matter, so it was expunged by a vote of 10 to 21.

Remain State Property.

Failure of Seward started something in the senate by moving that two large flags hanging over the grandstand be taken down to the Seward and put in the David City High school. Senator King sought to amend the motion by voting one flag to the Philippine war veterans' post in Lincoln, which was named after William A. Lewis, the Polk county soldier, who was the first victim of the Spanish-American war. Diers moved to amend the motion by retaining the property for the use of the next legislature. This carried after a characteristic speech from Senator Majors, who suggested that the senate give one flag to the post and one to the schools.

Nebraska News Notes.

COLEBURN—Columbus is to have a camp of the Spanish-American war veterans and Major E. H. Phillips of Lincoln has been invited to see that they are mustered in.

ALBURN—A light snow fell here early this morning, which was followed by a heavy shower of rain. The moisture is very beneficial to everything.

FALLS CITY—While the 10-year-old school building at Falls City was being repaired Wednesday morning after suffering only a few days with inflammation of the roof, the building was closed for the day.

SEWARD—A number of Seward's young people who have proven themselves worthy in the theatrical line have now under way a play entitled "Jane," which will be given for the benefit of the Seward base ball club April 19 and 20.

FALLS CITY—The funeral of Julie Schenck, who passed away at the home of her mother, Mrs. J. R. Whitte, Wednesday morning, was held at the home in the family lot in Steele cemetery.

COLEBURN—At the basket ball game at the Young Men's Christian association Wednesday night the Star Specials won from the high school team by a score of 19 to 5, and the Young Men's Christian association won from the Business Men's team by 19 to 9.

FALLS CITY—E. V. Kaufman, proprietor of the Sycamore mineral springs, has now secured over half of the right-of-way for the proposed extension of the line to run between Falls City and Sabetha, Kan., by way of Sycamore Springs. This and Union college, at Lincoln. There is Doane college at Crete and York college at York, Hastings college at Hastings, Luther college at Wahoo and Junior normal schools at Geneva, Alma and McCook. The big Sixth congressional district is pretty well supplied. It has the State Normal school at Kearney, Junior Normal at Alliance, Broken Bow, North Platte, O'Neill and Valentine, and then there is the bill that has passed both houses of the legislature providing for another state normal school to be located somewhere in the Six Sixth district. Omaha has Creighton university and Bellevue. Northeast Nebraska only claims what is due it, when after forty years it has continued the state institutions in the South Platte country. It now petitions the governor, the governor, not to turn a deaf ear to its supplication. We believe Governor Schallenberger will hearken to the cry of one-fourth of the people of this great commonwealth in asking for a state normal school at Wayne.

Mrs. J. M. Pile, widow of the late President Pile of Wayne college, was seen at the State house this morning and in reply to questions relative to the Wayne institution stated: "There seems to be an impression that the Nebraska Normal college at Wayne has been closed. This is a mistake. We are now having one of the most prosperous terms during the twenty years we have been connected with the school. During those twenty years we have produced approximately 17,000 students. Were Mr. Pile alive and in good health we would have no desire to sell the institution, but his presence was the soul and life of the school. I realize my own weakness in attempting to carry on this work. The insurance on this school property is paid up to date and in advance for three years. This insurance would be about \$115,000. When any person says it can be duplicated for \$60,000 he is not acquainted with the value of it. In my honest opinion we are offering the state an institution worth not less than \$150,000 for only \$60,000. The house committee that is now considering the bill proposed by the original bill provided that the school be composed of successful business men, contractors, architects and builders. Their report vindicates my statement when I say that the institution is worth at least \$150,000."

Sop to Temperance People.
Deathly repentance has the democratic majority of the house in its grasp and late this afternoon it took from the sifting committee S. E. 283, by Wiltse, and recommended it for passage with an amendment providing that all saloons shall close at a certain hour at night, save the saloons in Douglas county. The original bill provided that saloons which sold liquor on Sunday should forfeit the license.

