Omaha Club Vote for More Ground is Three to One

Postal Card Ballot Not Yet Completed, but Runs Heavily for New Lots.

The postal card vote of members of the Omaha club on the proposition to buy additional real estate adjoining the club house on the west is turning out about 3 to 1 in favor of buying.

The option secured by the directors permits the purchase of any amount of frontage up to sixty-six feet at \$30 a foot, and most of the answers are in favor of buying the whole sixty-six feet.

The purpose of the purchase is to put the club in position to enlarge its building when the needs of the growing membership require.

Some of the negative answers on the postal cards give interesting explanations. One club man wants to sell the present club house and get new location in the middle of the business district. Two or three others, evidently in concert, advise removal to a site on Federal street west of Twenty-fourth. Several insist that the price of \$30 a foot is exorbitant and a few others do not believe the club needs any additional space at all.

At the last annual meeting of the club, the directors were authorized to purchase the ground under the impression that it could be bought for not more than \$15 per foot. When they found it could not be bought for less than \$30 a foot the directors decided to ask for another expression from the members.

OMAHA WILL GET THE WOOL

Local Market Popular in West, Says W. H. Bucholz.

HE RETURNS FROM BIG TRIP

Visits Growers and Looks Into Conditions, Which He Says Favor Omaha as Great Market in Future.

W. H. Bucholz, cashier of the Omaha National bank and chairman of the wool storage committee of the Commercial club, returned from an extended trip through the west, where he investigated the wool-growing industry and the probability of a large amount of wool coming to Omaha the coming season and in future years.

"The outlook for an increasing amount of wool coming to Omaha is splendid," said Mr. Bucholz. "The friends of Omaha are thick in the west and with a larger storage capacity and better rates we will get sufficient wool to make the importance of Omaha as a market significant."

Furcra of Congress Action.

Mr. Bucholz said while in the west he was shown two telegrams by wool growers sent by the Commercial club of Omaha informing the growers several days before they could have secured the information through newspapers, of the probable attitude of the special session of congress on the wool tariff schedules.

In one instance the telegram of the Commercial club of Omaha reached a sheep grower at a big meeting of the large barons at an out of the way place where newspapers could not have reached the grower. The telegram arrived, through the Commercial club reached the meeting within a few hours after the bill was read in congress.

A good cheer was given for Omaha and the Commercial club at this meeting and many of the growers whose wool was piled in warehouse or commission house, went to the telegraph office and wired instructions to hold or sell in accordance with the telegram from Omaha which advised that the tariff on wool was practically untouched in the bill presented in congress.

Omaha scored in the opinion of the wool growers and in the opinion of Mr. Bucholz who happened to be on the ground when some of the telegrams arrived, though he knew nothing about them coming.

NO MOVE TO BUY DREDGE

Park Commissioners Take No Action Monday Toward Machinery for Levee Carter Park.

In the absence of adequate information on the subject, the Board of Park Commissioners took no action Monday afternoon looking toward the purchase of a dredge for work in the new Levee Carter Park. The board proposes to begin work in the park as soon as spring opens, but wants to be sure what is best before taking any definite action.

Five plans for the proposed pavilion in Elmwood park were presented to the board and referred to the committee on improvements. The pavilion will cost \$5,000.

On petition of a number of property owners the city engineer was instructed to prepare plans and specifications for paving Woolworth avenue from Thirty-sixth street to Elmwood park. The board will pay the paving cost and the property owners the curbing. Twenty-seventh avenue will also be paved between Cass and California streets and the board will open bids for this work at a meeting called for Saturday afternoon. Bids will also be received, but at a later date, for an artesian well in Miller park.

Members of George Crook post, Woman's Relief corps, asked the board to be allowed to plant Arbor day in one of the parks one tree for each deceased member, and the request was granted. The superintendent of parks, W. R. Adams, was instructed to designate the park and he said he believed he would name the Fontanelle.

Property owners on Blondo street will set out weeping birch trees on both sides of the street between Twenty-fourth and Twenty-eighth streets.
