We believe we have the ability, as we have the intention, to discharge the duties devolving upon the Board of Fire and Police Commissioners with fairness, faithfulness and a due regard for the rights of all elements of a cosmopolitan population.

We realize that Omaha is a live and progressive metropolis; that it has a Fire department and Police force of high merit, and the standard of duty and competency should be maintained.

We are seeking the suffrages of the voters of Omaha on the sincere pledge that all of our time required will be given to the discharge of the duties of the office we seek, and that the Fire and Police departments will be administered with an eye single to the interests of the city wherein all our own interests are centered.

Omaha is the most solid in a business sense, the fastest growing and most promising city of metropolitan character in the mid-west section of our country; and we declare our intention to do all that may be within our power to further its standing and growth, and to keep it at the front as one of the great cities of the United States. It is our home, and we must all rise or fall with it.

On this statement we earnestly ask your vote on May 4.

Circumstances over which we had no control brought us into the field as candidates several weeks after the other republican candidates were placed before the people; hence we are obliged to take this method of making our candidacy known to the voters.

HOME IS DAMAGED BY FIRE

Blaze in Residence of Charles M. Harl Last Night.

TWO OTHER CALLS FOR FIREMEN

Bolling Over of Pot of Grease in Metzger Bakery Starts Fire—Broadway Methodist Church Slightly Damaged.

The residence of Charles M. Harl on Oakland avenue, one of the finest homes in the city, was damaged to the extent of about \$2,000 Saturday night by a fire which started about 10:20 o'clock.

The blaze apparently originated in the basement in a section removed from the furnace and spontaneous combustion is the only theory which has been found to account for it. The fire worked its way to the second story, but was confined to two living rooms in the basement.

The greater part of the damage was from smoke and water.

Fire resulting from the boiling over of a large pot of grease did considerable damage to the wholesale bakery of A. Metzger & Co. on Mynter street about 10:30 o'clock yesterday morning. The damage is covered by insurance.

Central fire station No. 3 is within a stone's throw of the bakery and the firemen were on the ground immediately after the alarm was turned in and the other downtown companies arrived within a few minutes. The damage to the building will probably not exceed \$500, but is feared that the large quantity of flour, of which three car loads stored on the second story may have been damaged by the smoke.

The flour, however, was not injured by water as the firemen succeeded in getting the blaze under control without being obliged to throw water on the second floor.

It was feared at first that the bake ovens had been seriously damaged, but A. Louis stated yesterday afternoon that they would be able to resume operations at 1 o'clock yesterday afternoon to the Broadway Methodist church where waste paper, stacked at the back of the boiler in the basement had caught fire. The flames were working their way up the partition into the auditorium of the building when the firemen reached the place, but they soon had the blaze extinguished and the damage will be small.

Alexander Tipton Dead.

Alexander Tipton, a well known insurance man of southwestern Iowa, died Saturday afternoon at his apartments in the Wickham block, aged 72 years. Death was due to the infirmities of old age. Besides his wife, two sisters, two brothers and a half brother survive him. Three weeks ago, on April 26, Mr. and Mrs. Tipton celebrated the fifteenth anniversary of their wedding with a reception which was attended by a large number of their friends from this city and Glenwood, where they resided for many years before coming to Council Bluffs fifteen years ago.

Following brief services at 3 o'clock Monday morning in the apartments in the Wickham block, the body will be taken to Glenwood where the funeral will be held that morning at 11 o'clock from the Baptist church and interment will be in the Glenwood cemetery.

Prisoners Clamor for Heat.

A number of Jailor Hill's guests in the county battle have complained of the lack of heat, but as the heat was supposed to be supplied from the central plant in the court house, he was powerless to do anything except lay the matter before the superior officer, Sheriff Thomas McCaffrey.

Some of the prisoners in the county jail went so far as to consult their attorneys and request them to lay the matter before the district court.

The attention of Judge Wheeler was called yesterday to the alleged lack of

Council Bluffs

beat in the county jail and he promptly issued the following order:

It is hereby ordered that steam heat be provided for the county jail at Council Bluffs from 8 a. m. until 8 p. m. until further order and the sheriff and jailor are hereby directed to see that this order is complied with to the end that the health of the inmates be not unnecessarily endangered.

