BABIES SUBJECT TO COUGHS AND COLDS

KICK OFF THE COVER AND TAKE COLD.

How One Baby Was Cured of a Dreadful Cold by Chamberlain's Cough Remedy.

All the world loves a baby and everyone is more or less interested in their health and happiness. There probably never was a baby that did not kick off the covers and take cold; in fact, babies are particularly susceptible to colds and croup, and the favorite remedy for these aliments is Chamberlain's Cough Remedy. It always gives quick relief and is pleasant and safe to take, in fact, it contains nothing injurious. Mothers have become acquainted with this fact and do not be interested to their advantages. do not hesitate to give it to their babies when such a preparation is required. Mrs. John D. Harmon, of Melfa Station, Va., says: "About two weeks ago our baby had a dreadful coid, and at one time I feared it would have pneumonia, but one of our neighbors told how Chamberiain's Cough hemedy had cured her little boy, and I began giving it to our baby at once and it soon cured her. I had tried other remedies and they all failed to do her any good. Our baby is now well and we heartily thank Chamberiain's Cough Remedy, for it cured her. I cannot recommend it too highly or say too much in its favor. I hope all who read this will try it and be convinced as I was." do not hesitate to give it to their

The Water Works. OMAHA, Feb. 23.-To the Editor of The Bee: Please publish in your correspondence column this which I address to the honorable Water Board of the City of Omaha: The press, in publishing your notice in relation to the question of voting \$6,500,000 bonds for purchasing the plant of 300 guests attended. They were entertained the Omaha Water company, took occasion to quote your honorable body as saying that you desired to have the people of

When this question came up originally six years ago, 30 per cent of the citizens of Omaha were then in favor of having the municipality own its own water plant. Since that time the exposition of graft which has been revealed in so many cities of this country, and the disappointment which cities have experienced in handling municipal affairs, has changed the minds of the voters of this city so that now I believe a large majority of the people of this city would look upon it as a public calamity to have the city be compelled to take over the opinion of the writer, your honorable JOHN C. Your attempt to distort the position of the members of the house from Douglas county, who favor an appointive board into a violation of their pledge to stand for home rule is characteristic of your handling of this subject throughout. No one knows better than the editor of the World-Herald that the pledge was to vote and work for home rule for Omaha and of Omaha our public works are a great South Omaha and that there was no enterprise, and if they are done pledge or semblance of pledge as to how the policy of home rule was to be worked if they are done wrong they must be done out.
