FIGHT LIQUOR SELLING IN GAGE. Wymore Council Enjoined by Court—Heavy Fine for Bootlegger. BEATRICE, Neb., May 18.—(Special Telegram.)—On the application of Attorney E. N. Kauffman of Wymore, County Judge Spafford this morning issued a temporary injunction restraining Mayor Rawlins and the city council of Wymore from granting applications for saloon licenses or hearing remonstrances until the case is disposed of in the district court. In his petition for a temporary injunction Mr. Kauffman sets forth that at the election held April 6 a majority of the votes were cast against saloons. Among other allegations plaintiff sets forth that he is a property owner in Wymore and if saloon licenses are granted his property will depreciate in value. The filing of this suit will probably tie up the saloon question in Wymore for another year. Henry Frerichs, arrested on the charge of bootlegging, pleaded guilty to three of the four counts in the complaint and was fined \$100 and costs on each count. He paid the amount of \$111 and was preparing to leave the police station when a complaint charging him with keeping liquor for sale at his barn was filed. He pleaded not guilty and his case was set for hearing next Friday. He gave bond for \$1,000 for his appearance at that time. Besides this suit Frerichs must stand trial on one of the counts in the first complaint. He is reported to be worth \$15,000.

Southern Paper Calls Ohioan Names Alplenty. Hollingsworth Rises to Question of Privilege in House, but is Shut Off. WASHINGTON, May 18.—(An ass of the first magnitude; "perhaps one of Sherman's best, who robbed defenseless men and women;" "contemptible little whelp;" "a politician;" "momentarily from Ohio;" "a puffed-up luminary;" "a puerile, puny pigmy from Ohio.")

These were some of the characterizations of Mr. Hollingsworth of Ohio, in editorials, which he had read in the house today as he was about to question the privileges affecting his resolution recently offered protesting against the portrait of Jefferson Davis on the silver service to be presented to the battleship Mississippi. The editorials accused him of "slandering the bloody shirt" and appeared in the Daily Clarion Ledger of Jackson, Miss., April 30; the Southern Sentinel, Ripley, Miss., May 6; the Shreveport Caucasian, Shreveport, La., May 4, and one other paper, name not given.

The reading of the editorials caused a great commotion and at times moved the members to great laughter. Finally Messrs Bartlett of Georgia and Fitzgerald of New York objected to further "slandering by the records" and demanded that the speaker rule on the question of privilege.

In an elaborate opinion, Speaker Cannon held that Mr. Hollingsworth had not been attacked in his representative capacity and he was not permitted to proceed further. Later Mr. Hollingsworth sought unanimous consent, first to print a speech on the subject, or else to address the house for thirty minutes.

Mr. Harrison of New York objected, whereupon Mr. Hollingsworth wanted the speaker to tell him why the objection was made. "The chair cannot tell," said the speaker suavely, "what moved the gentleman to object, because he is not a mind reader."

This tally convulsed the house with laughter. Kemper, Hemphill & Buckingham, All Kinds of Plating.

New Freight Rate Schedule Along Spokane Lines. Rates from Points East of Missouri to Points West, Except on Coast, to Be Reduced.

CHICAGO, May 18.—The Record-Herald will say tomorrow: "A new freight rate schedule from all the territory east of the Missouri river to all the western cities not located on the Pacific coast will go into effect on the transcontinental lines July 1. "The new rates will be based upon the rates which the Interstate Commerce commission ordered the railroads to put in from St. Paul and Chicago, Spokane and other points, and will be an average reduction under the present rates of about 15 per cent."

The railroads decided to do this instead of fighting the order of the commission in the courts. This decision came as a result of the visit of J. C. Stubbs, traffic director of the Harriman lines, to the commission in Washington last week. Conferences are being held in Chicago, at which the new tariffs are being prepared. One of the officials, who is attending, said: "The railroads have decided to try to carry out the principle announced by the commission in the Spokane rate decision instead of opposing to the courts. The result such a reduction in our revenues. The rate will be a general reduction in all rates from the vast territory east of the Missouri river to all the territory west of the Missouri river, except on the coast. It will also mean reductions in many of the rates from the west to all eastern points. It will be a voluntary reduction by the railroads, solely in the hope of satisfying public opinion, as in the opinion of the commission our rates are too high."

