weak, joang part of the advance later on, but still closing ingine the heat pool sold sellers all week at strong prices, while bulls have shown an advance of 10516 in many cases. A very fair volume of business was fact that beet steers sold to better advan-tage caused freer buying on the part of the country, but still there was no very great change in values. There was how-over, a strong feeling for the better grades of feeding cattle, and all such met with very mady sale. At the close of the week the yards are well cleaned up and tho market in a good healthy condition. Some of the better hogs po-sibly may have shown a little more ad-vance thand hat noted above, but on the other hand, ulter spood many salement hought that they were not able to get ing to poor adv

preity good killers, both sheep and lambs. The market has been entirely to the lik-ing of seliers; in fact it has been a sellers market from start to finish. Every-day prices have been quoted anywhers from stady or strong to considerably higher, barring Wednesday, when there was a f slight reaction. Packers have been very free buyers, and while receipts have been quite liberal, they have been mone too inrge to supply the demand. There has also been considerable buying on the part of shippers of such stuff as would do to shear and feed out. The very good buying demand which has provailed all the week has apparently been the main cause for the steady upward movement in values. The week closes with a very good feeling and with prices generally 25c and in ex-trome causes as much as 600 higher than last week's close. In regard to the prices paid it might be stated that both sheep and lambs have sold at the highest point touched since early last year. Quotations on sheep and lambs: Good to choice lambs. \$7.5007.55; fair to good lambs, \$7.507.50; good to choice heavy yearlings, \$6.5067.60; good to choice wethers. \$4.0056.85; fair to good wathers, \$5.7568.00; good to choice swes. \$5.00768.51; fair to good awes, \$5.0076.85; cuils and bucks, \$2.0094.00.
