WARSHIP ORDER IS WELCOME

Americans in Turkey Receive News of Cabinet Action.

CIVIL WAR IS NOW FEARED

Late Reports from Syrian Coast Indicate Racial Fanaticism is Breaking Out Anew in Aleppo.

BULLETIN.

LONDON, April 21.—A special despatch received here from Constantinople says that a definite agreement between the government and the committee of union and progress has been concluded. Abdul Hamid is to remain as sultan of Turkey, but the present cabinet will resign immediately.

CONSTANTINOPLE, April 21.—The receipt of the news here that the American government had ordered the cruisers Montana and North Carolina to Alexandria, in Asiatic Turkey, for the protection of Americans has brought satisfaction and even a sense of security to Americans here and in the Syrian coast cities of Merzina, Beirut and Alexandretta. Whither the information has been forwarded. The trouble may be over before the cruisers arrive, but there is also a chance that in two or three weeks time civil war may be beginning, in which event the vessels would be invaluable for the protection of the Americans. Great Britain, France and Italy already have warships on this coast, while Germany is sending vessels, and in addition all the great powers maintain guardships at Constantinople.

The consuls and consular agents stationed on the Syrian coast sent in telegrams yesterday and today declaring that the missionaries were receiving strong protection at the hands of the Turkish authorities. J. B. Jackson, the American consul at Aleppo, however, expresses some concern for the missionaries in outlying stations who have given asylum to Christian refugees. At a number of places the conditions are not yet sufficiently quiet to permit these refugees to leave the stations and as a result the missionaries are still exposed to the possibility of mob attack.

Later reports from the Syrian coast say the racial fanaticism is extending in the vilayet of Aleppo. Disturbances have broken out at Antioch and Birejik and foreigners have taken refuge at the British vice consulates. The British cruiser Diana has landed fifty men at Alexandretta. The sheik-ul-Islam, the head of the church, has telegraphed the ecclesiastical authorities in Syria to exert every effort to put a stop to the disorders. The civil and military authorities appear to be powerless effectively to control the situation.

A telegram received here today from William Chambers, an American missionary at Adana, dated yesterday, says: "The trouble began April 14. By evening of April 18 Adana was quieter and peace still continued. The town is under martial law. Many people were killed, there was much looting, great damage was done by fire, the market was almost totally destroyed and the district was in a turmoil."

CUMMINS TALKS ON INCOME TAX

(Continued from First Page.)

criticism, said he had been represented as making an insidious attack upon the principle of protection by the raising of revenue from an income tax. "I desire," he said, "to disclaim any such intention. There is no senator claiming allegiance to the republican party whose fealty to the doctrine of protection is greater than my own. I understand that I came into the senate with some suspicion respecting my views upon the policy of protection. I admit that if I am to be measured by the tests imposed by the association of slander known as the American Protective League, then it will be found to be ungrounded. But if I am to be measured by the republican platform and by the declarations of McKinley, Harrison and Blaine, then I am as sound as any senator who marches under the political banner to which I yield my loyalty."

Mr. Cummins contended that the Payne bill would not insure sufficient revenue, but Mr. Aldrich took issue with him, saying that the export estimates of the revenue are more liberal than his. There was a full attendance of senators when the reading of the tariff bill paragraph by paragraph was begun in the senate today on motion of Mr. Aldrich. On Mr. Aldrich's suggestion it was agreed that any amendment to which there should be objection, should be passed over with the understanding that any senator might move at any time to take up any paragraph after it had been read.

Early Settlers' Picnic.

SIoux FALLS, S. D., April 21.—(Special.)—The board of directors of the Early Settlers' association of Minnehaha county has selected Tuesday, June 17, as the time for the annual gathering and picnic of the members of the association, to which the general public is invited. The picnic of this association are the big events of the kind each year in South Dakota, as it is not uncommon for 10,000 or 12,000 people to attend them. The picnic will be held on the permanent grounds of the association, at John Thompson's grove, near Baltic, north of Sioux Falls.

Dr. Shanefelt's Health Failing.

SIoux FALLS, S. D., April 21.—(Special.)—Thousands of residents of South Dakota will be sincerely sorry to learn of the failing physical and mental condition of Rev. Dr. T. M. Shanefelt, formerly of Huron, who for a period of eighteen years was superintendent of Baptist missions in South Dakota. Failing health compelled him to resign the position in 1907, when he left South Dakota and went to Birmingham, Mich., to spend his remaining years.

cially the Roumanian and Bulgarian vessels, have had to refuse to take more passengers and the Turkish craft for points down the coast are leaving with scarcely standing room.

