LONDON. Feb. II.—Money was in in-creased demand in the market today and discounts were firmer. Gy the stock ex-change, with the settlement concluded satis-factorily, business for the new account continued unrestricted and the markets

were strong, being helped by the good bank statement. Consols gained and continental buying, but declined a later on realizations. Foregn bonds, especially the new issue, benefited on Paris support Kaffirs eased a fraction, but diamond and copper shares finished strong. American securities, though quiet, shared in the general cheerfulness and exceeded parity in the forenoon, Union Pacific and United States Steel leading, but business was not large owing to the approaching holiday in the United States, Later New York supported Union Pacific, which strengthened the rest of the list and the market finished firm.

Total 3,084 5,082 6,223 CATTLE—Receipts of cattle were not very large, only 130 cars being reported in Still that was a fair run for this late in the week.

While there was considerable inquiry after beef cattle buyers all seemed to feel that they have been paying too high prices, the market having been forced upward by the light receipts following the heavy storm. In consequence of this feeling the trade was more or less of a drag all the morning, while prices generally looked about 10c lower than Tuesday. There were a few good steers that sold as high as \$8.10. The market on beef steers did not improve any, but on the contrary ruled still weaker, becoming fully 100 lower and closing weak sven at the decline.

Cows and beifers were in very good demand, the same as they have been all the cows and neiters were in very good de-mand, the same as they have been all the week and the market on that class of cattle did not show much change as compared with Tuesday, being generally figured as fully steady.

with Tuesday, being generally figured as fully steady.

Stockers and feeders did not show very much change. The fact is the trade on that kind of cattle has been in pretty good condition all the week considering the adverse weather conditions. There were only a few here today, but they generally sold in good season.

SCHOOL CHILDREN WIN OUT New York Railway System Forced to Meet Their De-

NEW YORK, Feb. 11.-That the scrawled signatures of twenty school children have just brought a great raffroad system to revise its schedule to suit parents and pupils throughout one farming district of this state was reported in this city today. Scholars from the rural regions of Niagara today reaching home from their high school in the town of Wilson in time for hours of play before dark, while the railroad formerly brought them back in the evening or not at all. In the office of Governor Hughes' public service commission a file of official correspondence with the railway magnates has been closed, in which the simple petition of the youngeters won out. When the homebound train was suddenly scheduled to leave half an hour before school closed last term an indignation meeting was held by the children, marconed at Wilson with their funch baskets. A petition was drawn up under the guidance of Superintendent A. M. McIlroy and laboriously signed by each protesting son and daughter of the Ningara farmers. This document was solemnly considered and copied by the Hughes commissioners and brought before scores of august railroad officials. The whole force of one railway division was put on the jump to find out why the children were not accommodated. Today the railroad has notified the commission that it will move its schedule back to its old form, and the children are framing another petition of thanks to the Hughes board.