Wilson of Polk county fired the charge and stirred up the animals. He told his party colleagues that the democratic party had prepared a saloon platform to stand upon in the next campaign. He told his fellow democrats that they had denied a hearing to 600,000 people who had petitioned for county option. He made no bones about saying his motion was in the interest of the democratic party. He recalled to the members that they had refused to submit a prohibitory amendment, he demanded that his party do something for the temperance people.

Thomas of Douglas county, who is a member of the sifting committee, told the house that the temperance people had given their choice of the temperance bills in which they were interested upon which to get a record, and that he believed was sufficient. When the roll was called forty-six voted to advance the bill to third reading and twenty-eight voted in the negative.

Howard's Remarks Expunged.
The insinuations against the other members of the Douglas delegation contained in an explanation of his vote on the South Omaha charter bill by Jerry Howard was expunged from the record this afternoon. Clark of Richardson made the motion and in his statement he said he was sure the explanation had been made in full and should not be allowed to stand, as it cast a reflection on every member of the house and was a disgrace to the legislature. Howard called upon the legislators that he meant every word he said in the explanation and if he were to change it, it would be a disgrace to the house.

Kelly Employees Rescued Work.
REPALEA, Mo., April 1.—Six hundred employes of the Missouri, Kansas & Texas railway, whose regular work today after a shutdown since March 15.

South Dakota

ROADS RACE FOR NEW FIELD

Three Lines Reported Working Towards Cheyenne River Country.

ABERDEEN, S. D., April 1.—(Special.)—Reports from an undoubtedly authoritative source are in circulation here to the effect that three railroads will at once begin a race to see which shall first pass through the rich Cheyenne river reservation country west of the Missouri river in northern South Dakota, which will be opened for white settlement next fall. The roads are concerned are the Chicago, Milwaukee & St. Paul, the Minneapolis & St. Louis and the Chicago & Northwestern.

All three roads have decided to a certain extent the routes they will follow. The Milwaukee will build in a southerly direction from Mobridge across the reservation. The Minneapolis & St. Louis will also build in a direction a little south of west from its Missouri river terminus at LeBeau. The Northwestern will extend from Philip northwest into the Belle Fourche country.

The three extensions will open up a rich country full of possibilities for the farmer and the roads expect to have the cars running on the extensions by the time the homesteaders move on their land, less than a year from now.

FINDS LONG LOST BROTHER

Woman Recognizes Relative in Prospect of Belle Fourche Store.
SIOUX FALLS, S. D., April 1.—(Special.)—"You are my brother Jim."

"And you are my sister Sue."

These brief sentences marked the reuniting of a brother and sister who had been separated for a period of twenty-seven years. The principals in the interesting event were Mrs. Susan Noble DeVore, mother of Mrs. N. P. Lang, a prominent resident of Belle Fourche, in western South Dakota, and James H. Noble, one of the members of a new firm which recently purchased the mercantile business of T. H. Gay at Belle Fourche.

The relationship between the two was discovered by the mere accident. Mr. Noble left his home in Huntington county, Pennsylvania, when a young man and decided to try to make his fortune in the west. A short time later his sister, Mrs. DeVore, also came west, locating in Minnesota. Several changes in location and the long lapse of time resulted in the two losing all trace of each other.

A few days ago Mrs. DeVore arrived at Belle Fourche for the purpose of visiting her daughter. Hearing the name Noble—her family name—mentioned in connection with one of the new proprietors of the Belle Fourche store, she called at the establishment under the belief that there was a possibility that Mr. Noble might be a distant relative, as she had remembered that several of the Nobles, in addition to her brother, had come west shortly after the war of the rebellion.

She was introduced to Mr. Noble, whom she did not recognize as her brother. But when comparing notes as to the name of father, grandfather, brothers and sisters, Mrs. DeVore realized that she had at last found her long-lost brother.

