Work of the New Cabinet. The nine men who are to form the

cabinet of President Tafe will have more important and extended work than has fallen to the lot of the official family of any other president, special stress of war duties alone excepted. It is almost impossible to grasp the extent to which the field of official activity has been enlarged within the last decade, and more particularly within the last five or six years. The nation has made marked progress in every direction and the cabinet officer of the next administration will have a variety of problems more or less new and trying and requiring a knowledge of domestic and international affairs not before demanded from the head of an executive

department. The United States touches the world at more points than it ever did and the State department's work so liberally enlarged by Secretary Root will have new and growing questions offered for Mr. Knox's consideration. Within the next four years there is certain to be a revision of the tariff. a reform of the currency system and probably a general feadjustment of the revenue-getting laws. This will require the services of a man in the treasury who has broad views and a close knowledge of business and finance in their big aspects, With the promise of a postal savings banks system and a reorganization of the postal service, the postmaster general must be qualified to carry out the reforms planned and to adopt new plans for the continual betterment of this service. New features of war and navy expansion are to be determined upon and the secretaries of those departments will be charged with the duty of framing the policies to meet their changing needs. The Interior department and the Department of Commerce and La bor are having their scope enlarged yearly and the Department of Justice, owing to the activity in prosecuting

calls for the highest legal equipment. The Sixtieth congress will expire by limitation in a few days, leaving many matters of vital importance to the consideration of the new congress, which Mr. Taft will convene in special session on March 15. The legislative program for the next four years is filled with problems whose wise solution will mean much for the welfare of the country. The new cabinet will have an important part in framing the administration's policy on these subjects deal of hard and most important work on their hands.

general public and too many men in ever offered. official life were disposed to look upon the Sounth American countries as mere breeding places for revolutions, more of less comic in aspect, and but little honest effort has been made to practically every nation in South money. America is making marked commercial and industrial progress and that Europe is getting too much of the benefit of the development.

We are gradually learning that the South American does not prefer fighting to working, but is as anxious for the improvement of his country as we are of ours. With the opening of the Panama canal and with better transportation facilities in Central America. a continent of rich resources is to be developed, and the United States should have its share, the lion's share, in the trade growing out of it.

What Was Promised.

Every democratic member of the legislaure knows just what kind of guaranty law was promised in the last campaign. It is up to the law-makers now to do that which was promised and stop higgling and haggling over the fringe, so to speak .-Crete Democrat.

A democratic legislator who knows 'just what is promised" in the last campaign must possess powers of omniscience. Every democratic candidate, orator and organ made so many promises, and so many different promises, that there is no possibility of

Even by confining the term to what was embodied in platform pledges will not furnish the solution because the candidates made their campaign on we or more platforms with distinctly conflicting declarations on many subjects. The democratic platform in Nebraska promised legislation in general terms to make more secure the deposits in banks, while the populist platform declared expressly for a duplicate of the Oklahoma guaranty law. The democratic platform held out the glittering allurement of home rule, while the populist platform in unequivocal terms promised a county option law. Which of these promises are to be kept without "higgling and haggling over the fringe?"

In his address to the Nebraska lawmakers, Mr. Bryan insisted that he would vote for any measure promised in a platform on which he went before the people whether he personally believed in it or not. Mr. Bryan has not always been so scrupulous about was elected in 1892 on the national democratic platform, which, among other pledges, promised to repeal the Sherman silver purchase law, and also supreme court upholding the validity bank issues. When a ball player be-\$10,000 salary, with a winter vaudeville tour at the same rate, he ceases to arract attention as a ball player. The nearer the game gets to perfect commercialization. the greater the danger that it will founder. The public likes good, wholesome, energetic, clean ball games. If the managers begin to spread awnings of purple silk over the bleachers and the first basemen to advertise lost diamonds, the danger signals should be hoisted on the flagstaff.

MR. TAFT AND THE LAWYERS.

Task of Cutting Out Technical Fungi from Judicial Processes. Kansas City Times. No severer or more constructive critic of

the law and lawyers has arisen in this country than Mr. Taft. His regard for lawyers is for some lawyers. And probathe chief of police of South Omaha as bly it is just because he has so high an opinion of what lawyers can do for political and judicial conditions that he so that they do and the methods by which pably were an incitement to riot. they do it. Mr. Taft, in other words, is seeking to make a practical fact out of the theory that lawyers and legal administration should be valuable to the coun-

For, of course, it is a logical assumption, on paper, that the body of men who are learned in the law, and consequently in the political structure of the government, should be more capable of constructive legislation and interpretation and administration of the processes of public life than, say, an equal body of bricklayers or tinsmiths or bankers. That is the theory . But equally, of course, it cannot work out in practice when lawyers, in private and public place, lend their influence to the perpetuation of precedent just because it is precedent, and labor for the intricacies that make law and socalled justice chiefly perquisites of the 'lawyera' trust.'

Take the average medium weight plumber or stonemason, with nothing to guide him except common sense, and, pound for pound, he will be worth a whole lot more as lawmaker, law administrator or judge than the average lawyer of the type described. And that is where practical fact "takes a fall" out of theory. The proposition is the simple one that a progressive man, in sympathy with the currents of life about him. Pittsburg cut the price of steel bars is, without any other qualifications, a more seful citizen than any kind of a "stand

From his consistent efforts to clear the law and the profession of the law of their than it can possibly be to you." technical "fungi," and from his repeated declaration that the reform of judicial processes is the biggest single obligation of the American government, it is evident that Mr. Taft hopes to reconcile the theory and practice in the relations of lawyers to power in the world sums which, accepted as the government. It is undoubtedly a big a matter of course, would have been re-

Riot Roasts

Press Comment on the Outburst of Esce Intelerance in South Omaha

Helplessness of the Victims.

