REMARKABLE VALUES MONDAY

5000 Handsome Colored Dress Goods Remnants Left From the Great January Sale Must Go.

Every woman in Omaha and vicinity knows what this special sale of remnants means to her. The one sale of the whole year you cannot afford to miss. We have just closed one of the most successful January sales we ever had. As a result of the enormous cutting of dress goods we have accumulated quantities of remnants. Waist lengths, lengths for children's dresses, dress lengths and skirt lengths by the hundreds. Now the remnants must go. Every remnant has the stamp of style and newness.

NOTE—Read carefully each item below and the special reductions. Thousands more to choose from than the window or papers hint of.

English Stripe Tailor Suiting

Pretty new shade of brown, \$1.50 quality, 54-in. wide, 4 1/4 yards in remnant, \$1.47. Cream Silk and Wool Crepe de Chine, very stylish, \$1.00 quality, 7 1/4 yards in remnant for \$3.49.

Fine imported Silk Voile, very stylish for a dainty, pretty gown, \$2.00 quality, 44-inches wide, 9 yards in remnant for \$4.19.

Novelty Stripe Panama. The new steel gray in pretty stripe effect. Regular \$1.25 quality, 4 1/4 yards in remnant for \$2.05.

Novelty Check Tailor Suiting, tan color in pretty check effect. 54-inches wide, regular \$1.25 quality, 5 1/4 yards in remnant for \$2.98.

Navy Blue Basket Panama, good weight, all wool, regular \$1.00 quality, 6 1/4 yards in remnant for \$3.19.

Important—Read Carefully

Such little prices on skirt lengths Monday that many come close to being absurd. A fourth, a third, a half of the original prices rule the sale. Hundreds of skirt lengths to choose from. Select a skirt length, have it remnanted to your special measure. Style, fit and workmanship are perfect. Special arrangements for taking your measure and not keeping you waiting.

All Worsteds Panama

New mixed effect, \$1.00 quality; 5 1/4 yards in remnant for \$2.39.

Oxford Gray Rainproof, 54-inches wide, regular \$1.50 quality, 4 1/4 yards in remnant for \$2.81.

New Tailored Striped Suiting, one of the latest, cream and light gray stripes alternating. \$1.75 quality 56-inches wide; 4 1/4 yards in remnant for \$3.19.

Pink Silk and Wool Crepe de Chine, the new shell pink, regular \$1.00 quality, 6 1/4 yards in remnant for \$3.09.

Silk and Wool Poplin, strictly high-class in pretty reedea green, \$1.00 quality, 7 1/4 yards in remnant for \$3.29.

Navy Blue Broadcloth, \$1.50 quality, 5 1/4 yards in remnant for \$3.49.

Women's Wearing Apparel—Correct Modes for 1909

Suits, Dresses, Separate Skirts, Separate Coats, Waists and Petticoats comprise the new things now being shown. We show Suits all the way from \$30.00 to \$75.00.

The same Suits if bought in Paris would cost \$150.00. And we don't believe they would be as well made as those which we sell.

All alterations made free of charge on the 1909 models.

Monday Special Sale—All Silk Taffeta Ribbons

These beautiful all silk ribbons are six and one-half inches wide, colors light blue, navy, brown, cardinal, pink, white and black. Just the ribbon for hair bows, girdles and sashes. 50c quality, Monday 35 cents per yard.

DEATH IN DIXIE TORNADO

Dosen Killed Outright and as Many More Fatally Injured.

REPORTS ARE STILL MEAGER

Many Towns Which Suffered Heavy Damage Cut Off and Later Reports May Increase the Death List.

ATLANTA, Ga., Feb. 6.—The storm which passed over Mississippi, Alabama and Georgia yesterday in numerous sections reached the proportion of a tornado. Reports received up to today tell of the deaths of more than a dozen persons, the fatal injuring of almost as many more and serious injury to many others in the states named and it is believed that reports from the devastated district today will greatly increase the number of fatalities.

Telephone and telegraph services is badly crippled, this condition extending into South Carolina, and it will mean several days before communication with some of the towns and villages which suffered most from the effects of the high winds will be restored. The storm center traveled east from North Texas and appears to have brought the greatest havoc in northern Alabama, although high winds prevailed throughout the length and breadth of that state, reaching a velocity of forty-six miles per hour as far south as Mobile, where a torrential rain was accompanied by hail. Until today it was impossible to communicate with hundreds of towns in the tornado swept district.

the president or the secretary of the navy has the power to remit the unexpired portion of the sentence of a court should he decide to exercise clemency.

From a lengthy report sent by Admiral Sperry the vessel will need much less in the way of repairs after the remarkable voyage around the world than had been expected.

Following the review at Hampton Roads the vessel will proceed to their home yards for repairs, which it is expected will be completed by May 17, after which the entire fleet will again assemble for the summer maneuvers along the Atlantic coast. The vessel will take up the record target practice in Cape Cod bay, Massachusetts, late in the summer.

An Active Salesman—A Bee Want Ad.

Potter Palmer Buys Mine.

CHICAGO, Feb. 6.—It is announced that a deal has been closed whereby Potter Palmer, Jr., of Chicago becomes the owner of the Promontory silver mines at Cushman, Idaho. The mine was previously owned by Francisco Delgado and John R. Barreca and during the last four years has produced \$200,000 worth of ore.

The Pimple and the Face

First Show Signs of the Blood Pur-erty Which Causes Most Skin Diseases.

It is a strange truth that pimples usually appear upon the face, thus illustrating that nature uses the most direct method of conveying man that the blood is filled with poison.

The human circulatory system is said to be the most wonderful of all evidences of nature. It carries health, food and strength to every part of the body. It also carries from every part of the body all germ life, waste material and decay.