Then, with the exclamations quoted at the commencement of this dispatch they rushed into each other's arms and embraced after their long separation.

Homesickness Cause of Suicide.
SIOUX FALLS, S. D., April 1.—(Special.)—An investigation into the cause which led to the recent suicide by shooting of Mrs. Bradley, wife of Dr. E. B. Bradley, a prominent physician of Burke, Minn., has shown that homesickness was the cause of her death.

It was discovered today that Judge George Kersten of the criminal court of Cook county issued a "subpoena duces tecum" which was served upon Receiver Chalmers and which commanded him to bring with him to the grand jury certain documents of importance as corroborative evidence in connection with the new phase of the Booth failure investigation now being conducted by State's Attorney Wayman.

Receiver Chalmers refused to comply with this subpoena and Judge Kersten stands ready to use the full authority and power of the criminal court to compel him to obey.

Big Sale of School Lands.
PIERRE, S. D., April 1.—(Special.)—This month the state land department will, under the provisions of the law on that subject, offer for sale 50,000 acres of the state lands. The offerings will be made in the eastern part of the state and in that line of work State and Commissioner Dohken and State Auditor Hering have gone to the southern part of the state, where with the superintendent of schools of the different counties which they will visit they will be the appraising board for fixing the minimum sale value on the offerings.

At the time of the offering where real estate values are held up to a pretty good figure the appraisal price will probably be such that the sales which will be made will bring a good sum to the funds of the schools and of the various state institutions to which the lands have been allotted.

Lumber Dealers at Mitchell.
MITCHELL, S. D., April 1.—(Special.)—The Southeastern South Dakota Lumberman's association will hold their annual convention in this city commencing this evening at 8 o'clock. The convention will be held at the Danman hotel, plates being laid for 125. The business session will begin Friday morning. A number of subjects have been given to members which will be discussed during the day. The president of the association is W. Wood of Parker and the secretary-treasurer is F. S. Vaughn of Yankton. The association embraces practically all of the central and southern part of the state and has a large membership.

TIEUP OF BUILDING TRADES
Thousand Steamfitters and Electricians Join 'The Lagers' Strike in Chicago.

CHICAGO, April 1.—A tie-up in building operations in which was struck a first blow by the walk-out of the tile layers complete today when about 1,000 union steamfitters and electricians struck, following a refusal of their demands for increased wages. It is declared that a demoralization of building in Chicago this winter is threatened.

DEATHKNELL TO GAS BAGS
Los Angeles Man Invents Method of Exploding Balloons Ten Miles Away.

LOS ANGELES, Calif., April 1.—The death knell of the gas-inflated dirigible airship as an instrument of war has been sounded, according to C. W. Birch, a local inventor, who, it is said, has devised a method of destroying a balloon at a distance of ten miles.

PRIEST DEFENDS KIERAN'S SCHEMES

FATHER McMAHON SAYS PLAN WOULD HAVE WORKED, BUT FOR LACK OF FUNDS.

CLEVELAND, O., April 1.—Father Willis McMahon, who filed a petition in bankruptcy in the federal court here yesterday as a result of his connection with the enterprise of P. J. Kieran, president of the Fidelity Funding company, maintains that if Kieran had been successful in securing all the money he needed to float his schemes, everything would have come out all right.

"I first suspected that Kieran's plans were not working out well when I heard that he was paying large bonuses on loans," said Father McMahon today. "He offered paid a bank bonus of from 25 to 30 per cent of the face of the note upon which the loan was obtained. In one instance he gave a banker a single bonus of \$50,000. When I inquired into these bonuses and asked the banks why they would accept them, if they felt that the notes were well secured, I received no answer."

"At no time did Kieran seem discouraged. Last January, after the exposure of the affairs of his company in December, he assured me everything would come out all right. He even had a plan for the consolidation of five of the largest trust companies in the world, which when they became one institution was to handle all of his business. I believe he would have carried his plan out had not the crash come when it did."

