SHARON, Pa., March 18.—William Whitta, son of James Whitta, a well known attorney and former republican candidate for congress, was kidnaped by two men today and later his parents received a letter demanding a ransom of \$10,000. The boy is a pupil in the East Ward school. Two men drove up to the school today in a BUICK. One of them told the janitor that William Whitta is wanted at his father's office immediately. The janitor carried the message to the boy's teacher, who prepared the child for the journey. As she was putting on the child's coat she remarked to the boy, "I hope they are not kidnaping you."

When the boy failed to return home at noon his mother went to the school and learned that he had been taken away by two men. This afternoon the postman brought a letter addressed to the boy's father. HARRIMAN DENIES REPORT HE IS ABOUT TO RETIRE

Story He Would Quit Active Life Due to Misunderstanding of Statement.

LOS ANGELES, March 18.—The statements attributed to E. H. Harriman at Pasadena last night regarding the present state of his health and the possibility of his retirement from active life, as published here this morning, appear to have been somewhat at variance with the intended meaning of Mr. Harriman's remarks on the subject. Mr. Harriman in his statement went so far as to say only that he knew that sooner or later the heavy burden of responsibility that had rested upon his shoulders would have to be shifted to younger ones. There was no hint, however, of any possibility of retirement in the near future.

Dr. George A. Dixon, private physician to Mr. Harriman, is quoted as saying that the latter's health has not been better in years and that the present trip has greatly helped his condition.

Mr. Harriman himself said: "There is absolutely no foundation for any assertion that I intend to retire from active business."

BABIES SUBJECT TO COUGHS AND COLDS

KICK OFF THE COVER AND TAKE COLD.

How One Baby Was Cured of a Dreadful Cold by Chamberlain's Cough Remedy.

All the world loves a baby and everyone is more or less interested in their health and safety. There probably never was a baby that did not kick off the covers and take cold; in fact, babies are particularly susceptible to colds and croup, and the favorite remedy for these ailments is Chamberlain's Cough Remedy. It always gives quick relief and is pleasant and safe to take, in fact, it cools the system, soothes the membranes and has become acquainted with their babies and do not hesitate to give it to their babies when such a preparation is required. Mrs. John D. Harmon, of Melfa Station, Va., says: "About two weeks ago our baby had a dreadful cold and at one time I feared it would have pneumonia, but one of our neighbors told her Chamberlain's Cough Remedy had cured her little boy, and I began giving it to our baby at once and it soon cured her. I had tried other remedies and they all failed to do her any good. Our baby is now well and we heartily thank Chamberlain's Cough Remedy for it cured her. I cannot recommend it too highly or say too much in its favor. I hope all who read this will try it and be convinced as I was."

South Dakota REGISTER BURKE ISSUES LETTER TO HOLDERS OF SOUTH DAKOTA LAND.

SIoux FALLS, S. D., March 18.—(Special.)—Announcement of a great deal of confusion appears to exist as to the time which those who make homestead entries are required to remain upon their homesteads before making commutation final proofs. John L. Burke, register of the United States land office at Rapid City, has issued a letter of instruction to the thousands of homesteaders who at present hold government land in South Dakota on which they have not as yet submitted final proof.

Under the old system, after a settler made entry he or she had a period of six months to establish a residence on the land covered by the entry, and when they made final proofs this preliminary period was counted constructive residence, and with an additional residence of eight months more—fourteen months in all—they were enabled to make final proof.

Register Burke calls attention to the fact that in the case of all homestead entries made since November 1, 1907, a full fourteen months' actual residence is required before the person who made an entry will be eligible to submit their final proof. Thus the six months' constructive residence, which had in the past been considered in reference to commutation proofs, is eliminated.

Don't forget the new name—don't forget that nothing is changed except the name. We still have the largest and best stock of electrical supplies in the west; the best workmen money will hire; the best service that painstaking management will produce.
