Omaha Clearings Grow With Speed

New Orleans, Cleveland and Minneapolis Near Being Caught by Market City.

Omaha continues to attract attention is the financial world by the remarkable gains which it makes each week in bank clearings. For the week just closed the gain was 30.5 per cent, a larger percentage of gain than any of the large cities of the country which have larger clearances than Omaha.

Some of the coast cities have taken brace and are now showing a slightly larger gain, having recovered from th financial troubles of a year ago.

Omaha is now making a last race t beat out New Orleans, Cleveland and Minneapolis, all much larger cities. If the present gains are kept up for another year these cities will be left at the post.
