Steadiness After Several Days of NEW YORK GENERAL MARKET Heavy Fluctuation.

OPENING NERVOUS AND CHOPPY

Leaders Assert Situation Remains Unchanged and that Conditions Are Stronger Than Before the Uphenval.

OMAHA, March II, 1909. After several mays of heavy fluctuation in the wheat values the market steadied today, following a nervous and choppy opening. The big leaders assert the situation remains unchanged and claim that conditions are as strong, or stronger, than before the recent drop from the high levels.

CHICAGO GRAIN AND PROVISIONS Probably Snow Flurries Friday and

Penerses of the Trading and Closing
Prices on Board of Trade.

CHICAGO, Marks II.—A revived export temand and reports of damage to the growing crop by winter killing helped to treate a strong lone in the wheat marks to day. At the close prices showed net gains of \$\frac{1}{2}\$ to \$\frac{1}{2}\$ bears of the mare prices down man.

as. The May delivery

the best prices registered on aspects. After the least prices registered on the market at the close of the previous assets encouraged conditionable selling for short accounts. After opening at \$1.575 to \$1.195. May only the probability of the previous assets encouraged conditionable selling for short accounts. After opening at \$1.575 to \$1.195. May only the probability of the day, the continued slack devanced again. Sentiment in the pit, however, was somewhat mised during the first half of the day, the continued slack demand for cash wheat by millers being a temperature and precipitation for all the probabily Friday, with not much change in kemperature and precipitation compared with the corresponding day of long the probabily Friday, with not much change in kemperature for the day of the day of the probability friday, with not much change in kemperature and precipitation compared with the corresponding day of long the probability friday, with not much change in kemperature for the probability friday, with not much change in kemperature and precipitation of the middle and southern who are the probability friday, with not much change in kemperature for the probability friday in the corresponding day of long the probability friday in the corresponding day of long the probability friday in the corresponding day of long the probability friday in the corresponding day of long the probability friday in the corresponding period in 190, M. K. & T. M. Normal temperature for today, 33 degrees.

In the probability of the probability of

There was general selling of oats during the first hour of the day, which resulted in sharp declines. Some of the larger shorts covered on the early break and this caused a firmer feeling late in the session. At the close prices were the lower to the higher compared with the previous close. Final quotations on May were at 181400814c and on July at 494c.

Fravisions were strong. The market closed strong with prices up 74600c to 20c compared with yesterday's final quotations.

conditions are as strong, or stronger, than before the recent drop from the high levels. The corn situation remains a country problem, and while receipts continue to decrease, the present demand is hard to supply, and this alone is sustaining prices. Wheat grew firmer and advanced after a quick break early in the session. Higher outside markets and steady support from the buil leaders started the bulge and prices closed strong on the bigh point for the day. May wheat opened at \$1.08.

Corn held steady and became strong alter on light receipts. The cash article is the main feature and is bringing excellent prices, more particularly the white variety, which is setting at a good premium. May corn opened at \$22c and closed at \$1.00.

Primary wheat receipts were \$20.000 bu. and shipments were \$20.000 bu. and shipments were \$22.000 bu. and shipments \$20.000 bu. and shipments \$20.000 bu. and s

NEW YORK STOCKS AND BONDS

Market Again Refuses to Respond to News Developments.

Traders Who Bought Stocks Wednesday Afternoon in Anticipation of Rise Are Forced to Sell nt a Loss.

OIL VERDICT HAS LITTLE EFFECT

NEW YORK, March 11.—The perpiexities of the room traders were added to by the want of responsiveness in the stock market today to any news developments. Such a duliness is rarely witnessed on the New York Stock exchange. It was supposed that the ending of the government's suits against the Standard Oil company would revive some animation in the market. Reasoning from the extreme pertubation of speculative sentiment which followed the infliction of the \$23,000,600 fine on this company the professional market operators expected some inflow of buying orders to follow the acquital of the company. They bought a few stocks late yesterday expecting to sell at higher prices to buyers who might be stracted today by the Stanard Oil decision. There was no such demand, the realizing sales consequently forced prices downwards. Acute weakness developed in the Erie Issues, accompanied by rumors of a coming receivership.

