Wheat Values a Shade Easier in Early Session.

STRONGER TONE SHOWN LATER

Receipts of Corn Light, Due to Storm Which Belayed Traffic from Shipping Centers-Demand Good, with Prices Higher.

OMAHA, Neb., Feb. 19, 1909. There was little material change in the wheat situation and cubies came a shade lower. Values were a bit easier during the early part of the session. Advices from outside markets came arrong and higher at the local options. Receipts of corn were light, due to the recent storm, which blocked traffic from shipping centers. The demand continues wood and prices were higher accordingly. Wheat opened uneasily and worked a triffs lower, with sentiment bearish. Later values braced and advanced, with outside markets giving strength. News was considered bullish from the winter wheat localities, advanced to the growing crop. May wheat opened at \$1.65% and closed at \$1.65% and closed at \$1.65% and strength wheat closing the free control of the growing crop. May wheat opened at \$1.65% and closed at \$1.65% and closed at \$1.65% and strength wheat opened at \$1.65% and closed at \$1.65% an iose and strengthened the local options.

crop. May wheat opened at \$1.63% and closed at \$1.04%.

Corn was steady at yesterday's closing prices. Receipts were light and offerings were well taken. Cash corn was very active, demand being good and prices ruled strong. The couptry movement is expected to be light for the next few days. May corn opened at 19c. and closed at 19c. Primary wheat receipts were 254.000 bushels, compared with a holiday last year.

Corn receipts were 82,000 bushels and shipments were 82,000 bushels, compared with a holiday last year.

Clearances were 45,000 bushels of corn. 1,000 bushels of oats and wheat and flour equal to 447.000 bushels.

Liverpool closed %d lower on wheat and %d higher on corn.

on new holdings. Foreign influences were of considerable sentimental effect on the tone, but without giving rise to any actual operations of importance in the market. Securities and money markets abroad were favorably affected by the developments concerning international relations. The visit of the British sovereigns to Berlin is counted on to soften some of the asperities that have grown up in the feeling between the two nations. Relief was felt over the action of Bulgaria in the issuance of the demobilization order, confirming the appearance of restored concord growing out of the settlement with Turkey. The agreement between France and Germany over Moroccan affairs was another source of satisfaction. Finally, the further rise in market quotations of Japanese bonds soothed any apprehensions that might have been caused by more bellicose signs in the Japanese relations with this country. The force of these considerations and of the relaxing money market in London was measured in the material advance of 11-16 of a point in the price of British consols. The direction in which these developments have most interest to the New York market is in the relief afforded from the insistent liquidation of foreign holdings of American securities, which has been going on for many months. NEW YORK. Feb. 10.—The speculative spirit seems to be in a torpor at present and no operations are undertaken in the stock market of any far-reaching significance or importance. The dealings of professional leaders which make up the market are of a kind which are closed up from one day to another and often in the same day, a profit of a small fraction being sufficient to induce realization. Such a market amply explains the fitful and languid fluctuations which extend over little greater range in the course of a week than for a single day.

Today's market was almost barren of incident and its subsidence into greater duliness suggests an early arrival at complete stagnation, a condition, however, which is rarely prolonged for any length of time except in periods of profound financial and commercial depression. An immediate factor increasing the duil tendency was the approaching double holiday. Dull as was the market, its action did not express an uncheerful view of the outlook, the resistance to the early decining tendency and the later siuggish upward movement suggesting a tenacious hold on securities by present owners, in spite of the entire distinctination to take on new holdings. Foreign influences were of considerable sentimental effect on the tone, but without giving rise to any actual operations of importance in the mar-Closing quotations on bonds today were as follows: U. Foreign Financial. LONDON, Feb. 10.—Money was plentiful and easy on the stock market today in spite of the settlement requirements. Discounts were weak. The Stock exchange counts were weak. The Stock exchange displayed buoyancy with rising prices and a healthy undertone on the monetary outlook and good investment buying. Consols were a feature, gaffling 1 1-16 and the premium on the new issues improved. Russians were good among the foreigners, while Paris assisted Kaffirs. The American section of the market was the quietest. Business was confined to professionals, who lifted values over parity in the forenoon. A period of dulness followed and New York support in the afternoon was only sufficient to cause fractional gains. The market was inclined to be easy at the close.

BERLIN, Feb. 10.—Prices on the Bourse today opened irregular, but closed stronger. PARIS, Feb. 16.—Prices on the Bourse today were firm on the Franco-German agreement regarding Morocco.

Stock Exchange Closes Two Days. NEW YORK. Feb. 10.—The governors of the New York Stock exchange today decided to close the exchange over Saturday, February 13, the day following Lincoln's birthday, a legal holiday.

Bank Clearings. OMAHA. Feb. 10.—Bank clearings for today were \$1,586,578.18 and for the corre-sponding date last year \$1,777,585.24. Cotton Market.

827 1.116 CATTLE-The market was absolutely bare of fresh supplies of cattle this morning, the first time that such a thing has occurred the middle of the week since the market was established at South Omaha. For fear of blockades the different railroad companies refused to receive stock yester-day, which accounts for the fact of there being nothing here today. There were a few cars on sale that arrived too late to few cars on sale that arrived too late to be sold yesterday. These cattle met with very ready sale, buyers for all purposes very ready sale, buyers for all purposes being anxious for supplies. Besides taking the cattle readily, they paid prices that generally looked about like higher than yesterday. In fact, it was a good, healthy market, what there was of it, and entirely satisfactory. The only trouble was that there were not more cattle to sell.

Quotations on cattle: Good to choice corn-fed steers, \$5.0096.35; fair to good corn-fed steers, \$5.0096.35; fair to good corn-fed steers, \$4.0096.00; good to choice cows and helfers, \$4.2562.25; fair to good cows and helfers, \$2.2024.00; common to fair cows and helfers, \$2.2024.00; good to choice stockers and feeders, \$1.0096.00; fair to good stockers and feeders, \$1.0096.50; stock helfers, \$2.2023.50; veal calves, \$2.0097.00; bulls, stags, etc... \$2.7564.75.

A Strong, Conservative

bank is a good one with which to bank.

A careful inspection of the assets of the FIRST NATIONAL BANK OF OMARA will show that it is such a bank. This is not merely because it has over \$12,000,000 of assets, but because the character of its investments is of the best.

During the 52 years of its service to the people of Omaha it has also been known as a

Progressive Bank

at all times ready to assist its clients in every way consistent with good banking principles. No business is too small to receive the close personal attention of its officers.

As a result of this policy it counts as most valued customers many of Omaha's most successful business houses.

Perhaps you need such assistance as it has rendered to others.