The panic seems to be chiefly among the dwellers in the harems. A physician whose practice is largely in the harems said today that the prevailing excitement and fear had brought on a number of premature births. In some of the larger harems rumors are circulated almost hourly telling of violent street fights and imminent danger to the women, and as a result there is what may be called an epidemic of fear.

No Resistance from Army.

Izzet Pasha, chief of the general staff and principal member in Constantinople of the committee of union and progress, had handled the situation so skillfully that the first army corps has been won over to the constitutional cause to the point in any event of not offering any opposition. Izzet Pasha is making every disposition of the troops within the city to the advantage of Hueni Pasha, the commander of the constitutionalists, should the committee deem it necessary to occupy the city. The Council of Ministers has been in session today under the presidency of Tewfik Pasha, the grand vizier, presumably to discuss the demands of the constitutionalists. No announcement of the outcome of these deliberations had been made.

It is probable that a detachment of constitutionalists will come into the city tomorrow and encircle Yildiz Kiosk and there remain until it is determined what disposition is to be made of the sultan.

TEN SHOT BY COURT-MARTIAL

Charged by Constitutionalists with Trying to Undermine Army. CONSTANTINOPLE, April 21.—Ten persons who were caught by the constitutionalist troops trying to undermine their loyalty to their commander were executed by shooting at San Stefano today after a summary trial by court martial. Forty other men have been arrested by the constitutionalists during the last few days on similar charges.

of temporization, in which he is a past master.

The Cudaby Case.

Tom Creigh, Jr., of Omaha, who, with Mr. James H. Cudaby, has been in Washington for several days endeavoring to bring about an adjustment of differences between the federal government and the Cudaby Packing company, as outlined in a suit brought by the United States district attorney of Kansas against the Omaha and Chicago company for an alleged violation of law relating to oleomargarine, said today:

"We are here for the purpose of getting the facts before the commissioner of internal revenue. The case begun against the Cudaby company in Kansas City, as I understand it, was not prompted by the department, but was taken on the district attorney's own initiative. The Cudaby company has endeavored to live up to the oleomargarine law. Where it has made a color that color is natural. This we have endeavored to demonstrate by chemical analysis. The department, however, does not seem to realize that oleomargarine may present a different appearance at different times of the year, just as butter does, and we are in Washington for the purpose of showing Mr. Capers that the suits begun against the Cudaby company in Kansas City are wholly unwarranted. J. M. Cudaby left for New York today. Mr. Creigh will remain here until he can secure an interview with Commissioner Capers or Acting Commissioner Williams. Luther Drake, president of the Merchants National bank; Charles F. Mc-

Grew, vice president of the Omaha National bank, and W. E. Ricades, cashier of the United States National bank, who had a hearing today before Comptroller of the Treasury Lawrence O. Murray, protesting against South Omaha being made a reserve city, left for New York today, the matter a controversy being postponed for future hearing.

Machinery in Preparation to Take Census

Director North Gets Busy, Though Census Act Has Not Yet Passed in Upper House.

(From a Staff Correspondent.) WASHINGTON, April 21.—(Special Telegram.)—Though the bill providing for taking the thirteenth census of the United States has not yet become a law, Director North of the Census bureau is, and has been for some weeks, preparing to put the vast machinery into work to accomplish the work for 1910 as expeditiously as possible.

The proposition of Director North is to throw his enumerators into the field April 15, 1910, and complete the enumeration of inhabitants of the rural districts within thirty days. In cities of 5,000 or over it is expected enumerators will count heads, so to speak, within fifteen days, so that by May 15, 1910, enumeration, urban and country, will be completed and reports ready to forward to Washington for tabulation.

Under the pending census bill there will be a supervisor for each congressional district in each state so far as it is practicable to arrange such sub-division along geographical lines. These supervisors of the census will receive a salary of \$1,200 for their work, and in addition will receive \$1 for each 1,000 names enumerated within their territory. These supervisors are to be appointed by the president and must have the confirmation of the senate.

The enumerators who are to be paid a per diem of from \$2 to \$5, depending upon the territory in which they work. In cities, enumerators will receive a certain amount for each name. In Nebraska there will be six supervisors, one for each congressional district, and they will have under them 1,200 enumerators.