Chicago Tribune. No doubt there are some bad Greeks in South Omaha. Certainly the one who murdered a policeman was. Probably many other nationalities have representative bad men there. There are native born Americans there some one of whom probably would not hesitate to kill a policeman to escape arrest, but if one were to do so the mob spirit would not be awakened unless indeed, the criminal was a negro. Only the crimes of negroes and aliens can provoke one of these riots in which the unoffending and the helpless are the chief sufferers. It would be expedient for respectable negroes, Greeks, etc., to disassociate themselves as conspicuouly as possible from their own disreputables in the hope that they may thereby escape mob law. Manifestly they need not look for much protection from the peace officers of many communities until after they have been maltreated and their property destroped.

At present negroes and aliens are expected to submit meekly to mob violence. If they attempt to defend themselves it adds another count to the mob's indictment against them. A man's house is his castle. He has a right to shoot down any one who is breaking into it to harm him. No exception is taken when an American does When some of the South Omaha Greeks tried to do it the rioters looked on their behavior as infamous. A mob has no sense of fair play.

Lawlessness of Lawmakers. St. Paul Pioneer Press.

The most deplorable feature of the pillaging of the Greek quarter in South Omaha by a mob on Sunday is seen not n the destruction of property, not in the blood spilled; not in the example of disfive plays being presented in New regard and violation of law and order, but n the harangues at the mass-meeting that gave birth to the raid, by a lawyer and two state legislators. The mob was composed mostly of youths under 30 years of age, young rowdles who were alert to receive the suggestions of these speakers a a command to do violence to the Greeks. Had the speakers at the mass meeting roiced the sentiment that should have been flames of the riot simply ignited from the keynote of all their speeches, the gathering might have come to an end peace ably, perhaps after an expression of the indignation felt over the killing of the policeman and a demand that his slayer summarily be punished. By advising against country in Taft's cabinet, the dear old con- a lawiess outbreak they might have prevented it; they might have merited applause perfectly comfortable and safe or to have for action so admirably in keeping with an attack of cold chills up and down its their offices. But, instead, they laid themselves open to censure for inciting an attack upon social order and legal justice, which by virtue of their professions they are presumed to encourage. For the hour They do some fast shipbuilding in Eng- at least, whether or not by intention, the land. The Dreadnought was built inside speakers who made the inflammatory harof a year. The Vanguard, the seventh angues were exponents of anarchy. None launched from a private ship yard in a hasten to denounce utterances so rash little less than eleven months from the lay- and so unbecoming members of these dig-

> Logic of Race Riots. Chicago Record-Herald.

The race riot at South Omaha was worked up by orators who addressed a mass meeting held Sunday. With a fine patriotism the orators discriminated between Greeks and Americans, the assumption being that all the members of the and over the altar proper, a twenty-fourmob at the mass meeting were Americans. foot ring, such as is used at a prize fight, Apparently, however, the Americanism of some of these speakers is of recent origin, and it is a fair inference that among the crowd of rioters were many persons who have not perfected title yet. But all felt the proper thrill when the eloquence was poured forth. They were not Greeks, anyway, which was the equivalent of being Americans or barbarians, as the Greeks might say. The fact that they were different from the Greeks was enough to make a common bond for that particular of healthful sport. Base ball is full of it. brotherhood, especially when it became played 200 days in succession without varia- fraternal feeling was at work there should Admiral Walker, who had long reigned over comes distinguished as the recipient of a are told that "the members of the mob as- tion, was put in command of the vessels Greeks whose property was destroyed, and ship for ship, compared well with the the logic of race riots.

Bringing Diagrace on Nebraska.

St, Louis Times. Shame rests upon constituted authority n Nebraska that it did not suppress with heavy hand the very incipiency of the anti-Greek demonstrations which have disgraced South Omaha. The time for the law first to interfere was when the speeches earnestly advocates a reversal of much at Sunday afternoon's mass gathering pal-

Sinister Features. Washington Star.

One of the most sinster features of this South Omaha affair is the fact that the riots immediately followed a mass meeting in the course of which the murder of a policeman by a Greek prisoner was de nounced by two of the state legislators and an appeal was made to the race preju dices of the mob. These men, representatives of the community in the lawmaking hody, addressed themselves to the worst passions of their hearers. They are guilty of the most despicable crime in the caler dar, that of inciting others to bloodshed and arson. Will Nebraska tolerate such a performance? The Greeks of South Omaha, according to the dispatches, have been prosperous. They have built up business establishments and have maintained themselves generally in a quiet manner. The news reports mention the employes of the packing houses as being conspicuous in the ranks of the rioters. This suggests that there are labor jealousies behind the race prejudice.

Proceeding that Caused Pain. Washington Herald. When congress reduced Mr. Knox's prospective salary as secretary of state, it must have reminded him of his juvenile days, when parental punishment was administered with the comment, "Son, this chas-

tisoment is infinitely more painful to m

## Ever stop to think that you or have to wash dishes 3 times a day, 1095 times a year?

If you could save one-half the time revoted daily to dish-washing, we figure it would amount to about 15 days in a whole year. Rather startling, isn't it?

Sift a teaspoonful of GOLD DUST in a dislapan full of hot water, and it will wash your dishes in just half the time taken by the ordinary soap

Better still, it will give you cleaner, sweeter dishes—dishes that are not only clean on the surface, but that are sterilized and sanitarily safe.

The reason is that GOLD DUST is a positive antiseptic vegetable oil soap in powdered form; it goes deep into hidden places and routs every germ. It instantly dissolves in hot or cold, hard or soft water, and does all the hard part of the task without your assistance

Does not hurt the hands
