C NTEST FOR NEW NORMAL

Seven Northwest Counties Pulling for Chase Bill.

OPPOSE SCHOOL AT AINSWORTH

Boosters Tell Why They Think State Should Place Institution at Alliance, Chadron or Crawford.

Seven of the counties in northwestern Nebrasks are demanding the passage of the Chase normal school bill now before the legislature. The bill provides for the establishment of a new normal school and the appropriation of \$25,000 for this purpose. It leaves the matter of exact location to the State Board of Education or any other properly constituted body.

In opposition to the Chase bill is a measure by Harrington of Brown county providing for an appropriation of \$25,000 and the location of the normal at Amsworth, the home town of Mr. Harrington, Still another is the Henry bill, contemplating two Grand Island Sunday morning, the forschools and the purchase of the old college building at Wayne to be used as one, the

appropriation being \$100,000. Frank Currie of Gordon, Charles Navior of Chadron, P. G. Cooper of Crawford and John Brewer of Crawford have been to Lincoln to urge the passage of the Chase

Their Side of Matter.

Currie and Cooper, acting as spokesmen submitted this argument for their case: "We believe the school should be estab lished at a point accessible to the greatest number of pupils. The seven counties for which we speak are the growing, aggressive counties of northwestern Nebrasks. They, with their population, are:

"Scott's Bluff, 15.000. "Cherry, 15,000. "Box Butte, 14,000 'Sheridan, 12,000.

Dawes, 12,000.

'Morrill, 7,000,

'Stoux, 6,000. "Here is a population of over 80,000. It may be off 2,000 or 3,000 either way, but it is approximately correct. Now, then, here is our proposition: This new school should he located at one of three towns-Alliance Chadron or Crawford-we don't care which, but located at any one of these towns the school would be within easier reach of the children of these 80,000 than it would be if

located at Ainsworth or any other town in the state. "If located at any of these towns the school would be within a radius of seventyfive miles of this 80,000 population, or in other words, a radius of seventy-five miles would include a larger population than a radius of 200 miles would include if the school were located at Ainsworth, Should Mr. Harrington's bill carry and the school be located at Ainsworth 90 per cent of the pupils would have to travel a distance of

200 miles to reach it. Towns in the Territory.

ton before reaching a town of consequence And if the school were located at Ainsworth the people of the towns west of there would be little better off than they are now. It is 150 miles from Ainsworth to the first of our group of towns, and

the others are all further away. "Northwestern Nebraska, the countles we represent, has never asked or received anything of this sort from the legislature. We have been content to boost for the state. We have paid into the state treasury as taxes in the last ten years over \$1.500,000, \$157,000 last year, and have never been given even an experimental station. We are steadily increasing in population; Sloux county polled 600 votes more last fall than it did two years prior to that time and the full vote was out in 1906, and Dawes county increased its voting population by over 400. Our land values are rising. We have land that brings all the way from \$15 to \$50 an acre. We are not in or a part of the famous sandhill country, it should be distinctly understood. country lies to the east of us. Our hand is good and 200,000 acres is under irrigation

As to Railroad Facilities. 'At Crawford we have two railroads, the Burlington and Northwestern, and have access to every part of that great empire. We are going to keep on growing, but we shall need the help of the legislature. We must have schools for our children.

"The very fact that we do not specify any one town for the site of this new normal ought to commend our proposition as a fair one, in addition to the argument we have offered. We are willing to submit the matter to any duly constituted com mittee or board to locate the school, provided it will place it within that yest territory of the seven counties we have mentioned. We don't believe that the fact that Mr. Henry and Mr. Harrington are democrats, and Mr. Chase, the author of the bill we favor, is a republican, should cut any figure with the legislature, which is also democratic. It is certainly not a question of politics.'

Committee Visits Wayne. WAYNE, Neb., March 7 .- (Special Telegram.)-The committee appointed by the state legislature to visit Wayne to investigate the proposition made by Prof. Hile and the trustees of the Nebraska Normal college of this city for its sale to the state of Nebraska for the purpose of making it a state normal, arrived here from Norfolk yesterday morning. The committee, Mesers Leigh, Holmes, Fogarty and Bowman, democrats, and Killen, McColl and Bushen, renublicans, were met at the depot by the mayor and members of the Wayne Comnercial club and taken in carriages to the ollege, where they were shown through the buildings and about the grounds. TENSION STRONG IN BERLIN Situation Between Servia and Austria More Clearly Defined, but Still Disquieting.

BERLIN, March 7.-The situation between Austria-Hungary and Servia, arising om the efforts of the latter country to secure compensation for the annexation by the dual monarchy of Bosnia and Herzegovina was today acknowledged to be disquieting: there is, however, this advantage: The issues are more clearly defined than before.

It can be said with authority that everything now depends upon the position Russia takes in the matter. The situation stands as follows:

Servia has undoubtedly renounced all its rect demands, both territorial and ecoomical, but at the same time it charged Russia to place these demands before an international conference. Austria-Hungary declined to accept such a conference before the points at issue with Servia are settled. Austria-Hungary is prepared to grant favorable commercial and economical com pensations to Servia if Servia consents to egotiate direct; but should a conference powers in any way to intervene in questions Austria-Hungary, with the support of Ger-

many, would oppose any concessions. Austria-Hungary and Germany consider that a conference should be called only to satisfy agreements already made and they do not recognize the right of the powers in any way to intervene in questions concerning two independent nations.

It is affirmed also that Turkey is inclined to hold to a similar view. The porte fears that if such a conference the Tel Jed Sokol hall Sunday afternoon, awarded damages, Servia would demand territorial compensation from Turkey. The provisional commercial agreement between Austria-Hungary and Servia expires March 21, and Austria-Hungary is willing to make the new agreement more advantageous if Servia will abstain from seeking foreign intervention and settle the question alone. Up to the present time Russia has not intimated whether or not it will accept the Servian mandate to approach the powers.

Although there is no serious anxiety regarding the eventual peaceful outcome of this controversy, a certain disquieting tension was evidenced today in official cir-

Railroads Are Planning to Bring Injunction Suits and Merchants Will Ask Concessions.

PORTLAND, Ore., March 7.-The Orecontan tomorrow will say: It is considered practically certain that every possible legal obstruction will be placed in the way of the enforcing of the Spokane rate case decision by the railroads of this territory. While it cannot be learned definitely at present if this step will be taken, nor what processes will be resorted to, it is believed the railroads will fight the rate order just made and at least delay its enforcement to the utmost, even if it cannot be defeated.

The Spokane rate decision was ordered become effective May 1. This is said by all to be practically impossible. Th readjustment and publication of tariffs made necessary by the decision, causing the checking over of all the rates to the territory effected, will take months. That this mass of detail can be arranged by May 1 is said to be out of the question. It is expected the commission will consent to the postponement of the effect of

elapse, but it is thought this will not satisfy the railroads. It is believed they will apply for injunctions or take some other step to overturn the recent decision Meanwhile the Portland Chamber of Commerce will begin suit before the Interstate Commerce commission for lower distribu-