HAD NOT ENJOYED A MEAL IN YEARS. Arkansas Farmer Follows Advice of Cooper and Gains Fifteen Pounds in Few Weeks. A. D. Henry, a prominent farmer living on Rural Route No. 5, Jonesboro, Ark., in a statement given for publication, tells a story that makes interesting reading for persons who suffer from stomach trouble. Mr. Henry says: "For six years I was a chronic sufferer from stomach trouble. In all that time I did not eat a meal to enjoy it. No matter what I ate, it caused pain and distress. Food laid in a hard lump upon my stomach. I lost in flesh and strength, and was unable to find relief. I suffered night and day—was robbed of my sleep and rest, and arose in the morning as tired as when I went to bed. I was completely run down, and derived no benefit from any medicine I took. One day, while in town, my druggist recommended Cooper's New Discovery. I had noticed several articles in the newspapers regarding this man Cooper's work in the larger cities, and decided to give his medicine a trial. Its effect surprised me. Before I had taken all of the first bottle I felt wonderfully improved. The pain and distress had left me, my appetite was good, my bowels were moving regularly and naturally, and I began to sleep soundly at night. I continued the treatment, taking several more bottles, and in six weeks' time I felt like a new man, fully restored to health and strength. I gained fifteen pounds while taking the Cooper medicine. I cannot say enough in praise of Cooper's New Discovery—it brought new life to me. The theory of L. T. Cooper is based upon common sense reasoning. When asked recently why his medicine is so successful, he replied: "My New Discovery is successful because it corrects the stomach. My theory is that few can be sick if the digestive apparatus is working properly. It naturally follows that few can be well with a poor digestion. I know from experience that most of the tired, half-sick people that are so common now-a-days have half-sick stomachs. Put the stomach in shape and nature does the rest. The result is general good health. My medicine does this." Cooper's New Discovery is a boon to stomach sufferers. It is sold by all druggists everywhere. A sample bottle mailed free upon request by addressing The Cooper Medicine Company, Dayton, Ohio.

New Freight Rate Schedule Along Spokane Lines. Rates from Points East of Missouri to Points West, Except on Coast, to Be Reduced.

CHICAGO, May 18.—The Record-Herald will say tomorrow: "A new freight rate schedule from all the territory east of the Missouri river to all the western cities not located on the Pacific coast will go into effect on the transcontinental lines July 1. "The new rates will be based upon the rates which the Interstate Commerce commission ordered the railroads to put in from St. Paul and Chicago, Spokane and other points, and will be an average reduction under the present rates of about 15 per cent."

The railroads decided to do this instead of fighting the order of the commission in the courts. This decision came as a result of the visit of J. C. Stubbs, traffic director of the Harriman lines, to the commission in Washington last week. Conferences are being held in Chicago, at which the new tariffs are being prepared. One of the officials, who is attending, said: "The railroads have decided to try to carry out the principle announced by the commission in the Spokane rate decision instead of opposing to the courts. The result such a reduction in our revenues. The rate will be a general reduction in all rates from the vast territory east of the Missouri river to all the territory west of the Missouri river, except on the coast. It will also mean reductions in many of the rates from the west to all eastern points. It will be a voluntary reduction by the railroads, solely in the hope of satisfying public opinion, as in the opinion of the commission our rates are too high."

HAD NOT ENJOYED A MEAL IN YEARS. Arkansas Farmer Follows Advice of Cooper and Gains Fifteen Pounds in Few Weeks. A. D. Henry, a prominent farmer living on Rural Route No. 5, Jonesboro, Ark., in a statement given for publication, tells a story that makes interesting reading for persons who suffer from stomach trouble. Mr. Henry says: "For six years I was a chronic sufferer from stomach trouble. In all that time I did not eat a meal to enjoy it. No matter what I ate, it caused pain and distress. Food laid in a hard lump upon my stomach. I lost in flesh and strength, and was unable to find relief. I suffered night and day—was robbed of my sleep and rest, and arose in the morning as tired as when I went to bed. I was completely run down, and derived no benefit from any medicine I took. One day, while in town, my druggist recommended Cooper's New Discovery. I had noticed several articles in the newspapers regarding this man Cooper's work in the larger cities, and decided to give his medicine a trial. Its effect surprised me. Before I had taken all of the first bottle I felt wonderfully improved. The pain and distress had left me, my appetite was good, my bowels were moving regularly and naturally, and I began to sleep soundly at night. I continued the treatment, taking several more bottles, and in six weeks' time I felt like a new man, fully restored to health and strength. I gained fifteen pounds while taking the Cooper medicine. I cannot say enough in praise of Cooper's New Discovery—it brought new life to me. The theory of L. T. Cooper is based upon common sense reasoning. When asked recently why his medicine is so successful, he replied: "My New Discovery is successful because it corrects the stomach. My theory is that few can be sick if the digestive apparatus is working properly. It naturally follows that few can be well with a poor digestion. I know from experience that most of the tired, half-sick people that are so common now-a-days have half-sick stomachs. Put the stomach in shape and nature does the rest. The result is general good health. My medicine does this." Cooper's New Discovery is a boon to stomach sufferers. It is sold by all druggists everywhere.
