Drouth Reports Continue to Pour Into Showers and Couler for the Night, Spasmodic Movements in Special Grain Centers of the East.

CONDITIONS ARE NOT RELIEVED

Light Receipts Live Corn an Advance and it is Strong Along with Whent-tocal Consumption Takes Supply.

OMAHA, May 12, 1900. Weather conditions are unreleved.
Drouth reports are continually coming in and serious damage is reported. Liverpool cables did not follow our domestic advances yesterday and this acted as a check to any buige on the local prices.
Corn is strong with wheat and light receipts gave cash corn an advantage. The copies gave cash corn are very light and avator stocks of corn are very light and ally receipts are only enough to supply ne local consumption. Wheat broke atter a steady and strong pening. The undertone is strong and all dvices are very builtan, but heavy seiling y professional speculators eased values, atching the market without buying sup-

by professional speculators eased values, catching the market without buying support. May wheat opened at \$1.27% and closed at \$1.27 and cash in advanced \$1.2 Receipts do not intrase and with no feature the changes will be limited until a better country movement is started. Stocks are decreasing inder daily consumption. May corn opened at 70½ and closed at 70½ c.

Frimary wheat receipts were \$2,000 bu, and shipments were \$3,000 bu, and shipments \$1,000 bu. receipts were 314,000 bu, and ship-

ornis were 336,000 bu., against receipts last car of 363,000 bu. and shipments of 389,000 Clearances were none of corn, none of as and wheat and flour equal to 60,000 bu. Liverpool closed walled lower on wheat no unchanged on corn. Local range of options:

WEATHER IN THE GRAIN BELT Fair and Con! Day,

OMAHA, May 12, 1909.

The trough of low pressure overlying the Rocky mountain slope Tuesday morning has moved bil elightly during the last twenty-four hours, except that the inorthern portion now overlies the extreme upper Missouri valley, where the depression is greatest. Light showers were general last night in Nebrashis, and extended north up the valley and over the northwest. night in Nebrasha, and extended north up the vailey and over the northwest. The rains in Nebraska were very light, but appear to have been fairly well distributed. An area of high pressure is moving in from the northwest, and cooler weather is general throughout the mountains this morning. Light to killing frosts occurred in Colorado, Wyenting, Montana and Idaho. The weather is clear east of the Mississippi river, and light frosts occurred in the lower lake region and upper Ohio valley. Conditions are favorable for showers in this vicinity tonight, followed by fair Thursday, with cooler tonight and continued cool Thursday.

READING IS CENTRAL FIGURE

sational features in today's market, but the failure of the general list to respond Spasmodic starts in one stock and

clai stocks was its most remarkable feature. Spasmodic starts in one stock and
another developed in succession, but in
the intervals the market lapsed into duliness and apathy.

Reading was the central figure in the
day's dealing, and its fluctuations were
violent and frequent in its flights to new
record levels, with the exceptions of its
rise to 164 in January. 1908. The highpriced coalers showed pretty close sympathy with the Reading movement. The first
jump in the price of Reading found other
favorites of the traders sluggish and unresponsive. When this was corrected by
an aggressive advance in Union Pacific,
Reading slipped back over the whole of
its previous upward course. Then, again,
when Reading was pushed to a new high
level. Union Pacific lost all of its advantage, giving the appearance of unavailing
efforts by the supporters of the market
to keep the whole list moving together.
Belief that the market was being manipulated to cover the real nature of the operations going on unsettled confidence.

Buying orders from abroad outnumbered
the selling orders, and the London market

Buying orders from abroad outnumbered the selling orders, and the London market showed growing disposition to speculate, preferring the volatile mining stocks as a medium. The strike of French government employes was of no apparent influence in the markets. The banking situation is bound to give importance to fluctuations in supplies of bank cash. The surplus reserve of less than \$8.00,000 of the clearing house banks is on volume of declearing house banks is on volume of deposits, reaching \$1,396,185,000, and of loans of \$1,346.484.000, both of which amounts are near to the highest ever reached by the clearing house banks. The demand for loans, meanwhile, is increasing, especially for fixed periods, and the supply offering is reported by brokers to be growing less. The amount of commercial paper is also growing more abundant. Heavy lesues of proposed railroad securities remain to be financed. The call loan branch of the money market remains tranquil. At-tention was attracted to an assertion of an influential Chicago banker that the specu-

lative deal in the wheat market was financed, not in Chicago, but in New York.
The late tone of the market much unpostry settled and the closing tone irregular.

ers went out with the apparent intention to secure as many cattle as possible, regardless of price. The result was that values showed an advance of 10g18c, in fact, mostly 18c over yesterday. Good steers sold up as high as \$6.85, with a piece of a load at \$6.90, this being the highest price touched sirce January, when \$7.00 was paid. The trade was active at the acvance and everything was cleaned up at an early hour.

HOGS-Hogs sold anywhere from steady to 5c higher this morning, depending largely upon the kind and weight. As has been the case every day for some little shipping and export steers, \$1,500,710 and the light hogs that made the best gain in price today. On the other hand, the light hogs, especially those on

SHEEP-Receipts this morning were light, as usual, but this fact seemed to have but little weight with buyers at the opening. Yesterday's lofty values appeared to have injected a more cautious air into today's seasion, and as a result, supplies did not move in accordance with the fast schedule of the last two weeks.

Prices were generally about steady. schedule of the last two weeks.

Metal Market.

NEW YORK, May 12 - Following the revision of prices for printed wash fabrics a much larger business is being placed with the agents. The general trade is quiet and while prices in cotton goods and yarns are flum, buyers are not willing to pay the advance which would be in keeping with the subset or trees asked for coting with the higher prices asked for cotton. Slik piece goods and ribbons are quiet. Johning houses are going a medium trade early.
