GRAIN AND PRODUCE MARKET

Liverpool Cables Weak, but Effect is Slight at the Start. Wheat market active, with values at the top of the season. Corn is very strong.

Local Cash is Exceptionally Active, with Values at the Top of the Season—Corn is Very Strong.

OMAHA, Feb. 16, 1909. The local market was only slightly affected by the cables, which were generally active, with values at the top of the season.

Corn holds surprisingly strong, while receipts on the cash market were readily taken up at flattering prices, due to the best demand experienced for the crop.

Wheat market active, with values at the top of the season. Corn is very strong. Local cash is exceptionally active, with values at the top of the season.

Corn opened steady and firm, with higher cables and an exceedingly strong demand. Receipts on the cash market were readily absorbed at fancy prices and the local options advanced on strong outside markets.

Primary wheat receipts were 36,000 bushels and shipments were 22,000 bushels, against receipts last year of 27,000 bushels and shipments of 26,000 bushels.

Clearances were 24,000 bushels of corn, none of oats and wheat and flour equal to 500 and higher on corn.

Articles, Open, High, Low, Close, Yesterday. Wheat, 1.06 1.07 1.06 1.07 1.06. Corn, 50 51 50 51 50.

CHICAGO Grain and Provisions. Features of the Trading and Closing Prices on Board of Trade. CHICAGO, Feb. 16.—WHEAT—Rallied from a weak opening today, and advanced to a new high record mark for the season.

At the close prices were 1/2¢ above final quotations of the previous day. Corn advanced 1/4¢ to 50 1/2¢.

The slump in wheat prices at the start was due to a decline in prices to be paid in the price of wheat at Liverpool and to the favorable weather conditions in this region.

Record of temperature and precipitation compared with the corresponding day of last five years. Minimum temperature 100, 106, 107, 107, 106.

Normal temperature for today, 34 degrees. Precipitation in precipitation since March 1, 4.8 inches.

Deficiency corresponding period in 1908, 4.1 inches. Deficiency corresponding period in 1907, 4.1 inches.

NEW YORK STOCKS AND BONDS

Market Opens Active, but Interest Soon Vanishes. Large Number of New Issues in Prospect. Large Cables Heavy in This Section of the Market—No Cut in Steel Prices.

NEW YORK, Feb. 16.—The stock market proved itself ready to follow the advance of yesterday, and thus disappointed the bulls who were looking for a revival in the market. Interest fell away to the vanishing point, and the market was left to the mercy of the day and the later hours of the session saw conditions as stagnant as at any time last week.

The London market led the way. As the foreign situation was largely influenced in the morning by the news that the British cabinet had agreed to a new policy of reticence, the market was left to the mercy of the day and the later hours of the session saw conditions as stagnant as at any time last week.
