of the California Fig Syrup Co. and the scientific attainments of its chemists have rendered possible the production of Syrup of Figs and Elixir of Senna, in all of its excellence, by obtaining the pure medicinal principles of plants known to act most beneficially and combining them most its wholesome and refreshing Syrup of California Figs.

As there is only one genuine Syrup of SCHOOL ELECTION IS ON TODAY Figs and Elixir of Senna and as the genuine is manufactured by an original method known to the California Fig Syrup Co. only, it is always necessary to buy the genuine to get its beneficial effects.

A knowledge of the above facts enables one to decline imitations or to return them if, upon viewing the package, the full name of the California Fig Syrup Co. is not found printed on the front thereof.

Almond Blossom Complexion

CREAM

A Great Toilet Luxury

Cleanses, softens, purifies, whitens and beautifies the Skin. Soap and water only cleanse superficially.

Mme. Yale says: A little Almond Blossom Complexion Cream should be applied every time the face and hands are washed. It removes the dust, soot, grime, smut and smudge from the intersticies of the skin and makes the surface amooth and soft.

and soft.

A daily necessity at home and abroad, a treasure when traveling by land and water. Excellent for allaying abnormal redness of the mose or any form of inflammation, also chafing coid sores, fever bitsters and all irritation of the skin. It gives prompt relief to burns, takes the fire out quickly, soothes, leals and prevents scars and suppuration indispensible for use of infants and every member of the household. An exquisite toilet article. A grateful application after shaving. Excellent for massage purposes. Mine. Yale's Almond Blossom Complexion Cream is sold in two sizes.

on High School avenue, on property now owned by the district and known as the old high school site?

Second Proposition: Shall there be levied upon the taxable property of the Independent School district of Council Bluffs, Ia. as tax of fifteen thousand dollars (\$15,000), for the purpose of building four additional school rooms on the Twentieth Avenue school grounds.

This is one chance that the women will vote on these two propositions, but not on the candidates for school directors.

The republican candidates for members of the board are W. J. Leverett, a resident llowing amounts of sidewalk uncompleted of the First ward, and Andrew McMillen, an old-time resident of the Fifth ward. Both are well known and are recognized as being eminently fitted to serve on the board and assist in the management of the public schools of this city. The nominees of the democratic party are Emmet Tinley and G. A. Schoedsack. Mr. Tinley is president of the board and his term, like that of Mr. Schoedsack, expires at this time. Considerable interest attaches to the elecion today, especially to the two proposi tions to levy taxes to erect new school buildings, which do not carry the recommendation of the board. The supporters of the two propositions it is expected, will turn out today and exert every effort to

ing week for the bill to establish a state board of education to have control of the three state colleges is expected to develop some interesting facts. Two matters have just come to the attention of the legislature which will aid in the passage of the bill. One is the fect that at the State university a home for the president has been erected by the trustees out of the millage taxes at a cost of about \$25,000, and there was in fact no warrant of law for the use of the money in this way. Members of the senate are saying that it is just such lack of business management and disregard of the plain laws of the state that is forcing the one board idea to the front. The other fact is that a professor from Ames has been at work all the session on the floor of the house to oppose the bill, or at least has made that a part of his work, while still remaining on the payroll of the Agricultural college. He has been ostensibly helping a few of the leading members in matters of their personal bills, but in fact has reported all along on the attitude of laration that it would be an absolute inmbers toward the Board of Sducation

the senate Saturday of the creamery competition bill, has five big bills to his credit have to vote. They will be permitted to These include the bill to provide a way for securing the removal of officials who refuse to enforce the laws, a bill better defining the duties and responsibilities of county attorneys, a bill to require that calendar for action woman suffrage, inbe in fact law-enforcing surance matters, primary elections, board sheriffs shall officers, and a bill to limit the time for taking appeals in criminal cases to six months instead of a year. A mere statement of the character of these bills shows they are of great importance. His bill to revise the law as to the office of attorney general has not yet been passed by the senate. Of course, some of these bills may fail in the house, but it is certain that no member of either house has to his credit any list of more important bills then these Cosson used to be a telegraph operator in Perry and along the line of the Milwau kee, and as such commenced the study of law. He is a young and persistent worker and has had the enterprise to go right after big things.

Department of Horticulture. The Gillilland bill to restablish the De partment of Horticulture and Forestry would place that department on a permanent footing, while the nurserymen of the

state feel that it is and always has been in a precarious position. A lonic of a sumulant:

Franklin Model D

When you want to make time, what is the limiting factor? Is it the horse-power of the motor, or is it the way the automobile rides?

There is only one answer, and it explains why it is that such high average speed. No other automobile except the sixcylinder Franklin equals it on American roads. You may have 60 horse-power and your maximum speed may be seventy miles an hour, but at the end of a day's touring you have not gone as far as your neighbor in his Model D. Your speed is held down to what the passengers can endure and to what you think your automobile will stand.

Speed then is a question of comfort-a question of the way the automobile rides.

Model D is always comfortable and you dare drive it. It will stand for speed when other automobiles will not.

Franklin Model D four-cylinder, 28 horse power touring-car, 52800. Boach high (en-sion magneto, 36-inch wheele same size as water-cooled automo-biles weighing a thouound pounds more. Other four and six-cylinder models from \$1750 to \$5000.
