BULLISH NEWS FROM THE SOUTH

Unfavorable Shipping Weather is Encouraging to Traders on the Bull Side of the Corn Situation.

OMAHA, March 12, 1909. Wheat ran into a quick advance at the start, influenced by strong cables and builtsh news from the southern states and reports of a heavy decrease in the port stocks in Argentina. Primary wheat receipts are dropping off and this fact is pointed to by the supporters of the built faction.

Unfavorable shipping weather has cer-tainly been encouraging to traders favor-ing the built side of the corn market. Storm after storm is keeping the country deliv-eries back.

after storm is keeping the country deliveries back.

Wheat opened strong, with Liverpool cables up, and news came builtsh from all enguarters. Demand was exceedingly good and cash buyers were compelled to bid high on the spare offerings. May wheat sopened at 51.08 and closed at 51.04.

Corn continues steady and strong on light receipts and a good, steady demand. The strength in wheat was beneficial and cash prices were advanced over the option. May corn opened at 524c and closed at 524c.

Primary wheat receipts were 520.000 bushels and shipments were 220.000 bushels and shipments were 220.000 bushels and shipments of 298,000 bushels.

Corn receipts were 521.000 bushels and shipments were 371.000 bushels and shipments of 415.000 bushels of corn.

Clearances were 120.000 bushels of corn.

6.000 bushels of oats and wheat and flour equal to 14,670 bushels.

Liverpool closed 14.69154d higher on wheat and 14.694d higher on corn.

Features of the Trading and Closing Prices on Board of Trade.

Prices on Board of Trade.

CHICAGO, March 12.—Wheat prices advanced more than 2c per bushel on the Hoard of Trade today owing to builtish news from Argentina and to brisk export business at the seaboard. At the close prices showed net gains for the day of 1% 21½ c to 2½ 25½ c. Corn and oats closed firm, but provisions were steady. Haif of the day's gain in wheat prices was made on initial transactions, opening quotations between %c to 1½ above the close of the previous session. May opened at \$1.15½ to \$1.16½ and July at \$1.03½ to \$1.64½. Demand was general at the start owing to an advance of ¼d to 1½ d at Liverpool, which was largely due to a decrease of nearly 2,000,000 bushels in the Argentina visibly supply and to smaller exports for the week from that country than had been predicted. Buil leaders gave the market active support during the greater part of the day and this led to free covering by shorts in general. Reports of damage to the French crop, claims that the Balkan situation is again becoming acute and reports alleging enormous export sales from this country were factors that further strengthened the market late in the session. Rumors were current in the pit that the export business today at New York would aggregate more than 100 boatloads, but a message from a reliable house there declared that it would a exceed thirty boatloads. Sentiment in the pit that the export business today at New York would aggregate more than 100 boatloads, but a message from a reliable house there declared that it would and exceed thirty boatloads. Sentiment in the pit that the sentiment to the first house there declared that it would and exceed the market has first heart of the first house there declared that the first heart of the pit was extremely business today at New York would and exceed the market has first heart of the first hea boatloads, but a message from a reliable house there declared that it would a exceed thirty boatloads. Sentiment in the pit was extremely bullish the final hour and prices advanced rapidly. The top for May was \$1.17%. July advanced to \$1.05%. The market closed excited and strong, with prices at the top for May and a shade below for July, the latter closing at \$1.05%.

The corn market was dull all day. The market closed firm, with prices up % to % 3% c, compared with the previous close, May being at 68% c and July at 67% \$68c.

vious close, lat 67% @68c. at 67% \$65c.

Trade in the oats pit was very quiet and the market manifested less bullishness than wheat or corn. The market closed firm, with prices up a shade to \$60 fte. May being at \$50 fte and July at \$43 fte \$50 fte.

The provision market closed steady, with prices 2% c lower to 5c higher.

The leading futures ranged as follows:

Snow, Possibly, Saturday After a Warmer Night.

OMAHA, March 12, 1909.