Attorney P. T. Brady, counsel for Father McMahon, says the inside of the transactions of Kieran have not yet been shown and startling developments may be expected at any time.

Father McMahon will have practically nothing left, but his salary of \$300 a year is declared bankrupt. Being a priest, he has no recourse to the exceptions which a married man may claim in a federal court.

SHIP EXPLODES, TWELVE KILLED

French Oil Tank Bark Blows Up While Being Inspected by Officers.

MARSEILLES, April 1.—The French tank bark Jules Henry, Captain Escoffier, in the oil trade between Philadelphia and Cete, blew up this morning and was practically totally wrecked. Twelve men of its crew were killed and many others wounded. The bark arrived at Cete March 22 from Philadelphia.

A representative of the Veritas agency, accompanied by the second officer, was inspecting the vessel at the time it blew up. The two men had just entered the tank hold, when there was a tremendous explosion. The entire deck of the bark was lifted and the forward portion of the ship was scuttled off. Twenty men of the crew at work painting and repainting were blown into the air. Great sheets of fire shot up from the vessel and in a few seconds it was enveloped in flames.

PET DOG SAVES LIVES OF FIVE MEMBERS OF FAMILY
Animal Tugs at Bed Clothes and Awakens Occupants of Burning House.

DETROIT, Mich., April 1.—A pet dog saved the lives of five members of the family of Glenn Mott in Wyandotte, a suburb, today. Mrs. Mott was awakened by the dog tugging at the bedclothes and found the house in flames. The occupants escaped through a window.

FIGHTING RETURN TO IOWA
Mullens and Nichols, Under Charges at Corydon, Appeal to Supreme Court.

SANTA FE, N. M., April 1.—R. G. Mullens of New Mexico, who, with R. M. Nichols, was indicted at Corydon, Ia., on a charge of obtaining \$5,000 under false pretenses, and whose application for a writ of habeas corpus made after requisition papers issued by the governor of Iowa had been honored by the governor of New Mexico, was decided against him, has appealed his case to the supreme court of the United States, and he has been released on \$10,000 bond.

Until about three months ago, it is charged, Nichols and Mullens had lived in Corydon and represented themselves as agents of the Southwestern Smelting and Refining company, capitalized at \$1,000,000. The company, it is asserted, went into receivership after Nichols and Mullens had sold \$5,000 stock in the corporation. Both Nichols and Mullens assert they were engaged in a legitimate business. Both men left Iowa and the grand jury indictments followed.

OPEN MARKET LOWERS WAGES
Steel Magnate Says New Conditions Force Readjustment of Pay Schedules.

PITTSBURG, April 1.—The wage re-adjustment announced yesterday by the Jones & Laughlin Steel company, limited, the largest independent manufacturer in the country, went into effect today. According to W. L. Jones, general manager of the company, about 8,000 men are affected. Mr. Jones says the "open market" conditions in the iron and steel trade has finally forced re-adjustment of the wage rate of mills in the Pittsburgh district.

Other firms announcing a reduction yesterday were the W. F. Boyder & Co. iron manufacturers, and several local plants of the Republic Iron and Steel company.

While no official statement has been made by the United States Steel corporation, it is said action toward a reduction will be taken by April 15.

IOWAN DEAD BY GAS ROUTE
Bridge Man from Dubuque Found Asphyxiated in Chicago Rooming House.

CHICAGO, April 1.—A man believed to be Owey Robinson of Dubuque, Ia., was found dead in a rooming house at 23 Michigan avenue today from asphyxiation by illuminating gas. The police are inclined to believe the man committed suicide. A card bearing the name of the Dubuque Bridge company was found in his clothes.

TARIFF DEBATE IN THE SENATE

(Continued from First Page.)

voice will not be heard in this hall against a single article on the schedule."

