

Pay As You Go.
If You Don't Live Right You Will Lose Your Good Health.

There are certain things which men do which are certain to be harmful. There are excesses of feeding, and drinking, and dressing, and playing. You may not believe you are paying as you go—paying in loss of health—but you are and soon your cheeks fade and your bright eyes are dull, your sweet breath of youth is tainted, your soft, smooth skin rough and dry. Nature is collecting her due—you are paying as you go.

Take account of yourself. Live right, breathe right, think right, eat right. You owe it to yourself and the world to do your work with your utmost capacity. You can't do it on a full, a sour stomach, impure blood or tired brain. Eat right and you'll sleep right. Do both right and you'll succeed largely. Meats and rich foods do not start the day well. Make your breakfast of E-C Corn Flakes or Egg-O-See Wheat Flakes—always ready to serve, easy to digest, ample in muscle and nerve building, sufficient in vitalizing force.

Remember it's the wonderful Egg-O-See process that makes them so good to eat.

SIMPLE WASH CURES ECZEMA.

Why Salves Fail While a Simple Liquid Has Accomplished Thousands of Cures.

It is now thoroughly established among the best medical authorities that eczema is purely a skin disease, due to a germ, and curable only through the skin. It is not a blood disease at all; in fact thousands of people suffer with skin disease and are perfectly healthy otherwise, and thereby prove they have no diseased blood. Sinecure salves cannot reach the germs because they do not penetrate the skin. The only way to reach the germs is by means of a penetrating liquid.

Such a liquid can be obtained by simply mixing ordinary oil of wintergreen with thymol, glycerine and other healing agents. This compound, known as D. D. D. Prescription, stops the itch instantly—and the cures all appear to be permanent. In fact, it took thousands of cures, case after case, before the best scientific authorities were convinced of the absolute merit of this remedy. D. D. D. Prescription kills the germs in the itching skin. Its effect is seen within one minute after the first application. We especially recommend D. D. D. Soap in connection with the treatment.

CLASSIFICATION FIGHT IS ON
State Railway Commission Begins a Hearing Thereon.

RAILROAD RATEMAKER APPEARS
Commission Refuses to Adopt a Suggestion of Colonel Spens, and Member Editor Specker is Heard.

From a Staff Correspondent.
LINCOLN, May 12.—The state railway commission on Wednesday began hearing railroad men in regard to a new freight classification. The commission last year refused to adopt western classification No. 45 and for nearly a year No. 44 is the classification that has been in force. The numerous changes in articles from one class to another and the changes in the car load weights made by the proposed classification No. 44 caused the commission to issue an order to retain No. 44 in force until a new one can be agreed upon. The commission desires to follow the example of the railway commissions of other states and make one of its own. The present hearing is for that purpose. Classification No. 44 is used as a basis by the commission in adopting one of its own.

F. O. Becker of Chicago, chairman of the committee of railroad ratemakers that promulgated classification No. 44, appeared before the commission to explain the changes made by No. 44. He gave a detailed account of the changes that result in a decrease in rates.

Colonel Spens of the Burlington freight department suggested at the opening that the commission might confine its hearing only to changes against which shippers have protested. No shippers were present when Mr. Spens surveyed the room, but Chairman Clarke and Commissioner Winnett both declined to take his suggestion that changes against which no protests were filed might be considered satisfactory to the shippers. The commission stated that it desired to act upon its own initiative in the matter of classification, but in fact it had received many protests by mail and in each case the commission had said it would consider the protests.

Many Cars Put In.
Mr. Becker told in a general way of the changes in the classification No. 44 compared with No. 44. The new items inserted are 24 in number, 47 items are eliminated, 45 classification ratings are advanced, 53 are reduced, 90 minimum car load weights are advanced and 17 reduced.

MOVEMENT AIMED AT TAMMANY HALL
Meeting at Cooper Union to Secure Better Government for City of New York.

NEW YORK, May 12.—Zealous citizens of Greater New York gathered in Cooper Union Monday to inaugurate a movement to "determine means of securing the nomination of the proper candidates for city officer to be filled at the coming municipal election."

The movement, aimed against Tammany Hall, is nonpartisan. Isaac N. Seligman, the banker, who has been prominently identified with reform plans, called the meeting to order. Robert C. Ogden was unanimously elected chairman.

A resolution was adopted declaring that "if reckless spending at the expense of the people is to cease, if proper transit facilities are to be secured with the city's aid and more schools, parks and playgrounds provided, if, in short, the people are to get all that they are paying for and are not to continue to stand the money losses of a wasteful system, the basis of government must be promptly changed."

It was resolved, therefore, that the chairman of the meeting be authorized to appoint a committee to select the names of 100 citizens, including their own, to serve as a general committee to be charged with the duty of securing nominations, "chosen with reference to the city's needs alone and upon nonpartisan principles."
