Four Injured in Kansas Tornado

Catholic Church at Aurora Demolished and Priest Hurt—Brakeman Blown from Train.

CONCORDIA, Kan., April 13.—When telephone communication was opened up today with Aurora, a little town south of here, it developed that four persons were injured, none, it is believed, fatally, in the tornado that struck that place yesterday. The Catholic church was among the buildings demolished and Father Miller was blown fifty yards, but not seriously hurt. A. M. Gusselmann, who was with the priest, suffered a broken limb. Nelson Marcotte and his infant child were seriously hurt. None was killed in Aurora, but at Beloit, a nearby town, Edward M. Wells, a brakeman, was blown from a Missouri Pacific freight train and killed. In Aurora, two churches and two stores were wrecked and almost every store and house in town was damaged. Much stock was killed in the country.

Senate Will Take Due Care of Wool, Hides and Coal

Prediction is Made Intermountain States' Claims Will Be Recognized by the Upper House.

(From a Staff Correspondent.)
WASHINGTON, April 13.—(Special Telegram.)—Wool, hides and coal, in which Nebraska, Iowa, Wyoming, South Dakota and intermountain states are greatly interested, will be taken care of by the senate tariff bill. Already interest in these three great products has been at work with a view of amending the tariff schedule. It is expected that the senate will be ready to take up the Dingley bill.

The coal schedule will be a modification of the Dingley bill, with possibly 4 per cent ad valorem duty on bituminous coal, as against the present duty of 67 per cent, which includes an administrative charge. If this ad valorem duty of 40 per cent on coals from the intermountain sections of the United States, and which necessarily affects coals from West Virginia and states bordering thereon, be written into the bill, it will be satisfactory to coal operators in the Wyoming basin and elsewhere. This rate will keep out coals from Canada and the Crow-Nest country.

On the question of hides, cattlemen now in Washington predict the senate will put 10 per cent ad valorem duty on hides, as against the present duty of 67 per cent, which includes an administrative charge. If this ad valorem duty of 40 per cent on coals from the intermountain sections of the United States, and which necessarily affects coals from West Virginia and states bordering thereon, be written into the bill, it will be satisfactory to coal operators in the Wyoming basin and elsewhere. This rate will keep out coals from Canada and the Crow-Nest country.

Balloon Tests at Fort Myer

Government is Preparing for Elaborate Demonstrations of Dirigibles and Aeroplanes.

WASHINGTON, April 13.—With the opening season for aerial flight rapidly approaching, activity will soon begin at Fort Myer. The signal corps of the army, which conducted the tests held there last year when Lieutenant Thomas E. Selfridge was killed in the wreck of the Wright aeroplane, is already making preliminary arrangements for the continuation of those tests. The balloon squad will be transferred from Fort Wood to Fort Myer next week and will immediately overhaul the free and captive balloons belonging to the corps, as well as the Baldwin dirigible, which was purchased last year.

The contracts for the delivery of heavier-than-air machines, held by the Wright brothers of Dayton, O., who are now in Rome, and by A. M. Herring of New York, have not yet been fulfilled in every detail. Orville Wright, previous to the accident to his machine, made numerous flights, some of which fulfilled certain of the conditions specified in his contract, but was affected by a cold. He will have to make one flight for endurance, remaining in the air for two hours and another for speed. It is generally acknowledged that the Wright brothers, barring accident, can meet these conditions successfully.

Although A. M. Herring has made a technical delivery of his aeroplane at Fort Myer, he has not made any public flights. He has formed a company with Glenn H. Curtis, whose flights in the "June Bug" and other machines belonging to the Aerial Experiment association, have made him famous in the world of aeronautics.

WOULD PROTECT OSAGE RANGE

Court Asked to Enjoin Texas Ranchmen from Using It for Pasture.

FORT WORTH, Tex., April 13.—Distances from Pawnee, Osage Nation, Oklahoma, say the county attorney in the district court there has asked for an injunction restraining Texas stockmen from bringing their herds to the Osage Nation for pasture or other purposes. If the injunction is granted it will stop the movement of over 1,000,000 head of cattle each season from this state and cause an immense loss to the ranchmen. It is alleged that in moving the herds to the Osage nation cattle ticks and diseases are brought into that section. The Texas cattlemen expect to contest the case.

His wife being dead he had been making his home with his daughter, Mrs. Poole, for some time.

TRUE BILLS IN LIQUOR CASES

More Indictments Returned in Sioux Falls for Illegal Sale.

SIoux FALLS, S. D., April 13.—(Special.)—The United States grand jury has returned several additional indictments and is at work on other cases which are to be disposed of by the grand jury. The indictments returned by the grand jury are as follows: Will Jackson of Mitchell, a colored man, on the charge of carrying on the business of a retail liquor dealer without having first paid the special government tax. The indictment contains two counts, the second charging him with failing to post a notice showing that he had paid the tax. The offense is stated in the indictment to have been committed between January 3 and 16 of the present year.

Fireman's Life Saved by Comrades

Barrel of Varnish Explodes and Companions Roll Him in Mud to Rescue Him.

SIoux CITY, Ia., April 13.—(Special Telegram.)—A fire which started in the oil room at the factory of the City Bath and Door company this morning caused a loss estimated at \$30,000. Although workmen were engaged in the building the conflagration was not discovered until it had gained great headway. The impetus given the blaze by stored oil made it a stubborn fight for the firemen. The principal damage was to the finished product of the company stored on the second floor. L. Humphrey, a fireman from hose house No. 1, had a narrow escape from death. He was standing near a barrel of varnish when it exploded throwing oily substance on his clothing. Prompt action in turning the hose on him and rolling him in the mud saved his life.
