CUTICURA STOPPED HIS UNBEARABLE TORTURE

"About four years ago, in London, I was troubled by a severe itching and dry, scurfy skin on my ankles and feet. The same, in a few days, was the case with my arms and scalp. I could hardly keep from scratching, which, I need hardly keep from scratching, which, I need hardly say, made it worse. Then large red patches appeared, with inflam matten and soreness.

appeared, with inflam matica and sore a ess. After ten days, thousands of small red pimples formed. On becoming dry, these caused intense itching. I was advised to go to the hospital for diseases of the skin, I did so and was an out-patient for a month or more, the chief surgeon saying: I never saw such a bad case of exsema. But I got little or no relief. Then I tried many so-called remedies, but I became so bad that I almost gave up in despair. On coming to this country I heard so many accounts of cures by Cuticura Remedies that I resolved, as a last resource, to give them a trial. This was after suffering agonies for tweive months, and right glad am I that I did so, for I was relieved of the almost unbearable itching after two or three applications of Cuticura Cintment. I continued its use, combined with a liberal use of Cuticura Soap and Cuticura Resolvent Pills and am more than thankful to say that after using three sets of the Remedies, I was completely cured. I can only add that, should any one be suffering as I did. I hope that they will do as I did, and I am sure of the results. Henry Searle, 2022 Cross St. Little Rock, Ark. Oct. 8 and 10, '07.'

Labor and Capital. "Labor is helpless without capital. The popular conception is that there is an eternal enmity between the two and that each is standing facing the other ready to give a deadly blow. The race problem is another that is to be settled by the new civilization. With the annihilation of space by the invention of steam, nations are touching elbows with each other. Unless the relations between the nations are made right there will be friction. In America the nations have as it were become tied together. So has capital and labor become tied together. Industrial revolution on its way around the world is going to bring the nations into competition and unless these relations are right there will be trouble. This problem is greater in the United States than elsewhere, and it will never be solved until it is solved right.

"It is possible for the old world to send to this continent within the present century 300,000,000 of its people and yet increase its own source of supply. We have got to come to an equalization of economic opportunities. Hence it will be seen that the race problem is destined to become a most serious one.