MATTERS IN THE DISTRICT COURT

Arguments on Demurrer to Nash Mandamus Petition.

In the district court Saturday Judge Wheeler heard the arguments on the demurrer of the city to the petition of the C. B. Nash company of Omaha in the mandamus action brought to compel the city council to correct the record of its proceedings relating to the \$90,000 water works bond issue. Judge Wheeler took the matter under advisement. The city was represented by City Solicitor Kimball and Charles M. Harl, special counsel in the water works litigation. The plaintiff company was represented by L. Crofoot and Edgar H. Scott of Omaha.

In its demurrer the city charged that the action was not brought in the proper court, the original suit of the plaintiff company to restrain the issuance of the bonds having been instituted in the federal court. It was also contended on behalf of the city that "the petition on its face shows that it is an attempt by mandamus to control the judgment and discretion of a legislative body in a matter committed to its judgment and discretion."

Mrs. Inno Sanders filed original notice of suit for divorce from Harry B. Sanders, on the grounds of cruel and inhuman treatment. The plaintiff will ask for the custody of their minor child.

The suit brought by Isadore Mucci of this city against the Wabash railroad for the loss of a team which was killed at the crossing near this city has been settled, and was dismissed yesterday.

The following additional jurors were drawn yesterday for the May term of district court at Avoca, which will be convened Tuesday by Judge Green: Rudolph Stamps, Lincoln; Charles Mortensen, Knox; Henry Kennedy, Macedonia; R. Ekel, Pleasant; Carl Boehm, Knox; W. C. Sude, James; Fred Corley, Belknap; Lou Oeler, Grove; G. R. Garner, Macedonia; Henry Ribst, Knox; J. W. McCaskey, Waveland; Peter Marks, Knox; John Byndergard, Knox; Lem Layton, Belknap; A. Dean, Wright.

ATTACK ON ANTI-PASS LAW

Brief Would Indicate Railroads Hope to Knock it Out Entirely.

SUIT OVER NEBRASKA BRIDGE

State Seeks to Have Charge of Nebraska City Reduced—Judge McClain Defends His Action in Sale of Code.

From a Staff Correspondent.

DES MOINES, Ia., May 2.—(Special.)—By the filing of this brief and argument in an action to be heard by the supreme court Saturday the railroads in Iowa made it plain that they not only intend to attack and have nullified the Iowa law forbidding distribution of passes, but they will make similar attack on all laws everywhere and undertake to defeat the whole plan of legal restriction of pass business. The immediate case is that of Schulz against Parker, of Buena Vista county, in which the state undertook to prosecute a local attorney for having used a pass on the Illinois Central. The railroads took it up and employed H. T. Sallinger of Carroll to prepare the brief and argument to be presented today in a brief and argument of 230 pages in which he attacks the whole scheme of anti-pass legislation. He goes into every phase of the situation and not only contends that the Iowa law violates contracts by forbidding the giving of passes to certain classes of railroad employees, but that it is in violation of the constitution and in violation of interstate commerce regulations and everything else. Most of the argument is of a character which can as well be used in other states as in Iowa, and it is the belief of the state officials that this is being regarded as a test case and that the fight is to go to other states as well. Attorney General Byers will prepare only a short argument and insist upon an oral discussion of the case before the court.

Another Bridge Case.

Following close upon the case which has been brought by the state to compel the owners of the big bridge at Dubuque to make it free, Attorney General Byers today took up a similar case involving the Burlington bridge at Nebraska City. The people of southwestern Iowa have complained of the bridge arbitrary fees, by which the company charges 50 cents for crossing the bridge, which is owned by the railroad company. The complaint is that this is excessive and not warranted and in violation of the interstate commerce law. The suit will go before the Interstate Commerce commission on behalf of the state unless the Burlington is willing to make a change in the rate across this bridge.

Nebraska Auditor in Iowa.

State Auditor Barton of Nebraska visited the state house today and was escorted about the building by State Auditor Bleakley of Iowa. He was here merely on a visit and without official connection.

It developed today that Charles Larsen of Red Oak, the new secretary of the State Pharmacy board, came near declining the office after he discovered that the salary was only \$150 a year, as he had supposed it was more than that. A plan was contemplated of moving the headquarters to Red Oak, but it was found this would be illegal.

