### PROCLAMATION.

To the People of Omaha: Tomorrow, Friday, February 13, 1909, will be the 100th anniversary of the birth of Abraham Lincoln, the great defender of human rights and liberty, a man whose name and deeds will live forever.

To give each person an opportunity to take part in the exercises to be held tomorrow in memory of that birthday I request that all business places close. These exercises will be held at the

Auditorium in the afternoon and evening. I hope to see the building crowded. Let us here in Omaha make this a big day. JAMES C. DAMLMAN,

February 11, 1909. Mayor

LINCOLN DAY PROGRAM. 10:30 A. M .- Addresses by prominent citizens in all public and parochial schools.

10:30 A. M .- High school exercises at First Methodist church. 12 M .--- Ceremonies at the Lincoln mon-

ument on high school campus. 12 M .- Twenty thousand school children in concert recite Lincoln's Gettys-

burg speech 2:30 F. M .- Public meeting at Audi torioum, Dr. W. M. Davidson presiding. 8:00 P. M .- Chief public meeting of the day at the Auditorium, General Charles F. Manderson presiding. Grand Army and Confederate veterans will participate.

Omaha will thus pay tribute to the man

who paid his life for the cause of freedom today. Public business will be generally suspended and private enterprise will to some extent observe the holiday. While the day's celebration will cul minate in the big public meeting at the Auditorium in the evening, there are two foatures of the program which possess a human interest and a timely signifi-

cance that claim first attention. At noon Port. Arrived.

Ruling on Water Question.

The secretary of the interior has just declded a question of some importance to water users on projects under the reclamation act. It deals with a situation arising during the pendancy of proceedings for cancellation of an entry and water right ap plication on account of failure to make two payments when due. As it may not always be possible to conclude these proceedings in two or three months prior to the opening of the irrigation land while the matter of cancelling an entry and water right application is under consideration.

The secretary has just held that if the water user pays the charges for operation and maintenance due at the beginning of the irrigation season, water might be furnished to him upon the distinct understanding, however, that if his entry and water right application should be cancelled before the end of the season, his right to the use of the water would immediately cease and e would also forfeit to the United States the amount which had been paid for operation and maintenance. This will enable the water user to cultivate his land and per-

haps raise crops while the question of cancellation is pending. The same rule would, of course, be ap-
