Man Who Wins Greatest Number of Firsts Each Year to Be Head of the Society-Workout of Track Candidates.

LINCOLN. March 28-(Special.)-A meet ng of all the Nebraska athletes at the State university who have won letters in any of the Cornhusker aports will be held omorrow afternoon for the purposs of organizing an association of 'H' men. The aim of the new society will be to elevate the honor and glory that goes with the wining of a Cornhusker letter. All men who secure a numeral is representing the university in any of its recognized games will be eligible to membership in the new so-

clety. The movement for the new association was started at a gathering of captains and ex-captains of Cornhusker teums, held at

the university last week. At that time tentative rules and regulations were laid down for the society. These plan to make the president of the new organization the athlete who each year wins the largest number of letters. For instance, if one man

achieves first honors in rack, basket ball and foot ball, which chances to be the most "Na" won by any single student in a year, he will become the head of the society for the following year. Provision was made for including all alumnl "N" wearers as members of the new society. At the gathering of the atletes called for tomorrow, a set of rules will be adopted and a president for next year selected. One of the rules to be an epted will discourage the conspiouous display of the

Who can tell how much pleasure you can give a sick friend by sending a bunch of fragrant flowers?

Not only the sympathetic thought that goes with them, but the flowers, which themselves brighten up the sick room, make the weariness and pain much easier to bear.

Perhaps this reminds you of some one. If so, turn to the want ad page and, under the heading of "Florists." you will find a variety of offerings of the more enterprising Omaha florists. It is most satisfactory to buy from those who show that they want your trade.

Owing to the great commercial importance of the grain industry the office of grain investigation is given especial prominence. An unusually fine and complete series of samples of the leading cereals embracing all those imported by the department during the last few years, are been taken in selecting and preparing these samples and the labels which accompany