Supreme Judge in Defense.

Judge Emil McClain of the Iowa supreme court is out in a defense of himself from the attacks of party officials about the state house with regard to alleged misconduct. He explains in full the connection of himself with certain annotations of the code which he sold to the code revision commission, and shows that this was his personal property, which the commission could secure in this way or secure in some other way. The two code commissions believed that it was better to buy the McClain annotations, which were in fact prepared long before he became a judge, and to put him under contract not

Iowa

to continue publication of the annotated statutes, and that the payment for same was regarded as perfectly legal and was shown by the fact that State Auditor Carroll, now the governor, drew the warrants for the same after auditing the claim.

Work of Railroad Commission.

The State Railroad commission has adopted the policy of having made out each week a statement of the work done by the board for publication, and indicating the cases which have been closed in some way. This week the secretary of the board reports as follows: Order for change in highway crossing in Carroll county; new depot building on Wabash at Summit; refusal to order underground crossing on farm in Jasper county; refusal to order fast train to stop at Gratiotville; agreement to have two certain trains on the Illinois Central stop at Monro; agreement to stop certain train at Maloy; agreement to have railroad cancel passenger transfer charge at Livermore.

Admits Bribery Offer.

With tears running over his face, sobbing like a child at the bribery allegations in the city council chamber yesterday, O. O. Smith, architect, today in his office admitted that he had given I. Ross Thompson, friend of M. H. Hanery, an order for \$2,500 should he secure the city hall contract.

Physician Drops Out of Sight.

Dr. L. E. Doxey, physician, Utica building, has mysteriously disappeared from Des Moines. Coincident with his sudden departure three weeks ago is the leaving of his wife two weeks later without giving any intimation to friends or acquaintances.

New Heir to Big Estate.

MASON CITY, Ia., May 1.—(Special.)—Consternation reigns in the ranks of the numerous array of nieces and nephews of the late Francis Mullen, a pioneer farmer of this county, who died a few months ago, leaving an estate worth \$100,000, by the announcement today that a new claimant has appeared who says he is John R. Mullen, a brother of the deceased. The estate of Francis Mullen is now in the hands of the court, where it was expected that a satisfactory settlement would be made in which the heirs living here would share. It is probable now that a lawsuit will result.

Grivwood Man Hurt.

GRISWOLD, Ia., May 1.—(Special.)—While assisting with the installation of the overhead shafting in the plant of the Iowa Windmill and Manufacturing company at this place, A. A. Gamble was quite severely injured by a piece of the shafting falling and striking him on the back of the head. A severe scalp wound was inflicted and Mr. Gamble was otherwise hurt. He was taken to his home and at the present time he is in a dangerous condition.

Iowa News Notes.

ALBIA—W. E. Bryson, convicted of criminal assault on his 14-year-old sister-in-law, Berle Garland, was sentenced to twenty years in the penitentiary by Judge Anderson today.

DICKENS—A. F. Flint, owner of the Dickens Review, has leased the plant to Merle R. Fish. Mr. Flint has bought the Klemme News and will move there at once to take possession.

SIBLEY—While digging a ditch near his home, J. G. Winter, an old and respected farmer of near here, dropped dead. His lifeless body was found several hours afterwards by members of the family. Heart disease is supposed to have been the cause.

STANDING FAST FOR THE WEST

Fifteen Senators Who Will Demand Changes in the Tariff Bill.

CONFIDENT OF THEIR STRENGTH

President Indicates to Senator Brown He Endorses Proposed Income Tax Amendment to the Constitution.

(From a Staff Correspondent.)

WASHINGTON, May 2.—(Special Telegram.)—There are many opinions almost as there are men to offer them as to when the Aldrich-Payne tariff bill will leave the senate. While there has been some talk of a debate among the group of younger senators representing the transmississippi country, it can be stated with positiveness that an understanding has been reached among fifteen or sixteen of them who will stay in Washington all summer, if necessary, until changes are made in a number of the schedules of the Aldrich bill. In this group of senators, who can with truth be said to have formed a working alliance in the interest of the great territory which they represent, are Burket and Brown of Nebraska, Dolliver and Cummins of Iowa, Curtis and Brewster of Kansas, Gage and Crawford of South Dakota, McCumber and Johnson of North Dakota, Borah of Idaho, Dixon of Montana, Clapp of Minnesota, with Nelson leaning very far toward the side of the Young Turks, and Warner of Missouri, LaFollette of Wisconsin and Brewster of Indiana, who in this category, but represent interests somewhat different from those represented by the group of senators given above.