He referred to the coal mines of the senator from West Virginia (Mr. Skelton) and his indignation over the proposition to place the products of his state upon the free list.

"We on this side," he said, "are in the camp of the vanquished and so far as I am concerned I would rather be in the camp of the vanquished than in the camp of the victors in the possession of the spoils."

"I have a right," said Mr. Aldrich, replying to the charge that star chamber proceedings were held by the republicans on the committee on finance, "to have a conversation without having a democratic senator cross-examine the person with whom I converse." He declared the members of the democratic finance committee were holding meetings of their own and that they had their experts. Mr. Rayner said the members of the committee lost their individual character when they became a committee of the senate charged with a public duty. Mr. Rayner in an earnest manner declared that the democracy represented the consumers and were against the "plunderers of the people," represented by the republican party.

People Are for Protection.
Mr. Aldrich asserted on the other hand that the protective principle had never been more widely approved than at present and he said he was not alarmed that declaration of the kind made by the senator from Maryland would in any way change it.

Continuing, Mr. Aldrich charged that if the senator from Maryland should frame a tariff bill according to his policy he would not get ten democratic votes for it. He said a distinguished senator from Maryland (the late Mr. Gorman) had recast the Wilson bill of lines that did not agree with the ideas put forth by the present senator from that state and he did not believe he represented the views of all the people of Maryland, even of the democrats of that state. Tennessee, Georgia, North Carolina, Louisiana and other states of the south, he said, are no longer in sympathy with free trade principles.

"You might as well be frank," said Mr. Aldrich addressing the democratic senators, "and admit that."

"I do not intend to let such a speech as we have listened to from the senator from Maryland deter us from being just to every southern state."

"This tariff policy will be just to every section and to every interest of this country."

"I am quite certain that the senator from Maryland will have no followers upon his side of the chamber."

Senator Bailey is Frank.
Senator Bailey indignantly resented the right of the senator from Rhode Island to the democratic party on the subject of the tariff, and said that when the time came to vote that party would be found sustaining the principles of taxation that had so long been maintained by it. He contended for the right of democratic members of the committee to be present at hearings, but admitted that if the democrats were framing a tariff bill they would not permit the republicans to participate.

"You might look at it, but you should not touch it," he said.

Speaking of the inheritance tax proposed in the bill, he said he would rather tax the living rich in an income bill than to tax the dead who are only moderately well to do," as proposed in the inheritance tax.

Mr. Aldrich suggested that the matter contemplated in the Bacon resolution would be taken care of by the committee on finance and it was by a viva voce vote referred to that committee.

A meeting of the senate committee on finance to consider the Bacon resolution has been called for 11 o'clock tomorrow morning.

Business of Session Limited.
The senate, by a viva voce vote, adopted Hale's resolution to confine the business of the extra session to the consideration of the tariff question, to the exclusion of everything else, except the bill making provision for the thirteenth census. The discussion was participated in by Senators Culberson, Bacon, Tallaferrro, Bailey, William Alden Smith and Heyburn. Mr. Smith objected that the resolution practically placed the senate in recess until the tariff bill was brought in. Mr. Heyburn made an earnest plea for the exception of reports of the committee on revision of the laws, which is preparing a re-codification of the federal statutes. He said the committee had been constantly engaged in this work and urged that it might just as well be heard at this time when there was little to engage the attention of the senate while the tariff bill was being prepared.

ELIOT TURNS DOWN POST
Retiring President of Harvard Will Not Accept British Ambassadorship.

WASHINGTON, April 1.—Retiring President Charles W. Eliot of Harvard university, it was stated today, in receiving from President Taft a tender of the ambassadorship to Great Britain, expressed his appreciation of the honor and his appreciation of the honor and the belief that he would be unable to accept the post.

Sixty-Fifth Ballot Feltic.
SPRINGFIELD, Ill., April 1.—There was no election on the sixty-fifth ballot for United States senator today.
