Seven Bound Over on Charge of Mebbing Greeks.

Meeting, but is Not Quissed by English as to the Speeches.

Seven of the alleged participants in the South Omaha riots of a week ago were bound over to the district court by Police Judge Callahan of South Omaha before whom they were given a preliminary hearing Saturday morning. Four were dispear in court or took a continuance to

The seven who were bound over on the charge of rioting are Thomas Waddell, W. L. Trobaugh, August Turner, Thomas Holman, William Chandler, DeWitt White

Frank Armstrong and Charles F. Cady, released on their own recognizance to appear in police court Saturday morning, failed to answer to the call of their names and Clyde E. Powers and Charles F. Powers took a continuance until Wednes day, Julius Carlson, John Cuff, Charles McMullen and James Cunningham were dismissed for the reason that the evidence submitted was conflicting and they could not be positively identified as having had a part in the disturbances.

County Attorney English conducted the examination for the state and no counsel was retained by those charged in the complaint. Beven witnesses were summoned by the state, but the principal evidence was given by Chief Briggs of the South Omaha pee, Captain Ringer, Officers Mawldnney. Turnquist and Coultey, and P. H. French Chief Brigge Testifies.

Chief Briggs testified to having bee present at the mass meeting held in South Omaha at 2 o'clock last Sunday afternoon and to having heard the speeches made, but the county attorney did not ask him about the speeches. whether they were inflammatory, or the names of those who spoke. The chief said:

"After the speaking a set of resolution were adopted by those present and a commitee was appointed to wait upon the packers and real estate men of the city in an attempt to formulate some plan whereby the city might be rid of the Greeks. The committee was to ask the packers to refuse the Greeks employment n the future and to ask the real estate dealers to refuse to rent property to them.

"When the meeting adjourned the crowd assed cown O street, and many shouted. Down with the Greeks, kill the Greeks. and other similar threats. Before the officers could get together the crowd had reached Twenty-sixth and P streets where it made its first stop in front of a saloon owned by the Jetter Browing company. Here the windows were smashed out and the mob then moved on to Thirtieth and Q streets, then to Thirty-third and Q streets and then back to Twenty-fourth and L streets."

Picks Out the Men.

After Chief Brigge had described the riot from its beginning at the mass meeting at the city hall, County Attorney English called the chief's attention to the defendants. From these the chief picked out and identified all those whom he had seen at any time during the afternoon or ger purchases.

Edward Porter, the 17-year-old South Omaha boy arrested on a charge of rioting last Sunday, escaped lightly in juvenile ourt Saturday morning. He was paroled y Judge Estelle after receiving a stern

soture by the judge. Porter was before this court and not the South Omaha police judge, because he is under 18 years of age. The fact that this is his first offense weighed in his favor.

STATE BOARD EXAMINES RATES South Dakota Commission Defers Action on Complaint Until

Another Meeting. SIOUX FALLS, S. D., Feb. 27 .- (Special.) -The State Board of Rathroad Commission ers has concluded its regular monthly meet ing at the headquarters of the commission

One of the most important matters to come before the board was the question of establishing joint rates throughout the state. The matter was called to the attention of the board by a number of shippers, jobbers and commercial bodies in different parts of the state. The railroad commissioners already have gathered a great deal of data relating to this subject and will make further investigations. It is possible hat hearings may be called for the purpose of taking testimony bearing upon the matter. That the board will take definite

The petition of the com-SOME FAIL TO APPEAR IN COURT pany asked that the classification be placed where it formerly was, the present rate being stated to be nearly prohibitive. The railroad commissioners will do their most to have the matter adjusted to the satisfaction o fthose concerned.

The Great Northern Railroad company has filed with the board a petition asking that it be permitted temporarily to close Its station at Grover, it being alleged that the business transacted during the winter months does not warrant the company in maintaining an agent at Grover. The matter is being investigated by the board. The residents of Crocker, situated on the Minneapolis & St. Louis road and of Smithwick, situated on the Chicago & Northwestern, have applied to the board for assistance in inducing the railroad com-

panies to install and maintain agents at

their respective towns. The board has

taken the matter up with the railroad companies concerned. During the meeting various matters of minor importance, which are not of general interest were disposed of by the

An orthodox priest is already here, and when his church is completed, he will have a congregation the members of which will include practically every Greek in Nebrasks, aside from the few who still cling to the faith of Rome. Lincoln Greeks will come here to worship, and from other points they will also come as often as they can afford to. At their worship the ortho dox Greeks bless themselves, as do the Roman Catholics, with this difference, that while the Romanist makes the sign of the cross with the open hand or four fingers "In the name of the Father, Son and Holy Ghost, amen," the orthodox Greek blesses himself with thumb and two front fingers drawn together, representing the trinity, and omits the word "amen."

Up to this time Greeks who have died have been buried in Roman Catholic or Protestant cemeteries, as the spirit moved their surviving friends. After the dedication of their new church the orthodox

Greeks Are Never Peddlers.