When Senator Burket, in conference yesterday with Senator Aldrich, asked the able and adroit chairman of the finance committee when he thought the general debate would terminate in the senate on the tariff bill and Senator Aldrich replied: "I should think a week longer is all that is necessary, don't you?" Mr. Burket replied: "Why, yes, so far as we are concerned, a vote on Monday would be entirely satisfactory to me, providing of course, which I am interested are adjusted to meet the wants of the people I in part represent."

"But if these schedules are not adjusted to meet the wants of your constituency," replied Senator Aldrich, "what then?"

"Then," replied Senator Burket, "I believe there will be enough of us to continue business until August, at least."

How the Guesses Run.

And that is the situation tonight. The wise men of the senate are predicting that the Aldrich-Payne bill will get out of the senate before the 26th of May, and it is possible the conference may get through with the bill by June 1, but there are others who as confidently believe that it will be July 1 before President Taft has a chance to affix his signature to the measure.

Senator Burket has been practically assured that the duty on hardware will be fixed at 1 cent per pound or 10 per hundred weight, as against the present duty under the Dingley act of 250 per hundred weight. Hardware has been bought in Nebraska as low as \$2.50 per hundred weight, but should the duty be placed at 10 the reduction would be of an exceedingly substantial character, and this Burket believes probable after a conference with Chairman Aldrich and the Pennsylvania senators, Penrose and Oliver, today.

Brown's Bill Approved.

President Taft indicated his approval of Senator Brown's plan to give unquestioned authority to congress to pass an income tax law and said that he would sign such a bill. He also believes congress would be keeping faith with the people by adopting Brown's amendment.

Postal Appointments.

Postmasters appointed: South Dakota, Dale, Perkins county; Miss Nettie, Lincoln; Charles Mallory, resigned; Wyoming, Durham, Laramie county; Miss Mary A. Case, vice N. M. Brown, resigned; Fort Washackie, Fremont county; Grant Krieger, vice J. K. Moore, Jr., resigned.

Minor Matters at Capital.

Another of a series of dinners given by the president to senators and their wives took place tonight, among the guests being Senator and Mrs. Burket.

Postmaster F. D. Stanley, United States Navy, formerly of Omaha, passed through Washington today enroute to the Brooklyn Navy yard, to which station he was recently assigned.

Senator Burket (this morning presented) W. H. Stanley of Omaha to President Taft. Henry F. Clarke of Omaha arrived in Washington today to interest senators and members in a plan for the further dredging of the Missouri river at Omaha and Fort Crook.

C. C. Rosewater and wife, who have been in Washington during the last few days, left for Omaha tonight.

Pure Food Law is Upheld

Judge Sanborn Makes Test Ruling in "Mapleine" Company Case.

CHICAGO, May 2.—Federal Judge Sanborn, in a test case questioning the constitutionality of the government pure food and drug act, today upheld the validity of the law. The case will be appealed.

The case was that of the government against the Crescent Manufacturing company of Seattle, makers of "Mapleine." The government alleged that the use of this name constituted misbranding, in as much as this substitute for maple syrup contained no maple juices. The defense, aside from attacking the constitutionality of the law, alleged that the name was justified by the flavor of the product.

The government seeks to confiscate \$500 worth of "Mapleine" consigned to a Chicago concern. Other consignments in various parts of the country are said to be in jeopardy of seizure.

CINCINNATI, O., May 2.—The Corn Products company of Chicago attacks the constitutionality of the pure food law in an answer filed here today to allegations of United States District Attorney McPherson, who recently caused the seizure of a quantity of sugar manufactured by the Chicago company. The government alleged that the sugar was labeled "pure sugar," whereas it was adulterated. The company admits the label, but denies the sugar was adulterated.
