### First Strike Near Scranton

Four Hundred Men Quit Work Owing to Repeated Cuts in Wages.

SCRANTON, Pa., April 2.—The first strike in the anthracite coal regions following the expiration of the agreement between the mine workers and the operators was inaugurated today at the Keystone colliery, an independent operation near Pittston. About 400 men quit work. It is alleged by the strikers that the company made repeated cuts in wages.

### PLANS FOR BIG MEMORIAL

Open Amphitheater of Classic Style to Be Built at National Cemetery.

WASHINGTON, April 2.—The commission of which President Taft, while secretary of war, was a member, appointed to prepare plans for a memorial amphitheater in the National cemetery at Arlington, Va., has submitted its report to congress. The plans prepared by New York architects contemplate a roofless structure covering 34,000 square feet, the ultimate cost of which would be \$65,000. There would be seating places for about 1,000 people, and standing room in a colonnade for many more. It is contemplated that a crypt should be constructed under the colonnade, and that it should be used for the burial of distinguished men who merit such recognition from the government. Provision is made also for memorial busts or portrait statues in the colonnade. "Some of these have so frequently been done," say the architects, "in the famous Campo Santo of Europe." It has been the endeavor to obtain a serious and classic character in order to express the dignity and purpose of the building, and with this end in view such classic structures as the theater of

### Coal Strike is Made General

All Camps but Two in Western Canada Are Affected by the Walkout.

WINNIPEG, Man., April 2.—The coal strike in the western Canada mines became general today. All of the camps except one or two are affected.

### PRIEST ON TRIAL CHARGED WITH BLACKMAILING BISHOP

St. Joseph Prelate Tells of Receiving Threatening Letter Demanding Thirty Thousand Dollars.

ST. JOSEPH, Mo., April 2.—Bishop Maurice F. Burke of the St. Joseph diocese was the first witness in the criminal court today in the trial of Daniel Pembroke, a priest formerly stationed at Maryville, Mo., who is charged with having attempted to blackmail the bishop. Bishop Burke told of having received a threatening letter from Pembroke, in which the priest said that if \$30,000 was not forthcoming from the bishop, he would publish stories derogatory to the bishop's character. Pembroke was removed from the Maryville parish two years ago, upon complaint of the parishioners. He alleges that the bishop appropriated a farm owned by him. Bishop Burke is a Roman Catholic.

### ELIOT'S REFUSAL IS FINAL

Official Confirmation is Given to Report that Harvard Man Declined Ambassadorship.

WASHINGTON, April 2.—Official confirmation today of the announcement made yesterday that Dr. Charles W. Eliot, the retired president of Harvard university,

### NEW ORLEANS PEOPLE WANT BATTLESHIP TO GO UP RIVER

Send Protest to Washington Against Stopping Mississippi at New Orleans Island.

NEW ORLEANS, La., April 2.—A committee, representing the commercial and maritime exchanges of New Orleans, has forwarded to the secretary of the navy at Washington a vigorous protest against the reported action of the department in declining to permit the battleship Mississippi to proceed on the Mississippi river to some point in the state of Mississippi, but directing it to an anchorage off Horn Island, for the presentation of a silver service to the vessel by citizens of that state. Figures decline with the depth and navigation of the river are not out at great length.

HIGH QUALITY is the verdict of every man that has smoked a REMITTEN CIGAR. Made from the choicest Havana tobacco. The name again is REMITTEN CIGAR.

### DUN'S REVIEW OF TRADE

Fine Spring Weather Stimulates Business in Nearly All Cities.

### STEEL SITUATION IS MIXED

Rumor of Further Price Cutting Depresses Certain Lines—Large Orders Placed in Structural Division.

### NEW YORK, April 2.—R. G. Dun & Co's. Weekly Review of Trade tomorrow will say:

The stimulating effect of fine spring weather is shown in the reports from nearly all the principal cities. Some progress is making toward better things in iron and steel, although conditions, as a whole, remain very unsettled. The continued uncertainty as to prices in some finished lines is the structural division, the low prices reported of further price cutting having a depressing effect. The best feature is in the structural division, the low prices named resulting in a heavy movement, while orders pending, aggregate a substantial total. In the primary cotton goods market, manufacturers are inclined to refuse orders for future shipments, indications pointing to higher rather than a recession in prices. The dominant factor is the export movement in China, which has not yet terminated. Estimates as to the aggregate business done since the first of the year vary from 100,000 bales to 120,000 bales, a large amount for this period. The consequent transfer of machinery to the heavier qualities of export goods has naturally affected the home market on the finer qualities of brown goods, while on gray goods converters are showing renewed interest in future contracts. The print cloth market is well sold up both in the east and south, while plaids and other colored goods are in satisfactory shape, and both staple and dress gingham are sold ahead for some distance. In the woolen goods division, the distribution of sample pieces is now completed and orders will begin to go on the road next week. Some duplicate business is already reported in the primary market, an indication that orders have been placed by retail clothing. It is expected that operations on overcoatings may begin earlier than usual this year, owing to the many new styles that have been shown.

