Lighting Bids Precipitate Trouble Among Councilmen.

"Sour grapes" is an element of the city lighting proposition which is to enter into the considerations of the bids for public lightning now before the city council. The who is the guest of Mrs. John council held a session Friday night as a

committee of the whole to consider the propositions. S. L. Winter, one of the principal advocates of the recent Nebraska Power company's proposition to erect and sell to South Omaha a \$2,500,000 municipal plant, and who is the present city attorney, was present to raise all the ob-

jections which were hurled against his favorite proposition and hurl the same agains the new South Omaha company, modified to suit the new conditions.

It was not denied that the new company's bid was \$5 cheaper for each arc light nor

that the commercial lighting rate was 2 cents cheaper for each kilowatt hour, but the point was made that whereas the present company now pays a royalty of \$1.75 on nercial lighting, the city would lose that royalty. The new company agreed. and is required, to pay a royalty at the same rate, but the patronage would be nothing at the start.

Ancient History Not Wanted. The representatives of the new company insisted that the questions involved in the Nebraaka power proposition were entirely out of place in the proposed plan and there was no reason for ringing up this bit of South Omaha's ancient history. The matter of the royalty would adjust itself Mr. and Mrs. Kearney will make their home long before the ten years' contract ex-

pired. It was agreed by the attorneys to incorporate in the lighting contract that a plant of \$100,000 valuation at least should be erected within the city limits and subject to taxation this would yield a revenue annually of \$920 at least. This, with the difference in the bids, would balance any present royalty.

S. L. Winters then attacked the credibility of the new company for the reason. as he expressed it, the attorneys for the new company had in the past attacked the credibility of the Nebraska Power company. It is likely that it will be a long time before the council and the public, to whom in all probability the proposition will in the end be referred, will have settled the light proposition. Already there are signs of sharp division

Here Monday in the council and it is doubtful if the contract as it stands at present will be awarded. A new advertisement may be necessary. The new company being nominally the lowest bidder, if not to all practical purposes, will object to a readvertisement.

After considering all these possibilities the committee of the whole rose without definite action and passed the question over until the meeting of the council Monday evening

is absolutely no question about qual-ity. When you buy here you don't pay any more than you would at an indifferent store, but you're certain about the quality. That's more im-portant in chosing diamonds, jewelry, watches and silverware than almost any other article of merchandise.

That Wedding Gift

There is the "family silver" idea. How substantial it sounds! How it touches the vanity of the self-made man! How it appeals to the best instincts in all of us-the love of respectability, permanence of family, continuity of blood and station, and similar pleasing inferences that the phrase carries with it. After all, there is much that is worthy in the idea of "family silver."

For wedding gifts, therefore, fitting preparations have been made by us in the display of numberless appropriate articles ranging from the daintiest trifles to the most elaborate of special pieces.