Rrie issues, accompanied by rumors of a coming receivership.

Th. news from Washington pointing to the future of the tariff revision was of more effect in clogging the activity of the market than events nearer at hand. The assembling of the conference over anthracite mining wages presented another issue of which the solution is awaited. A few stocks moved under the impulse of special causes; sugar industrials on the report stocks moved under the impulse of special causes; sugar industrials on the report that import duties would be untouched; tobacco because of the record earnings reported for last year, and so on in a few other cases. Arrangements were reported for the export to London of \$1,000,000 in eagles on Saturday notwithstanding the easier tone of London discounts. The demand for money in the local marke today was called practically dead, the only sign of demand being for funds for a year at \$34 per cent. Bonds we

Bonds were steady. Total sales, par value, 13,040,000. United States bonds were unchanged on call.

BUTTER—Creamery. No. 1 delivered to the retail trade in 1-lb. cartons, 3ic; No. 1 in 60-lb. tubs, 20/3c; No. 2 in 1-lb. cartons, 3ic; No. 1 in 60-lb. tubs, 20/3c; No. 2 in 1-lb. cartons, 3ic; No. 1 in 60-lb. tubs, 20/3c; Population of the killers changed hands before midday.

Cows and helfers followed very closely after beef steers, at first the trade being after beef steers at first the trade being after beef steers, at first the trade being after beef steers and feeder situation was not much changed today. The storm earlier in the week naturally reduced country demand somewhat, but still, with the outlook for beef cattle somewhat more encouraging, there has been considerable buying. As western wes supplies have been only moderate the market has feel beef steers, at 5005.00; for the has pended to choice cornected probable buying. As western wes supplies have been only moderate the market has pended to choice cornected probable buying. As western wes continged by western yearlings at the pended to choice cornected probable buying.

mon to fair stockers and feeders,

Representative sales:

suyers yesterday was strongly in evidence ignin this morning. Under the double it fluence of large receipts and lower markers at most other selling points buyers were enabled to force a still further decline this morning. The general market could be quoted logist lower than yesters that there was considerable variation in the market yesterday, depending upon the time of day, so that if a comparison was made with yesterday's close, for example, it would not show as much decline as if compared with sales made earlier in the day. The movement today was rather ineven, the market being quits active in one division of the yards, so that pretty much everything in sight sold in good season, while in some other parts of the yard it was more or less of a drag all the forence.

oon. Later trains came in heavily loaded, until

No.

SHEEP-Receipts of sheep this morning were late in arriving, so that when the market opened the number

market opened the number on sale was by no means excessive. The arrivals consisted very largely of lambs, with a fair sprinkling of sheep. The quality was about the same as it has been during the last few days, that is, there was a considerable showing of pretty decent killers, with more or less trash sandwiched in.

The life and snap characteristic of the sheep market at this point was pretty generally wanting this morning. Buyers at the large consuming centers having experienced a sharp drop. At the same time buyers were receiving reports from their houses at other market points predicting lower prices for the day. With news of this character in hand it is hardly necessary to add that buyers were very backward about taking hold and were in no hurry whatever to fill orders. The result was a slow and dragging market throughout. Still buyers kept picking up the offerings, at least the more desirable loads, for which they paid prices anywhere from aimost steady to isc lower. Thus lambs that brought \$5.40 yesterday, sold today for the amount of water actually used and consumed during the time freed to pay for the amount of water actually used and consumed during the time the meter was so detached. Held that although the smount of water actually used and consumed during the time the meter was so detached. Held that although the smount of water actually used and consumed during the time the meter was so detached. Held that although the amount of water actually used and consumed during the time the meter was so detached. Held that although the amount of water actually used and consumed during the time the meter was so detached. Held that although the amount of water used after the meter was so detached. Held that although the amount of water used after the meter was so detached. Held that although the amount of water used after the meter was so detached. Held that although the amount of water used after the meter was so detached. Held that though the amount so found by the district court was an outlet to enter a cuta for which they paid prices anywhere from almost steady to its lower. Thus lambs that brought \$7.40 yesterday, sold today for that brought \$7.40 yesterday, sold today for the same premises between said parties for the same premises between said parties for the year preceding the unlawful detention, but only a reasonable rent for said period.

