TIP PORTER TO GET TOWEL
That is the System in Vogue Where Individual Towels Are in Use.
Before the bill in the Nebraska legislature could become a law requiring the use of individual towels by hotels and public wash rooms, the Commercial club has ordered and installed a few gross of the "napkins" for the use of its members. Almost every hotel in Omaha of the better class uses the individual towels, but

also maintains the long roller towels, which are used largely by the "loafers." In the distribution of the individual towels the porters use great discrimination, some times it is necessary to have the towels shined before the porter furnishes them with the small towels. Again, a gentleman porter may give to a guest who looks like he had plenty of nickels, dinner at quarters, while, again, the individual towel will be served if the guest kicks for them.

The Stoetzel Stove Co.

714 South Sixteenth
We sell on small monthly payments or a cut price for cash. Read below how well people speak of our stoves who have tried others.

Mrs. Leddy, 2730 So. 16th St., says: I used to think that there was no difference in the amount of gas stoves used and how they baked, but I have been convinced that there is a big difference since I am using the Detroit Ideal.

Mrs. McLean, 2510 So. 11th, says: The Detroit Ideal does not take near as much gas as our other stove did. It is a beautiful baker, and the most charming cooking apparatus I ever saw.

Mr. Crisman, 2515 Res., in coming by our store a few days ago, dropped to tell us how well his wife was pleased with a Queen Range they bought of us last fall. He said just before they bought it they let a range go back that was left on trial by a canvasser. He said it had a fire box as wide as a wheelbarrow, took a bucket of coal an hour to heat on top. While the Queen will get hot all over in ten minutes with three shovels full of coal.

Call for the Bread that is wrapped at the oven. It is always strictly clean.
