SPECIAL AGENT FOR THE
"Oakland"

Scientific simplification characterizes Oakland construction throughout. The OAKLAND "40" and the OAKLAND "20" are both masterly examples of what unit construction means to the automobile world.

Tasteful, elegance of appearance, splendid balance and handling qualities on the road, power, speed, quiet, smoothness of operation, a word, "roadability" never approached below the \$3,000 mark, makes the \$1,600 40-horse power Oakland the aristocrat of moderate priced five-passenger cars.

Good slightly used Automobiles overhaul and sold on commission.

4-CYL. 4-H. P. **\$2,750**

4-CYL. 30-H.P. **\$1,500**

For the last three years this machine has been considered the leader in its class. No other car won so many victories during 1908.

One of these cars driven 20,800 miles in 100 days without a mechanical breakdown. No other machine at any price ever equalled this record.

Fourth Annual Automobile Show
Omaha Auditorium
February 24th, 25th, 26th, and 27th

You can't afford to miss this exhibition of automobiles and everything pertaining to them. Twice as many exhibitors as last year. Manufacturers and dealers combining to make this the biggest and best show ever held. Beautiful decorations and excellent entertainment features. No matter where you live you will be repaid by taking the time to see this exhibition.