In Iowa there will be eleven supervisors and 2,300 enumerators. In South Dakota there are to be appointed two supervisors and 600 enumerators, while in Wyoming there will be one supervisor and 150 enumerators.

Nebraska and Iowa Carriers.

(From a Staff Correspondent.) WASHINGTON, April 21.—(Special Telegram.)—Rural carriers appointed: Nebraska.—Lincoln, routes 1, Lafayette Halsted, carrier, Ernest Halsted, substitute; Plattsmouth, route 2, F. C. Thomas, carrier, John Schull, substitute; Iowa.—Clearfield, route 2, Clyde C. Moore, carrier, Lawrence E. Hartan, substitute; Derby, route 1, Bert I. James, carrier, Charles G. Luger, substitute; South Dakota: Lennox, route 1, Dick Pakken, Jr., carrier, Dick G. Pakken, substitute.

Nominations by the President.

WASHINGTON, April 21.—The president today sent to the senate the following nominations: H. Percival Dodge of Massachusetts to be envoy extraordinary and minister plenipotentiary to Morocco. William C. Blair, receiver of public money at Montrose, Colo. William H. Betting, register of the land office at Coeur d'Alene, Idaho. Edward P. Kingsbury, surveyor general of Washington.

-house dresses of unusual style, planned for -small women

—until the advent of our "small woman" idea, it was necessary to take ill fitting houses, if one happened to wear garments in sizes between 32 and 38 bust measure.

—but it's different now! The "small woman" may step right into precise fitting, prettily planned garments ready-to-wear—ready for service—ready for admiring eyes of others.

—we've a stock fairly brimming with one-piece dresses in new gingham, percales, chambrays, etc.; some with fitted bodices; some high necked with length sleeves and all more or less trimmed with solid bandings of contrasting colors, or neat buttons and trim. The skirts are gored; a small pleat on each gore.

—they're dresses one will feel "well dressed" in, even though on a hasty errand to the butcher, the grocer or the bank.

—don't attempt to make a "small woman's" house dress—for if you do you'll not get the "style touches"—and don't expect to find them in stores where the "small woman" idea is not so effectively carried out as at this establishment.

ments for the use of senators in order to facilitate an understanding of various schedules of the bill and Mr. Aldrich agreed to have such statements prepared.

Criticism by Dolliver.

After various questions by senators concerning their right at any time to suggest amendments to the bill, the reading was begun. As it proceeded with, questions were frequently asked by senators concerning the various items of the bill, but the reading proceeded at considerable length before there was any serious interruption. One of the first suggestions came from Mr. Dolliver, who criticized the action of the committee in increasing the Payne rates on manufactured celluloid articles to the existing Dingley rates. The explanations were made by Messrs. Aldrich and Smoot, but the manufacturers of celluloid goods in the United States are in danger of being driven out of business by cheap manufacturers in Japan. Mr. Smoot said that two large, new factories are now being built in that country. Mr. Briggs gave notice that he would offer an amendment for a still higher rate.

Wagar Disclaims Intent to Defraud

Former United States Commissioner Takes Stand in Trial on Embezzlement Charge.

SIoux FALLS, S. D., April 21.—The governor today concludes the work of offering evidence in the case of Anson Wagar, former United States commissioner at Dallas, who is on trial in the United States court on the charge of embezzling trust funds, which had been placed in his hands by homesteaders.

The defendant commenced offering testimony in his own behalf this afternoon. Several witnesses were placed on the stand to testify as to his good character and then the defendant himself was called as a witness. He said his failure to transmit to the United States land officials the final proof papers in question together with the money turned over to him was due purely to neglect resulting from his multitasking duties outside of those as commissioner and that he acted absolutely in good faith and without the slightest intention of defrauding any of the homesteaders out of a single penny. He claims he was on his way to the land office with some of the belated final proofs when arrested. When court adjourned today, Wagar was yet on the witness stand. His cross-examination is expected to be completed before the noon hour Thursday.

Big Sum Wagered on Best Oat Crop

Wyoming Man Bets Ten Thousand Dollars with Canadians He Can Beat Their Product.

When the judges of the National Corn exposition award premiums on oats in December, they will also decide a \$10,000 wager in a contest to learn whether better oats can be grown in Wyoming than in Canada or not. Colonel E. J. Bell of Laramie, sheep baron and large ranchman, has put up \$10,000 to say that he can grow more oats of better quality on his ranch in the Laramie plains country, than can be produced in any other section of any other state or country in the world. A syndicate of Canadian farmers, headed
