CHICAGO GRAIN AND PROVISIONS Features of the Trading and Closing

Prices on Board of Trade. CHICAGO, March 17.—Considerable de-moralization developed in the wheat mar-ket late in the session today, and prices declined more than le from the high point of the day on account of the general liqui-dation. The close was weak, although prices were still a shade to %G%c above the

final quotations of the previous session. Corn, cats and provisions also closed weak. A sharp rebound from the final weakness of the previous session occurred in wheat prices at the opening today, initial quotations showing gains of the to %6%c. Many of the smaller traders, who had sold short yesterday were eager bidders for wheat. when trading began, and, with only moderate offerings, the market acquired additional strength during the first hour.

Toward the middle of the day several of the leading bulls began to sell freely and this started general seiling, which resulted in a quick decline. May dropped from \$1.0% to \$1.5%, while July sold off from \$1.0% to \$1.5%, while July sold off from \$1.0% to \$1.0%. Weakness of coarse grains tended to aggravate the heaviness of wheat. The close was weak, with May at \$1.5% and July at \$1.04@1.04%.

of wheat. The close was weak, with May at \$1.15% and July at \$1.04@1.04%. Corn prices declined about 11% in the late hours of the cuarantwing not injudation by out-of-town holders and to considerable selling pressure by local speculators. The close was at almost the lowest point at net declines of 1,601c to 134@134c, compared with the previous close. During the day May

Provisions were firm at the start, owing to a 5000c advance in live hogs. Later the market cased and closed at net losses of

WEATHER IN THE GRAIN BELT Temperatures Lower in Three Main

Valleys and on East Coast. OMAHA, March 17, 1969.
The pressure is highest over the central valleys and generally fair weather prevails from the Rocky mountains east to the Atlantic coast. Light snow flurries were general during Tuesday in the extreme up-per Missouri, Mississippi and Ohio valleys and lake region. An area of low pressure overlies the northwest and rains and snows are falling on the northern plateau and north Pacific coast. Temperatures are lower this morning in the upper Mississippi and Otto valleys and east to the coast. They are slightly higher
