pivonka, who lives on R. F. D. No. 1, "My sister, outh Omaha, to a newspaper man Saturday. Anna." he continued, "has been suffering with epilopsy since she was twelve years old; she is now twenty-two. The spells were of such frequent recurrence that they seemed to sap all vitality from both her body and mind. As the years went by her bright, happy disposition changed and she became melancholy and listless, caring neither for her work nor her music, of which she was formerly fond. She didn't care any more to read or talk with the family; simply wanted to eat and sleep and took no interest in anything. Sometimes for days she would sleep constantly, getting up only for a half hour or so for her meals. I gave up my trade as barber and moved out on the outskirts of the city with her, as I didn't feel it safe to have her down town, as her spells were liable to attack her at any time, and I was afraid some accident might happen to her. I tried numerous doctors and different treatments, but all with no success until I was just about discouraged. A little over two months ago I heard of the Austro-American treatment and decided to try it. My sister has not had a spell since Dr. Milen of the Austro-American Doctors commenced treating her, and before that time she never passed by a week without them. She is wonderfully changed, as she is now strong and able to do her work and has taken up her music again. Instead of being listless as before, she now takes a lively interest in everything; she reads, talks and laughs with us and seems an entirely different person from the sister I have seems an entirely different person from the sister I have known for the past ten years. She eats and sleeps regularly now and enjoys perfect health in every way. I cannot express my gratitude for the good these doctors have done her, and I will be glad to have anyone suffering from similar trouble write to me or ask me about them. If my sister could have had this treatment earlier she would have been saved years of trouble and suffering. I know people are skeptical nowadays. I was becoming so myself, and I wish I knew just what I could say to convince others, as a great deal of suffering would be prevented if they would take this treatment and be cured.

WIFE OF MAYOR WITHBOW WRITES.

Mrs. W. H. Withrow, wife of Mayor Withrow of Mo. Valley, Iowa, who has suffered for years with lung trouble, in a letter to the Austro-American Doctors, says: "I thought I would write a few lines and tell you how well I am feeling. I can't believe it is myself. I scarcely cough any more. Your medicine is certainly all right and I am recommending it to all my friends."

Denton, Kan., Dec. 4, 1998.

Austro-American Doctors, Omaha, Neb.:
Dear Sirs—O am glad to hear you have opened offices in Omaha. Wish you all success. I can scarcely recommend your treatment for catarrit and pharyngitis.

My daughter, Maude, has had no return of these diseases since your treatment six or seven years ago. She had those troubles for several years until you cured her. With best wishes for your success in your new location, I am, yours trly,

T. D. GRIFFS.

Gentlemen—On November 14th I commonced taking treatment from you for gall stones. For the last two and a half years I have suffered untold agony, but since I commenced taking treatment with the Austro-American Doctors I have been gaining from the first, and am still improveng. My friends all remark how well I am looking and are surprised to see me looking so well. I haven't felt any symptoms, whatever, for the last six weeks, and I cheerfully recommend the Austro-American treatment to anyone who may be suffering from gall stones as I was. I will be glad to answer any inquiries. MRS. W. F. URBAN,

ferred to here as "the Hughes law of California," inasmuch as it follows closely the text of the Hughes bill which was passed by the last legislature of New York. Violations of the measure is made a felony, the punishment for which is imprisonment in the penitentiary and a heavy fine.

As to when he would sign the bill Governor Gillett was noncommittal tonight. Under the law he must sign or veto it within ten days after it is sent to him. He said he might affix his signature after considering the measure for live minutes or he might take longer. He has not made up his mind. Since that time he has been taking treatment until he thinks his knee is about as strong as ever. If it is Omaha will have the crack second bareman of the league this summer and that's a cinch.

denounced by resolution of the Omaha harter revision committee Thursday evening at the meeting held in council chamber in the city hall. Included in the resolution was a demand that the right to levy an occupation tax remain in the This and a motion unanimously carried

that the legislature adopt the charter amendments prepared by the committee were the principal deeds of the session The resolution referred to was offered by D. C. Patterson and amended by Coupcilman Harry Zimman, running when com pleted as follows:

Resolved. That we are emphatically opposed to any legislation depriving the city of Omaha of the right to levy occupation tax upon its franchise corporations or to regulate such corporations. The Zimman amendment began with the words "or regulate."

This action by the charter revision com mittee was inspired by the proposition at Lincoln to put the control of public service corporations of the city in the hands of the State Railway commission. The last business which came up was a decision to adjourn until such time when members of the legislature can be induced to meet with the committee.

Real Home Rule.

While the question of occupation taxes and of corporation regulation was the main theme of the evening the whole charter question was discussed at length. Councilman Zimman read over provisions in the measure fathered by Howell and compared these with the results attained after long study. Zimmar spoke with great emphasis in particular upon the occupation tax question and denounced much past talk of "home rule" as "political buncombe," saying that real home rule would not consist I going to the legislature every session and asking for permission to do this or that, to authorize a greater intersection bond issue for instance, but that home rule would really be when changes in Omaha city charter could be voted by the people of the city themselves, City Attorney Burnam pleaded for lenient view of the legislature's activities until such time as it had developed what was really planned by that body

with regard to the corporation question He expressed himself as being heartily in sympathy with the occupation tax. Henry W. Yates asked for the courtesy of the floor, which was granted, and voiced the only protest of the evening against a tax of any kind. He believed, however in putting in a clause in all subsequent franchise grants to the effect that the city receive a share of the gross receipts. Zimman at once called his attention to

the fact that the Omaha & Council Bluffs,

Street Railway company claims Its franchise to be perpetual. Earlier in the evening the Howell prop osition to make the city engineer's office elective had come up for discussion and a vote on this was tabled by the chairman of the evening. W. H. Green, head of the revision committee, who called attention to the fact that the committee had already recorded itself on this point through the motion by George Kleffner to insist on all the provisions originally recommended by the committee.

Mr. Hotchcan people the relief which they have for kin recently invested in milling property in Minden, and he expects to move his that Mr. Taft or any other republican will family to that city and take the manage-

REMOVES THE CAUSE

No remedy that does not entirely remove the cause of Catarrh from the blood will ever make a permanent cure of the trouble. Just as long as the circulation remains contaminated with the impurities and catarrhal matters which produce the trouble, the mucous membranes or inner linings of the body will be kept in a state of irritation and disease. Sprays, lotions and other local applications will sometimes temporarily relieve the tight, full feeling in the head, buzzing noises in the ears, uncomfortable, stuffy feeling of the nostrils, and help to loosen the mucus in the throat; but Catarrh is a constitutional blood disorder and until it has been entirely driven from the system there can be no permanent cure. S. S. S. cures Catarrh by removing the cause from the blood. It attacks the disease at its head and by thoroughly purifying and cleansing the circulation, and ridding it of every particle of impurity, and at the same time enriching the blood, allows the inflamed and irritated membranes to heal, improves the general health, and stops every disagreeable symptom. S. S. S. reaches down to the very bottom and leaves no trace of the disease in the system. Book on Catarrh and any medical advice free to all who write.
