PAPERS APPEAL TO SENATE

Association Asks Upper House to Confirm Pulp Clause.

SEE CHANCE OF TRADE WAR

Resolution Declares High Duty is Intended to Make Possible Gigantic Paper Trust in United States.

NEW YORK, April 22.—At a meeting of the American Newspaper Publishers' association held today the following minutes were adopted:

The American Newspaper Publishers' association at its annual meeting in New York today, with the largest attendance in the history of the organization, comprising representatives of 25 daily newspapers, instructs its secretary to telegraph and write immediately to each United States senator advising him that the association by a rising vote earnestly urges the confirmation by the senate of the action of the house in the matter of pulp and print paper.

The investigation made by the select committee of the house, covering a period of ten months and surpassing in thoroughness any trade inquiry ever attempted in tariff history, has shown that American paper mills actually make paper cheaper than the most modern Canadian mill, and therefore any import duty upon print paper is in the nature of a concession to the American mill.

We protest against any procedure which will ignore the work and results of the house committee's investigation and which by provoking a trade war and stopping the exportation of pulp wood from Canada may bring great loss to American newspapers and destruction to American forests.

Thanks to the Speaker. The following was also adopted: Resolved, That the thanks of the American Newspaper Publishers' association are due to the select committee appointed by the house at the instance of Speaker Cannon to investigate the paper and pulp industry.

Ladder Found Under Window, but Effort is Frustrated—Identity of Mrs. Boyle.

MERCER, Pa., April 22.—An attempt to liberate James H. Boyle from the Mercer county jail was made last night, according to officials at the jail. That the effort failed was due to the vigilance of Night Watchman Robert Fruit, who discovered a ladder resting against the jail wall, directly under the window of Boyle's cell.

enthusiastically received with full Highland musical honors. He began with a tribute to the British people for their energy and genius in civilizing the uncivilized places of the earth.

ended upon the fact that the people at home knew little of affairs abroad. In this connection he instanced the United States and the Philippine Islands.

Continuing, Mr. Roosevelt expressed his great pleasure at the welcome given him yesterday by the British cruiser Pandora, whose sails and masts were manned by cheering sailors when the Admiral came into the harbor. He said he believed in peace, but considered that strength meant peace, and he hoped that all the great nations would provide themselves with this means to the end.

In conclusion Mr. Roosevelt referred briefly to his future plans, giving some of his first impressions of the country. Mr. Roosevelt was followed by Mr. Selous, who expressed the hope that Mr. Roosevelt would in the future use the power of his position to bring about an entente between Great Britain and Germany.

J. Alden Loring and Major Means did not come ashore from the Admiral yesterday because of the heavy rains. They disembarked this morning.

tion of Secretary of Agriculture Wilson, whose information concerning crops Mr. Patten recently declared to be "the joke of the century."

he snapped, turning on the reporter, "I want to forget wheat and I'm tired of reporters. Get out."

Mr. Patten reached Trinidad at 3 o'clock this morning and left here at 8 o'clock after a short rest at a hotel. He is traveling alone. He boarded the smoker of the way train to Terrell, and stoking a big cigar in his mouth lit it and sat stolidly smoking, occasionally glancing at the curious crowd which had invaded the smoking car and had gathered on the depot platform to get a glimpse of the famous "wheat king."

At the hotel where Mr. Patten rested for a few hours he was warned by the clerk that it would be dangerous to attempt the overland trip from Terrell to Bartlett ranch today, as a furious blizzard is raging in the mountains.

"I don't care," said Mr. Patten, "I want seclusion and rest, and I'm going after it." The stage cannot reach the Bartlett ranch before nightfall, and the roads are in a dangerous condition as a result of the almost unprecedented snowfall, tremendous snowdrifts being of frequent occurrence over the mountain passes.

SULTAN WILL HOLD THRONE

Will Remain Sovereign of Empire Under Agreement.

INVESTMENT OF CITY COMPLETE. Part of the Third Army Corps Sent to Asia Minor to Intercept Bands of Fugitives from the Capital.

CONSTANTINOPLE, April 22.—The sultan of Turkey and the chiefs of the constitutional party have reached an agreement under the terms of which his majesty remains as sovereign of the empire, but with powers somewhat more restricted than before the palace conspiracy of April 13.

The cabinet again is in session today. Negotiations are proceeding between Nazim Pasha, the commander of the first army corps, which garrisons Constantinople, and the commanding general of the army of investment on the following points:

The abandonment of 5,000 three-colored men in the Constantinople garrison and the replacement of the remainder of the gar-

ison by Saloniki troops; the punishment of soldiers according to the degree of their guilt in the revolutionary movement of last week, and the transfer of the command of the reformed, Macedonian gendarmerie, these conditions to be executed with clemency and moderation in order to prevent bloodshed.

The investment of Constantinople by the constitutionalists is practically complete. Contingents of the third army corps have been sent to points in Asia Minor, notably Eski-Shehr, station on the Anatolian railroad, to intercept fugitives and cut off communication with the capital on this side.

of rates without definite indication of such increases in the schedule. He said he proposed to have a full explanation of the schedule and to give other senators an opportunity to vote to lower some of the rates. "The woolen schedule," he said, "ought to be reduced. I undertake to say that for two years this schedule has been a bad advertisement for the republican party. I intend to vote as to adhere as far as possible to every reduction in the Dingley rate that was made by the house committee and to every reduction made by the senate committee. Wherever I find a rate in this bill above the Dingley rate of 'I reserve the right to inquire into the question whether after twelve years of prosperity with every industry multiplying output and increasing its capacity whether after twelve such years of industrial progress it might be possible to scale some of these duties. While it may be," said Mr. Dolliver, evidently referring to a statement by Mr. Aldrich, "that there are only a few increases and quite a large number of reductions in this bill, I venture to say whether it is through with it it will be so nearly like the Dingley law that many men will wonder what was the extraordinary occasion that called us here. This session certainly was not called to increase the schedule of the Dingley law."

PROCEEDINGS OF THE HOUSE

Session Lasts Forty Minutes, but No Business is Transacted.

WASHINGTON, April 22.—The house was in session for forty minutes today, but took no action on the census bill, the only important business which it had before it for consideration. Mr. Crumpacker (Ind.), chairman of the census committee, endeavored to have the house insist further upon its disagreement from the senate amendments, but the absence of a quorum prevented such action. For the same reason no conferees were appointed. The house adjourned until Monday.

Speaker Cannon today appointed the house committee on enrolled bills, Mr. Wilson (Ill.) being named chairman. The other members appointed to serve on this committee are Messrs. Moore (Pa.), Anthony (Kan.), Elvins (Mo.), Rainey (Ill.), Dixon (Ind.) and Willett (N. Y.).