The weather is generally cloudy in all portions of the country, except in the extreme southwest and on the Pacific coast, where it is clear. Light snows were general throughout the central valleys and mountains during the last twenty-four hours, and are falling this morning in the northwest, upper Missouri and upper Mississippi valleys. Rains are general in the southern and gulf states, and heavy falls occurred in Alabama and Georgia. A fall of nearly five inches occurred at Montgomery, Ala., since the preceding report. The weather is cooler west of the Missouri river to the mountains, and throughout the southwest. It is warmer along the Missouri river, and east over the Mississippi and Ohio valleys and south to the gulf, and a very rapid rise in temperature is shown in the extreme northwest. The weather will probably continue unsettled, with possibly light snows, in this vicinity tonight and Saturday, with slightly warmer tonight.

Record of temperature and precipitation compared with the corresponding day of the last three years:

1906, 1908, 1907, 1906.

Period of Backing and Filling.

Quotations of the Day on Various READING CENTER OF SPECULATION

> Pailure of Miners' Coal Scale Conference is Without Effect on Prices -Foreign Markets Are Dull.

NEW YORK, March 11.—The rather aimiess drift of prices of stocks turned upwards today after an uncertain period of backing and filling. Dealings expanded also slightly over yesterday's low level for the year. The meager speculation centered in Reading and was based apparently on the labor outlook.

The rejection by the miners' representatives of the counter proposition of the anthractic operators is accepted with professed equanimity by holders of Reading atook. The prospect of a shutdown of mining operations seems to be regarded not unfavorably as giving opportunity to dispose of an accumulated surplus of coal and to reduce the interest charges for carrying this surplus. This is an argument advanced by buyers of the stock. There is an undercurrent of belief that there will be no strike and this also is a factor in modifying the influence of the news from the conference. Some of the buying of Reading was supposed to come from uncovered spots. The movement in the general list was little more than one of sympathy with that in Reading. There is some fear that the tariff bill, when it comes from the committee next week, may contain some surprises that will prove disagreeable to those interested in Solk Joseph sould intimation of a probable abolition of the duty on iron ore weakened the certificates of participation in the iron and ore properties of the Great Northern railway today.

Estimates of the week's currency as a savannah. Toledo, O.

cates of participation in the fron and ore properties of the Great Northern railway today.

Estimates of the week's currency movement were followed by languid interest in view of the continued pressure of funds for lending. The price of copper was marked down again at the New York Metal exchange and receded also in the London market. The foreign markets reported duil trading as well as here, but some sensitiveness to rumors regarding the Balkan situation is manifested. The rebound in Eric on the denial of yesterday's rumors of a receivership was followed by moderate strength of stocks.

Honds were steady, total sales, par value, \$2.750,000. United States 2s, coupon declined is per cent on call.

OMAHA LIVE STOCK MARKET (Good Cattle About Steady, Inferior

Grades Ten Lower.

HOGS SELLING TEN CENTS HIGHER Sheep and Lambs Slow and Dull, with Prices Ten to Fifteen Cents Lower Than Thursday's

Market.

SOUTH OMAHA, March 12, 1909. The following table shows the average ruice of hogs at South Omaha for the last several days, with comparisons:

| 1909. | 1908. | 1907. | 1908. | 1906. | 1904. | 1908.

HOGS—Receipts of hogs were very liberal again this morning. 150 cars being reported in. This makes the total for the week to date \$6.000 head, the largest for five days in a long time back and larger than a year ago by almost £,000 head. After the sharp decline of the last two days sellers seemed to feel that a reaction was due, and as advices from other selling points were generally favorable, they were able to force a substantial advance. The market opened with hogs selling 55 loo higher, mostly 10c higher, but the trade was at no time very active, packers being none too anxious to put on, while saleamen were determined to squeezs every nickle possible out of the market. Still, the hogs kept selling and the greater part of the early receipts changed hands in fair season at the sdvance noted.

At one time the market looked a little weak, owing to the disposition of packers to

Service that Satisfies

This Bank has always endeavored to render such satisfactory service that its customers would make full use of its various departments.

The present volume of deposits speaks for itself (Over \$12,000,000.00).

The strength of the assets, (not forgetting the uniformly large cash reserve), should commend itself to you. WHY NOT ARRANGE TO OPEN YOUR ACCOUNT AT

the prospects were good for a lower close. Still it was apparent that buyers wanted the bogs, and they kept picking them up until the yards were practically cleared some little time before middly. There was no very great difference between the early and late market, it being about one thing all day.