If through poor eating, indigestion, constipation, etc., the blood is filled with poisonous, decaying, irritating fluids these poisons are carried to the lungs, where they are attempted to be cleansed by the oxygen from air inhaled.

If this does not accomplish the results demanded the blood takes away the poison and carries it to the little cells of the skin, where they leave it. Here these poisons irritate and decay, until at last they form pimples and blackheads and other skin eruptions; at last bursting or are removed by man.

When you have pimples it is a certain sign your blood is wrong, that the great human blood system is turned into an intricate series of sewerage canals which are filled with impurities.

Science long ago learned that Calcium Sulphide was the most powerful, harmless and beneficial blood purifier obtainable. Stuart's Calcium Waters, under chemical tests, conclusively prove themselves to be one of the best methods of preserving the full strength of this great blood cleanser.

The real beauty of Stuart's Calcium Waters lies in their rapid work. Their good effects are seen after only a few days' use and a face full of pimples has been made clear and clean after only five days' use of these waters.

These waters, by the peculiar Stuart process, preserve and hold the full strength of Calcium Sulphide, so that the system obtains this wonderful purifier in its most efficient state.

Other methods of administering and preparing Calcium Sulphide have proven Stuart's Calcium Waters to be the best method.

Go to your druggist and buy a box of these little pimple eradicators today, price 50c. or send us your name and address and we will send you a trial package by mail free. Address F. A. Stuart Co., 176 Stuart Bldg., Marshall, Mich.

HOME, SWEET HOME

(Continued from First Page.)

Roads expressed the greatest satisfaction with the around-the-world cruise. He then made the following statement:

"This cruise marks an epoch in our naval annals, for the fleet has found itself welded into a unity. An aggregation of battalions irrespective of the power and efficiency of the units is not a fleet in the highest sense of the term, until by long, faithful and harmonious work on the part of the personnel the spirit of the fleet has been developed. That has now been accomplished. The American people have come to appreciate what it means to have a fleet like this. The lessons of the cruise have been many and it is no exaggeration to say that the condition of the ships is better today than when they sailed from Hampton Roads in December of 1907. During these fourteen months the fleet has been practically self-sustaining in the matters of repairs. The officers and men responsible for repairs have met every test and the results prove that the ships have been better cared for than when they depended upon the navy yards.

With Atlantic Coastment.

"Enlistments in the navy will certainly be stimulated by the general interest in this cruise and the splendid opportunities offered the men to see the world. Cruises to foreign ports, which keep the men interested and contented, should be the rule and not the exception.

New standards of efficiency in steam engineering, which means economy in coal consumption and increased radius of action, have been established. The voyage of 3,661 miles from Honolulu to Auckland was the longest ever undertaken by a large fleet without refueling, yet we reached Auckland with coal enough in our bunkers to steam an additional 1,000 miles. For technical work the crew has been ideal. The long cruises between ports permitted unremitting daily exercises and maneuvering. The degree of gunnery efficiency has been greatly improved, as the conditions of drilling and training under long-distance cruising cannot be equaled in home waters, where there is constant interference. This is proved by the unequalled results of the target practice at Pinnacles bay and Manila. The fleet everywhere has encountered unbounded hospitality. The lavish entertainment and good feeling displayed were almost without precedent and they should always be remembered by our people. While the cruise has been interesting and valuable to officers and men, there is a further widespread benefit throughout the fleet at the prospect of reaching home in a fortnight."

The American battleship fleet, composed of sixteen warships, is now on its last run of its famous cruise around the world. It left Hampton Roads December 16, 1907, and when it again anchors in that port, February 22, it will have been gone one year and sixty-eight days. No accident has marked the progress of the greatest armed fleet that has ever made such a long voyage. The cruise has been in every respect an unqualified success.

Welcomed in All Ports.

The trip has been watched with the greatest interest by all foreign powers, and wherever the vessels called—America, Australia, Japan, China, Ceylon, Egypt and the ports of the Mediterranean—the officers and men have been given hearty official and private welcome.

The fleet left Hampton Roads under Admiral Robley D. Evans, who conducted it as far as San Francisco. Rear Admiral Charles H. Thomas then took command, but he was succeeded by Rear Admiral Sperry, who brought the vessels home.

Rear Admiral Arnold's third squadron of the Atlantic fleet, consisting of the battleships Maine, Mississippi, New Hampshire and Idaho and the scout cruisers Chester, Birmingham and Salem, will meet Admiral Sperry's fleet in the Atlantic about 1,000 miles from the coast, and, with Admiral Arnold's ships as an escort, the world touring vessels will proceed towards Hampton Roads, where they will be received by President Roosevelt on Washington's birthday.

QUALITROUS IS FOUND GUILTY

Captain of Battleship Georgia Sued for Six Months.

GIBLITAN, Feb. 6.—Captain Edward F. Qualitrous of the battleship Georgia, having been found guilty by court-martial of being intoxicated while on duty and of conduct prejudicial to the good of the navy, has been suspended from duty for six months, with an additional punishment of the loss of ten numbers in rank. Rear Admiral Sperry, commander-in-chief of the Atlantic battleship fleet, which started on homeward voyage today, has approved the findings of the court-martial, but the secretary of the navy must take official action on the recommendation for loss of numbers.

Captain Qualitrous has been detached from the fleet and ordered home. He went as a passenger on the Georgia.

Successor for Qualitrous.

WASHINGTON, Feb. 6.—Several names of officers available to succeed Captain Qualitrous in the command of the Georgia have been suggested to Secretary Newberry, but he said today that he had not yet made a selection.

The secretary does not expect to take any action in the case until the records of the court-martial reach Washington, which it is thought will be aboard the fleet. Either