A few Greeks conduct fruit stands in these two cities and elsewhere, but they are never peddlers. A well-posted Greek said that the peddling business is in the hands of Armenians, Syrians, Bulgarians who are often mistaken for Grecks, and the peddlers never explain the difference. Judging from the best information obtainable locally, the Greeks are with us States government service, who say that a great many of the Greek youths in shining parlors and elsewhere are here illegally: but if they are they have taken precautions to protect themselves, and the deportation of a Greek is very seldom recorded. That the membership of the local colony is law-abiding, with rare exceptions, seems to be conceded; and all ordinary obligations of business and of employment are satisfactorily met. The thing that sticks in the craw of the anti-Greek element is that they work chesp; live even more cheaply, in groups: are careless of many of the little details that Americans set much store by; once in a while are impudent, ignore the restrictions of American law that lay heavily on the true pa triot-in short, do not mix, are not "good fellows" like the citizens we get from northern Europe, for instance. Even the second generation clings tenaciously to the old clan spirit; but perhaps education in American schools, and the daily bumping against Young America involved therewill later work an agreeable change.

## Wheat Still on

and Further Advance of Cent is Predicted.

CHICAGO, Feb. M.-The wheat market continued its record breaking ascent today, May selling at \$1.19 and the July delivery at \$1.00% shortly after the session of the Board of Trade opened. The pit was in a ferment of excitement. The demand for May and July seemed unlimited, and in the rapid fire of bidding the pit clerk had great difficulty in properly recording quotations. The nervousness of the market is indicated by opening quotations, which in an instant covered a range of % of a cent. Enormous realising sales followed the advance, May dropping a full cent from the top. The leading holder is credited with a line of wheat twice as large as the amount in local warehouses. He is admitted to be in complete control of the altuation. At \$1.19 today May wheat was within a cent of the price which this speculator pr phesied several months ago.

WAY FOR DRAINING THE JACKETS Good Mode of Giving Battle to Jack Front.

There is one good way to fight frostto drain off one's water nightly or whenever the car is to be given a rest. It is so slight a trouble. The cock can be opened and by the time the car is washed off and stripped of its rungs, lamps and other things (which in a well ordered motor house are always removed for brushing and cleansing before the car is left), the whole circulation system is drained dry At Olympia we noticed a device for heating water as it issues from the cock-an electric "geyser" attachment. Something of this kind is excellently useful, because, after a car has been emptied of water, it will start more easily with warm water in it than with cold.

It's the truth I'm telling ye. The man I bought them from ain't there no more, but I bought 'em of him just the same. This Irene and Anna Donovan, aged 12 and 8

years, respectively, have been called to the attention of the fuvenile court before, having been concerned in a shoplifting matter. They were paroled on the occasion to Judge Sutton and returned to their studies in the Corrigan school at South Omaha For a week they have not been there, following the disappearance of some rubbers It is for taking these rubbers from the school that they were up before the court

Mrs. Donovan's tale of the Salvation Army store purchase was received with all due respect by the court, but the children were paroled to Probation Officer Mc-Auley, with Judge Sutton and Mr. Mc-Auley will give them his special attention. "When anything is hooked at school Miss Hogan (the principal) always says we

done it," said the older girl weeping. "That, if true, would show the value of never having stolen anything," remarked Judge Estelle. Neither he nor any other juvenile court official believes, however, that Miss Hogan has discriminated against the children.

Couple is Reunited.

Mr. and Mrs. Frank Hellyer have agreed to forgive and forget through the intervention of the juvenile court and Rev. W. D. Stambaugh. Mrs. Stambaugh took the the Up Grade couple aside Saturday morning and urged them to "make up," and they did. They were before the court because their family discord was believed to endanger their May Option Sells at \$1.19 at Chicago children, who are not, however, delinquents, in any way. Mr. Hellyer discussed his domestic fi-

Willie Wilson and Charles Tyurdy, two small South Omahans, were before court for stealing from stores broken open by the mob. Both were paroled to Probation Officer McAulay.

### The Stomach of the Child

Is The Organ All Parents Should Protect and Keep Normal.

The stomach of a child is the organ above all others upon which the future of a child depends. Bodily development is fast in children, and the nourishmen necessary to meet such development is the one essential demanded from a parent. Most mothers and fathers, jealously guard a child from the formation of bad habits, yet in this age our children early become the victims of wrong food, over eating and irregular meals. It is most appalling to know the effect

of stomach trouble among our children. Most children who are nervous, irritable and cross, who dream, sleep restlessly, who tire easily and have no desire for phild exercise, generally have stomach trouble, indigestion and dyspepsia.

Stuart's Dyspepsia Tablets are intended to thoroughly digest food and to place the system in shape to obtain all the nourishment it needs from such food. These tablets mix with the juices of the

system, enriching them and giving to the body the ingredients necessary to build up the rapidly forming brain and body of the young. Stuart's Dyspepsia Tablets should be

given to children after each meal and at bed time. They are made from pure vegstable and fruit essences and contain no harmful chemicals whatever. The use of these tablets will give greater vim to a child in its school work or at its play. They wilf produce appetite and soothe nerves, destroy abnormal cravings and will allay the bad effects of sweets and such improper foods as most children en-joy and will eat no matter what is done to prevent it. It is due the child that his stomach be

protected by the parent, and if Stuart's Dyspepsia Tablets are given after meals, the habits of the child will not tear down the stomach and destroy the digestive juices nearly so rapidly. Stuart's Dyspepsia Tablets are given to each and every degree of life. Any condition of the stomach welcomes them, from the strongest to the weakest.
