Wooster Divorce Case Dismissed

Suit Against Prominent Fusion Politician Struck Off by Court, Plaintiff Failing to Appear.

CENTRAL CITY, Neb., March 34 .- (Special.)—The celebrated Wooster divorce case has been finally dismissed without prejudice, Judge Hollenbeck, who held a brief equity session of the district court here yesterday, having entered an order to that effect. The defendant in the suit was Charles Wooster of Silver Creek, formerly representative from Merrick county to the state legislature, and a fusion leader and political writer of state-wide reputation. Mrs. Wooster in her petition set up some interesting allegations, among them the claim that because she would not declare that she loved him better than her God, the defendant was cruel to her and would not let her sleep or give her any peace of mind for days at a time. The case has been dragging along in the courts for been dragging along in the courts for many months, the fact that the plaintiff had moved away and was a non-resident complicating matters. Many people are afraid of ghosts. Few people are afraid of germs. Yet the ghost is a fancy and the germ is a fact. If the germ could be magnified to a size equal to its terrors it would appear more terrible than any fire-breathing dragon. Germs can't be avoided. They are in the air we breathe,

The object of this action, identical with that of the auft it suc is to reinstate the contest over the Horn estate. Mrs. Shevalier still affirms the validity of the will which she proposed for probate and which made her the chief beneficiary of the estate, worth about \$50,000. She declares that the contest case, which was dismissed on the notion of her attorneys and upon their representation that she withdrew her petition for the probate of the will, was not dismissed with her consent and that her alleged consent to it was obtained at a time when she was so over-wrought that she could not consider what she was ioing and that it was obtained by fraud, duress and misreprecentation. Constipation is man's worst enemy, and half the bodily ills are a result thereof. Nature meant that the howels should b kept open, that we should have a free movement once a day. ALL THE MEAT IN THE GOLDEN WHEAT

The "education" of the public has cost a lot of money, but it has not been in vain. Each year brings a larger consumption of whole wheat foods. We have done our share in the "educational campaign."

In conformity with a decision of the Secretary of Agriculture at Washington, the white flour millers have agreed to stop bleaching flour. Hereafter nothing but "golden" flour will be manufactured by the white flour millers.

You get all the rich, golden nutriment in the whole wheat when you eat

SHREDDED WHEAT

and you get it in a digestible form-the whole wheat, steam-cooked, shredded and baked—crisp, clean, nourishing, satisfying.

Two Shredded Wheat Biscuits with a half pint of hot milk and a little fruit for breakfast will supply all the nutriment needed for a half day's work. Try it for ten mornings and see how much better you feel.