The eastern boot and shoe market is quiet, wholesalers, as a rule, limiting the

### BRADSTREET'S REVIEW OF TRADE

Crop Reports Are Irregular and Business is Quiet as a Whole.

NEW YORK, April 2.—Bradstreet's tomorrow will say:

Trade and crop reports are irregular and business the country over is still quiet as a whole. There are, however, evidences of a growth in optimistic feeling, partly due, no doubt, to more springlike weather conditions. Current demand at wholesale is of a between-seasons character and jobbing distribution is confined largely to filling-in orders, but there is reported in several markets a disposition to take hold more freely from next fall.

Exports from leading industries are not materially different from last week. Wage reductions are more numerous, but strikes are not frequent. In iron and steel there is more business reported, but evidently at the expense of prices. Pig iron is dull and lower. A strike and lock-out has been averted in the anthracite coal trade and the usual spring reduction in prices is announced. Bituminous coal is still dull and weak. The shoe and leather trades are quiet, with little business yet booked for the fall season in shoes. Desirable grades of sole leather are in demand, with off-grades offered freely for sale. Eastern shoe shipments for the first quarter exceeded 1908 by 25 per cent.

There is evidence of more business in several lines of cotton goods. Yarns are more active, though weak. Print cloths are in better request. Gingham and wash fabrics are active. Worsteds are quite strong. The clothing trade is reported rather quiet. Women's wear goods still hold the center of the stage as regards activity and good reports come from the millinery business. Collections still incline to drag.

### FIVE HUNDRED WOMEN RAID TRADING STAMP STORE

Passage of Anti Bill in Minnesota Causes Rush and Police Are Called Out.

ST. PAUL, April 2.—Following the passage of a law making issue of trading stamps illegal unless they bore on the face the actual value of the stamps, which practically ended the trading stamp business in Minnesota, several small runs have been made on the local trading stamp stores. Today 500 women gathered in front of one store and attempted to get their books filled so that they would be able to face the actual value of the stamps, which they were unable to do. The concern was unable to handle the crowd and police reserves were called out to disperse it.

### MAY SETTLE CHICAGO STRIKE

Leaders Say Most of the Trouble Will Be Settled Saturday.

CHICAGO, April 2.—Unionists in the building trades who struck yesterday for wage advances confidently looked for a partial settlement of their troubles today. While it was the opinion of some that the strike would continue indefinitely, union leaders declared most of the troubles would be ended by tomorrow. A number of striking electricians returned to work today as about seven-five firms have accepted the terms of the strikers. About 100 steam fitters returned to their old positions with the firms that signed new agreements.

To guard against possible trouble Chief of Police Shippy has issued an order to keep policemen on reserve until further notice.

### 300,000,000 bushels in the corresponding period last year.

Corn exports for the week are 1,922,244 bushels against 1,824,724 bushels last week and 596,827 bushels in 1908. For the forty weeks ending April 1 corn exports are 2,446,630 bushels against 2,466,094 bushels last year.

### Wheat Makes New Record

All Deliveries Pass High Mark Made Thursday, May Going to \$1.21.

CHICAGO, April 2.—Wheat prices on the Board of Trade today eclipsed the high record mark for the season established yesterday for all deliveries, the May option advancing to \$1.21 per bushel and the July to \$1.08. Crop damage reports and an urgent demand for the cash grain, both here and at Kansas City and St. Louis, were factors contributing to the continued upward flight of prices.

### ST. PAUL, April 2.—Following the passage of a law making issue of trading stamps illegal unless they bore on the face the actual value of the stamps, which practically ended the trading stamp business in Minnesota, several small runs have been made on the local trading stamp stores.

Today 500 women gathered in front of one store and attempted to get their books filled so that they would be able to face the actual value of the stamps, which they were unable to do. The concern was unable to handle the crowd and police reserves were called out to disperse it.

CHICAGO, April 2.—Unionists in the building trades who struck yesterday for wage advances confidently looked for a partial settlement of their troubles today. While it was the opinion of some that the strike would continue indefinitely, union leaders declared most of the troubles would be ended by tomorrow. A number of striking electricians returned to work today as about seven-five firms have accepted the terms of the strikers. About 100 steam fitters returned to their old positions with the firms that signed new agreements.

### Duck Hunter Loses Hand.

SIoux FALLS, S. D., April 2.—(Special.)—Gus Burfield, a resident of Aurora county, met with a serious accident while duck hunting, the accident resulting in the loss of the greater part of his right hand. Burfield was crawling up on some ducks and was drawing the gun after him when the weapon was accidentally discharged, tearing away a portion of the hand. The fact that he will be crippled for the remainder of his life is a great misfortune to Burfield, as he is in poor financial circumstances and has a wife and two small children dependent upon him for support.

### New Creamery for Phillip.

SIoux FALLS, S. D., April 2.—(Special.)—After offers extending over several weeks it now is assured that a new creamery will be established at Phillip, one of the striking new towns between the Missouri river and the Black Hills. In western South Dakota. The institution will be conducted by a stock company. Nearly all the stock already has been sold and the contract for the erection of the building and the installing of the necessary machinery will be awarded in the near future. Farmers in the vicinity of Phillip thus will have a convenient market for their cream and milk.