2. Proof of the tenant's reasons for retere at \$5.40 today. As a matter of course there may have been some difference in the quality of the two days' shipments, but nevertheless, it is very plain that the market was lower. Good ewes sold up as orning high as \$5.35.

Online To the terms of a lease for the same premises between said parties for the year preceding the unlawful detention.

2. Proof of the tenant's reasons for reference therefore the quality of the two days' shipments, but only a reasonable rent for said period.

2. Proof of the tenant's reasons for reference the gations with reference therefore, will, upon the petition.

3. In such an action a lease between the provided.

3. In such an action a lease for the same premises between said parties for the same premises between the same premises between the same premises between said parties for the same premises and parties for the same premises between the same premises and parties for the same premises between the same premises.

SUPREME COURT SYLLABI

SUPREME COURT STLLABI

1368 Hisgins against Suprome Castle of Hishland Nobles. Appeal from Otoe. Affirmed, Letton J.

1. If the petition in an action upon a policy of insurance or a benefit certificate purports to set out a full copy of the instrument upon which the action is predicated and the recitals of the copied portion show that the whole contract is not contained in the petition a motion to require the plaintiff to set forth the whole contract is proper and should be sustained. But where it is shown that the missing portion is in the possession of the defendand then the rule "less particularity is required where the facts are within the knowledge of the adverse party" applies and the error, if any, in overruling the motion is without prejudice.

2. In a trail to the court without the intervention of a jury after all the evidence had been taken and the case submitted the plaintiff was given leave over objection of defendant to file an amended reply, pleading an additional defense to the new matter in the answer. "To conform to the proof" no request was made for further time or to be permitted to introduce further proof. Held that the matter of allowing the amendment was within the direction of the district court and that no abuse of this discretion has been shown.

2. The burden of proof is upon the de-

within the dicretion of the district court and that no abuse of this discretion has been shown.

2. The burden of proof is upon the defendant to establish a plea of forfelture in an action upon an insurance policy or a benefit certificate and in this case the evidence is examined and held to sustain the judgment of the district court.

18510. Hoover against Deffenbaugh, Appeal from Lancaster, Aftirmed Barnes, J.

1. The plaintiffs, proprietors of a hotel in the city of Lincoln, in the year 188, installed their own water system to supply their hotel, which had theretofore been connected with the water mains of the city by a service pipe three-fourths of an inch in diameter, on which the water commissioner had placed a meter to register the amount of water used. The city water was thereupon turned off at the curb, but was turned on from time to time, with the knowledge and consent of the water commissioner to enable the plaintiffs to repair their pump, and in 1901 was not again turned off, but was left in that condition until some time in September, 1904, when in making some alterations to the hotel the meter was disconnected without plaintiffs knowledge and so remained until August 18, 1906. On the discovery of that fact the city demanded from the plaintiffs the payment of what is called a flat rate, based on the number of taps or faucets in the building from September, 1898. To August 18, 1906, amounting to the sum of \$202.75 and threatened in default of immediate payment of that amount to turn off the city water from their hotel. Held. frimmediate payment of that amount to turn off the city water from their hotel. Held that such demand was unreasonable and unjust and that the city was not entitled to enforce the same.

note after a decree and sale has been had in a suit upon the original mortgage and while decree and sale remain in force and unsatisfied.

2. Where the defense to an action upon a promissory note transferred for value before maturity and in the due course of business is that the endorsee had notice of a defect in the consideration, the court should not instruct the jury for the defendant, unless the uncontradicted evidence shows that the plaintiff had such notice, or establishes facts from which the only reasonable inference to be drawn is that he had such notice or took the paper under such circumstances as show bad faith or a dishonest purpose on his part.
