Dainty French Underwear

Bell Boug. #18-BOTH PROWER BRACH ALL DEFTS .- Ind. A-1841

These dainty, sheer garments are the envy of every woman. All are made in France, and most of them have seams, and every stitch hand done. Our showing for Spring, 1909, is now most complete. Your inspection is invited. Included are hand made gowns, chemise, corset covers and skirts.

Redfern Whalebone Corsets

Receive their laurels as the prima donna receives her's.

These corsets are the inspiration of corset designers all over the world, as they are foremost in style. So advanced are their lines that they denot a full season ahead the figure fashion to come.

The figure is not necessarily reduced in a Redfern. It is made to look slim through the proper distribution of the flesh in the corect, which gives the straight lines by not curving the waist. In the very latest Redfern models the cloth of the skirt extends beyond the boning section, making the corset perfectly comfortable, sitting, standing or walking.

SECURITY RUBBER HOSE SUPPORTERS. Are attached to every pair of Redfern Whalebone Corsets.

Redfern models range in price from \$8.50 to \$15.00 per pair, According to the richness of the material.

In attendance this week is a special corsetiere, drainel by the designers of Redfern models, who will see that you are properly corseted in the "new fashion."

Row with Cannon May Cost Fowler

Uncle Joe in Mood to Retire Insurgent from Banking and Currency Committee.

WASHINGTON, April 12-There is much speculation concerning the new committee on banking and currency which will be appointed by Speaker Cannon, along with other committees of the house, probably on the last day of a special session. It is freely predicted that the speaker will reorganize the committee from the head to foot. Inasmuch as the Aldrich commercial paper bill enacted into law by the Sixtleth congress is regarded as a temporary measure it is expected the new committee will be called upon to solve important financial questions and assignments to it are aniously sought.

Representative Charles N. Fowler of New Jersey has been chairman of the committee for several years. For some time, however, he has been in sharp conflict with the state circuit court, has been followed Speaker Cannon. Mr. Fowler's reappointment as chairman of the committee two being arrested for the second time. In the years ago was the subject of much consideration. Since that time Mr. Fowler has done little to heal the breach between himself and the speaker. The New Jersey given to the state as security for a loan of \$750 of school fu

"What, pulled a draw-bar! Look out of the window and see if www've slipped a tire; we all certainly have our ups and downs in life. This was the expression of Lewis W. Hill,

president of the Great Northern rallway, son of James J. Hill, it's builder, and himself a millionaire, as he rode through the streets of Omaha Monday afternoon in the very oldest back of which the city boasts.

The perilous ride was taken that the head of the Hill system might look over the motor car shops of the McKeen company and learn something, if possible, about railroading from E. H. Harriman. With W. R. McKeen of the motor can vorks and a representative of The Bee President Hill chartered the old chains at he Union station that he might make the

trip to the motor shops before leaving the city last evening. The old hack bears every mark of the wonderful one-hoss shay and it acted like the old deacon's rig Monday afternoon. "It'll go to pieces all at once-nothing

WEBSTER CITY, IA., April 12-(Special.) -There came near being mob violence in Webster City late Salurday night, J. S. The provocation was

the striking of Raigh Mertz, a 15-year-old boy, in the forehead with a hammer. Meriz lay unsonscious for three hours. He sustained a fractured skull and still hes in h serious condition with the danger present that he may suffer a hemorrhage or a con-

tusion of the brain. Johnson has been having trouble with a certain set of boys ever since he came here last fall. Saturday night he slapped a boy named Smith and when the latter started for him, he struck at him with the hammer, but instead hit Mertz a glancing blow. The latter was an innoncent bystander, having taken no part in the altercation, that the blow was glancing probably saved the boy's life. Bystanders grasped Johnson and he was terribly

beaten, when the crowd turned their attention to the wounded boy. This was Johnson's opportunity to get away and he locked the door on them, later escaping

through a window. When it was seen that Merts was in a serious condition, a rush was made for Johnson. The door was burst in, but the man had gone. He could not be found all night by the policemen but Sunday morning was found in hiding in

Former County Auditor Intended Victim-Escapes by Driving Away Rapidly.

SIDNEY, Ia., April 12 .- (Special Telegram.)-Mrs. C. M. Swearingen, widow of the late Colonel Swearingen, fired a revolver this morning at Roscoe S. Williams, former county auditor. He was on a wagon and escaped by driving off rapidly. The woman was locked up. It is thought her defense will be insanity. Both parties are, prominent citizens and old residents. The shooting is the sequel of an old feud which originated several years ago, when Williams traded some Kansas land to the woman for her home here, known as "The Saints' Rest." She has since claimed that she was bested in the deal and has been writing belligerent letters and maintaining a threatening attitude toward Williams, Williams has sold out here and was going to Oklahoma today. Dotter - Print water and to succeed Mr. Cannon as the speaker of the Sixty-first congress

The fact that he did not make a campaign for the position was not due to any regard for the ambitions of Mr. Cannon, it is understood, Mr. Fowler was one of the "insurgents" who caused so much trouble for the republican organization in the fight over the adoption of the rules of the house. However, Mr. Fowler's high standing as an authority on finance, and his general ability, may again prove factors strong enough to retain the chairmanship for him. If the speaker decides to reorganize the committee, it is believed he will select Representative Edward B. Vreeland of New York to head it. Mr. Vreeland has never been a member of the committee, but he achieved signal honor a year ago by procuring the passage through the house of a bill he had drafted on the currency exflon which was later superseded by the Aldrich bill. Speaker Cannon then made him chairman of the house delegation on the monetary commission which is investigating the currency question. Vacanles on the comittee occur through the refought one.
